SNIPPETS

- Professionally designed mini-templates featuring items like sidebars, infographics, headlines, scoreboards, polls, quotes, table of contents and more.
- Simply drag and drop right onto your page.
- Use as-is or as a starting place and edit to fit your needs.

EASILY CREATE A CLEAN, MODULAR PAGE DESIGN WITH MORE COORDINATING SNIPPETS

IMPROVED SEARCH & FIND FEATURE FOR DESIGN ELEMENTS

- Search, find, filter and save favorite design elements for quicker access.
- Type in what you're looking for and Pictavo will filter the results that fit your description.
- Search by item number (found below each art element) or a keyword/descriptor. **A**
- Includes backgrounds, clip art, templates, Snippets and tagged candids.
- Flag favorite elements by clicking on the star to have them save into your "Favorites" folder for quick access on any page. **B**

Ideas and Inspiration

EVERYONE NEEDS A LITTLE INSPIRATION NOW & THEN

We're constantly coming up with and gathering ideas to help make the yearbook process easier and your yearbook even better. From design tips, theme ideas and layout suggestions to cool cover treatments, ad promotions and book sale recommendations, you'll find great advice and inspiring ideas that will help you create and sell a yearbook you can be proud of.

Pictavo Page Layout Tips

BLEEDS

- The yellow border around your pages in Pictavo is the bleed area. All color blocks and candid photos that are intended to extend off the page (or bleed) should completely extend to the outer edge of the yellow area. This will eliminate slivers of white at the edges of your pages when the pages are trimmed.
- Pictavo backgrounds (and any custom backgrounds that you import into the Backgrounds folder) will automatically fill the bleed area completely.

Example of Correct Bleed (see **A**)

The candid photos and blue shape are properly extended to the outer edge of the yellow bleed area. There will be no white area on the page edges, because the image is set to bleed correctly.

TWO-PAGE SPREADS

- Click on the Link tool (**B**) to link two pages together if you are designing two-page spreads in your book. Two-page spreads allow you to place images and/or text across the center, or gutter, of your book.
- With a hard cover binding and two-page spreads, Smyth binding is recommended instead of a standard hard cover binding. Standard hard cover bound books may lose up to 1/2" of the images and text that are placed across the gutter.

Example of Two-Page Linked Spread (see **C**)

The images cross over the gutter of the book. If a standard hard cover binding is used, portions of the students' faces would be pulled into the binding and would not be visible to the reader.

SAFETY MARGINS

- The thin green margin lines around the edges of each page are safety margins. They are set 3/8" inside the trim edge. Keep important images and text inside these guides to prevent them from being trimmed off or lost in the gutter/binding.
- For items that are meant to extend off the page, it's acceptable to place them outside the safety margins (see [Bleeds](#) above).
- For hard cover books that have text or images that are less than 1/4" from the trim line on the spine side of the book, Smyth binding is recommended to prevent them from being lost in the binding.

Example of Safety Margins (see **D**)

The image in the lower right is kept within the safety margin and there is no risk of it being trimmed off.

SPELL CHECK

- A red, jagged line will automatically appear beneath any word not in the Pictavo dictionary.
- Right-click on the flagged word and a list of suggested alternatives will appear. You can also add the flagged word to the Pictavo dictionary if it is, indeed, correct.

Example of Spell Check (see **E**)

PICTAVO HELP

To get instant access to specific help topics and video tutorials, just click on the "Help" button at the top right of the screen when logged into your Pictavo account.

Here you'll find a list of topics that answer popular questions and teach you how to use Pictavo features through step-by-step guides and videos.

Autograph & Current Events Pages

AUTOGRAPH PAGES

An Autograph Page Set can be included in your yearbook (contact your yearbook provider for pricing). These pages are NOT numbered or included in your total page count. Please indicate your choice and placement option during your page submission process. NOTE: These autograph pages are printed on matte stock, which makes them easy to write on!

Stock Set A (4-pages)
This autograph set is geared toward elementary or middle school students.

Stock Set B (4-pages)
This autograph set is geared toward elementary school or middle school students.

Stock Set C (8-pages)
This autograph set is geared toward middle school or high school students.

CURRENT EVENTS: BACKGROUNDS AND CLIP ART

Make sure to include Current Events in your total page count since they are treated like any other pages in your yearbook. Current Events Backgrounds and Clip Art will be available after February 15, 2017.

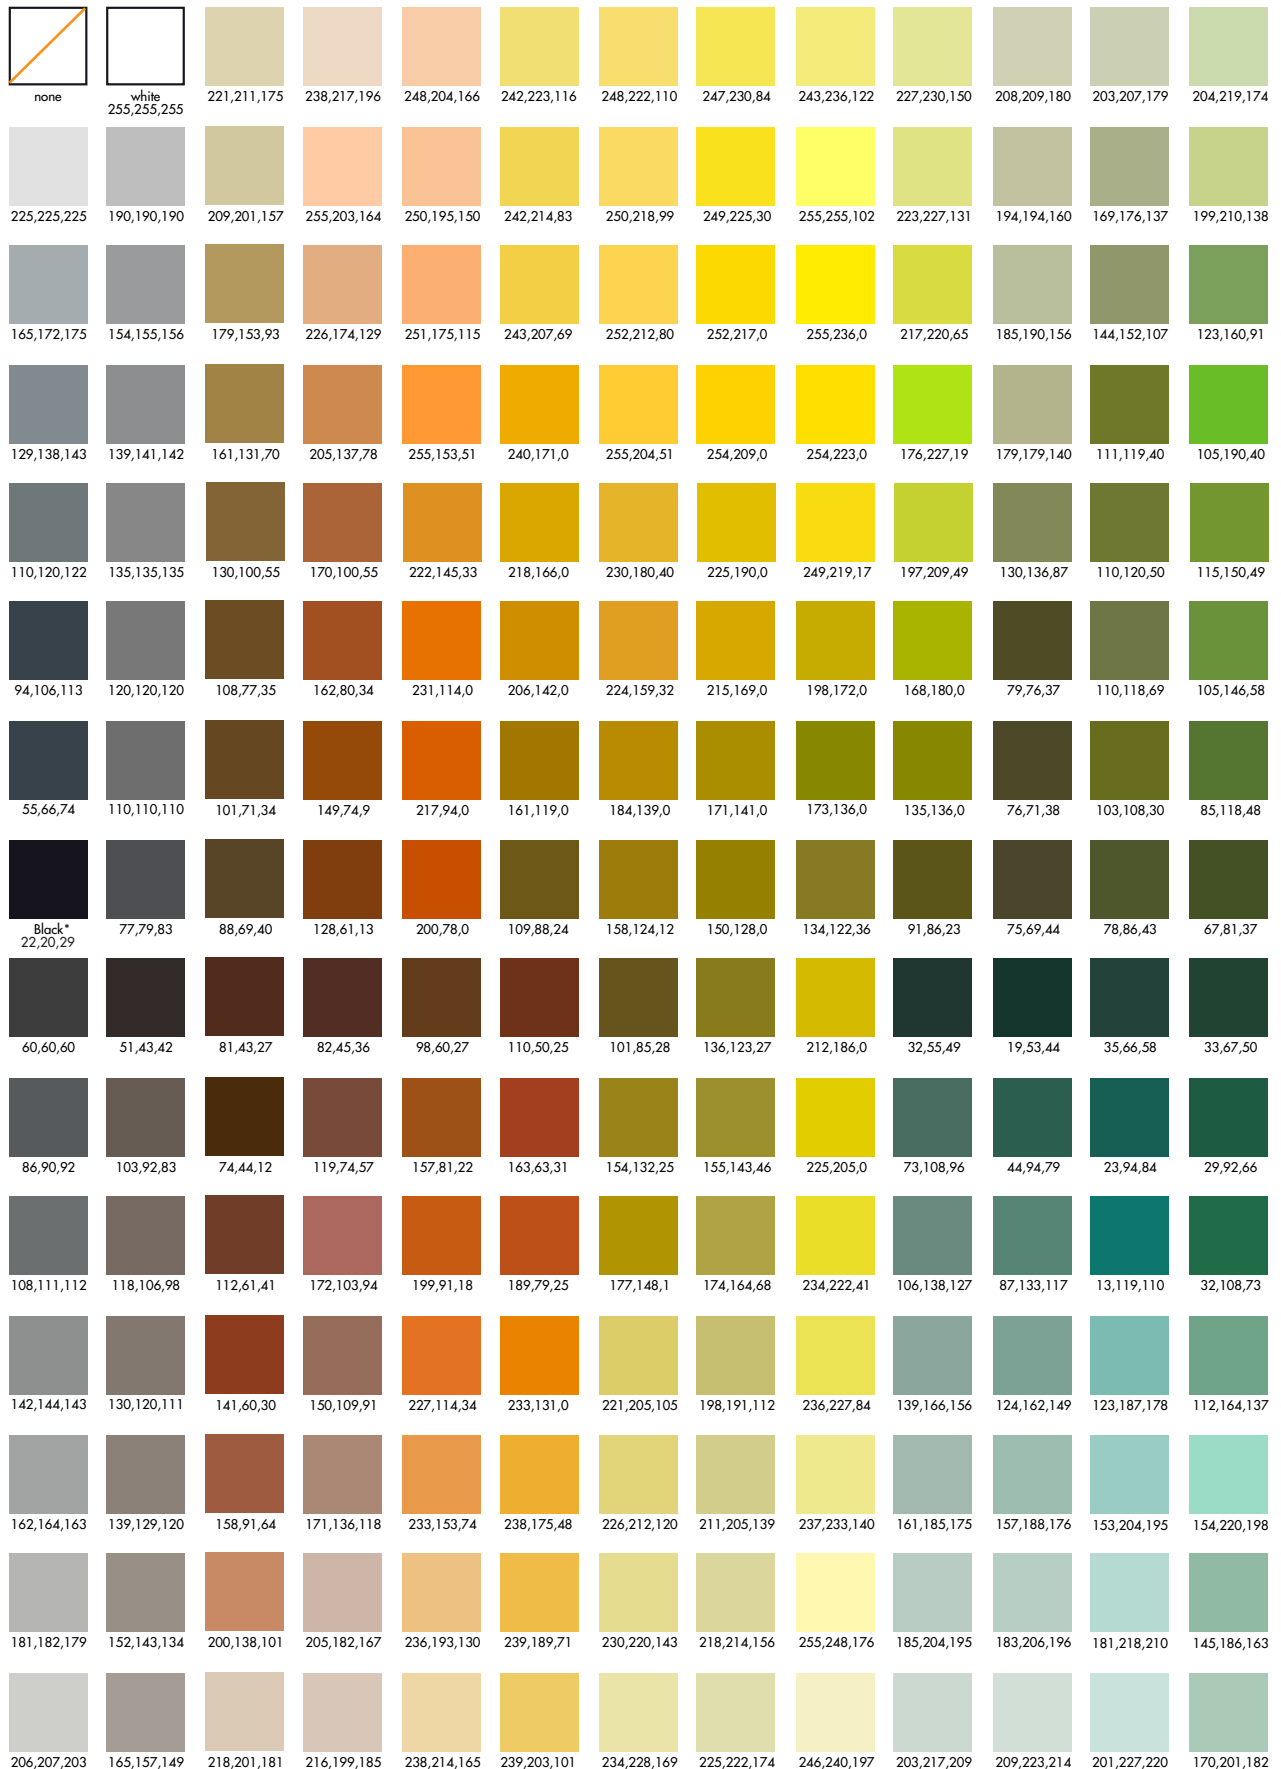

- Select from a variety of single-page pre-designed Current Events Backgrounds as well as individual stories as clip art.
- Add as many Current Event Pages as you'd like by simply dragging and dropping the entire background or individual clip art onto any page in your yearbook, just like any other pre-designed background or clip art.
- Enjoy the flexibility of choosing placement and specific Current Events appropriate for your school or age level.

Examples shown are from 2016.

Pictavo Color Palette

This color palette represents how the colors in Pictavo will print on a 4 color press.

* The Black shown is "Rich Black" and is used for all page elements that are not Text. Text Black will be 100% black, which is 0,0,0.

CREATING A COORDINATED BOOK

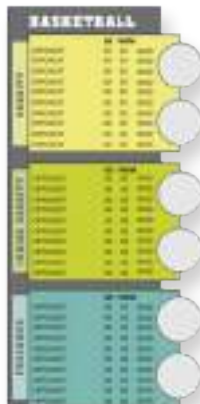

Using Snippets can enhance the overall look and design of your book by making it easy to unify elements into a theme. Once you determine a theme, or have chosen one of the professionally designed ideas found in the Pictavo Design Guide, you can easily create a fully coordinated book.

...USING THE SAME GROUP OF SNIPPETS

VERSATILE. BOLD. EASY-TO-USE.

These sample spreads show how easy it is to use and customize Snippets to carry out the defining attributes of a book's theme. Go ahead. Give them a try!

Snippets Customizing

SIMPLE WAYS TO CUSTOMIZE SNIPPETS

The great thing about Snippets, is that you can change them a little or a lot depending on the look you want. Because each Snippet is a collection of individual elements grouped together, you can truly pick them apart and customize them until you have the right look and feel.

TEXT

Use the placeholder text for inspiration or completely change the wording to create a whole new topic.

LAYOUT

Cut individual elements out or add additional elements to the Snippet, including images, clip art, shapes and text.

PROPERTIES

Many of the elements used to compose each Snippet can be customized individually by editing their color, shape and size.

TO EDIT A SNIPPET, FOLLOW THESE THREE SIMPLE STEPS

Note: Snippets are a grouping of individual elements. When a Snippet is selected, each element will be highlighted with a pink box.

Edit ▾

Ungroup

Edit ▾

Group

STEP ONE

The Snippets Menu is located in the Pictavo toolbar (next to 'Templates') and is accessible during page editing.

Click on the 'Snippets' icon to open a dropdown menu and choose 'All Snippets'.

To find a Snippet, either scroll through the options (sorted numerically), type in a Snippet ID number, or search by category.

Example: S1208N

Example: Scoreboards

STEP TWO

To begin editing, click anywhere on the Snippet. This will select the entire Snippet.

Click the 'Edit' menu in the toolbar and select 'Ungroup' (found near the end of the list).

Now you can make edits to your Snippet. Remember, you will be able to make additional edits later if needed.

STEP THREE

Once you have finished editing, it's helpful to group the Snippet back together so it can be easily moved around the page.

Drag your cursor across the Snippet, making sure all elements are selected. With the entire Snippet selected, go back to the 'Edit' menu in the toolbar and select 'Group'.

Use the copy and paste functions to place your Snippet on a different page, or, save it in your custom Snippets folder. Simply select the Snippet and click the 'Save' icon in the Snippets tab.

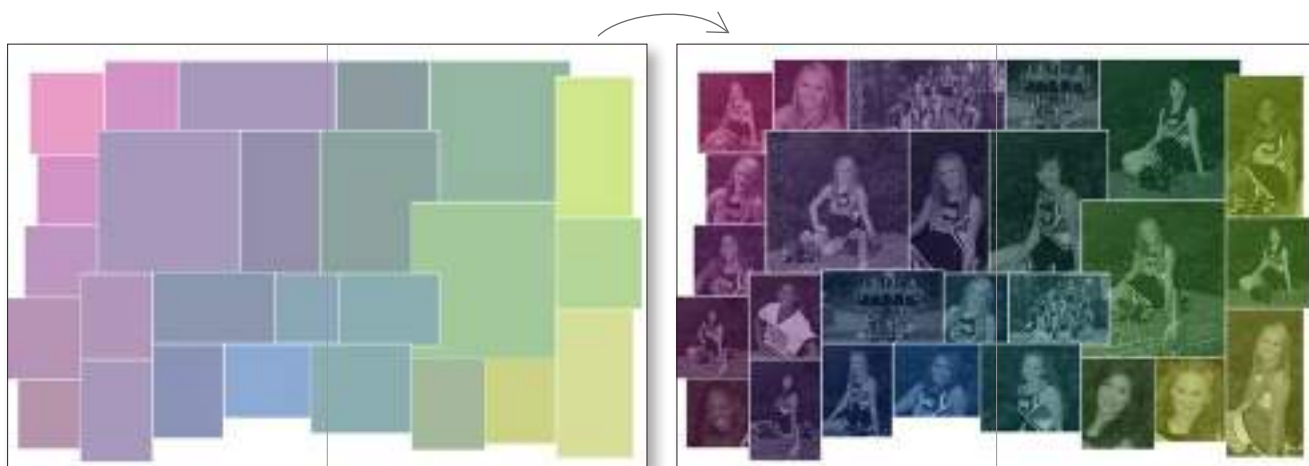

Templates

Pictavo has hundreds of professionally designed templates ready for you to use! With the simplicity of Pictavo's "drag and drop" feature, designing yearbook pages is a breeze. All elements are editable so you can change image box sizes, fonts, colors, placement, etc. Use templates as a starting point and customize them to fit your design needs.

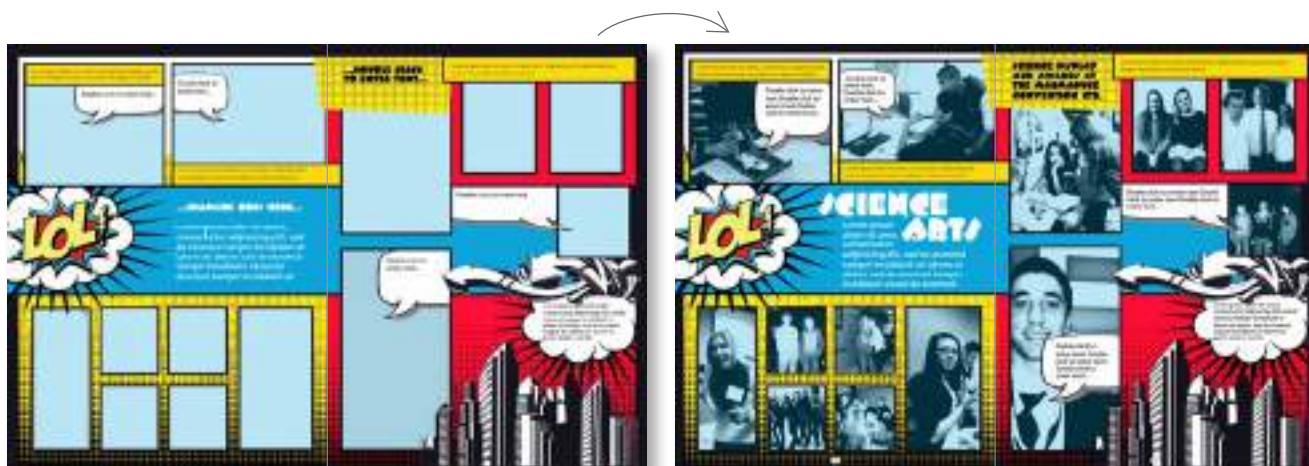

Below are examples of original templates next to their modified version with images placed. With minimal fine tuning, you can finish a great looking page design in minutes!

CREATING A FULLY-COORDINATED BOOK

To find backgrounds and clip art that coordinate with a stock cover, search by its Stock Cover design number (i.e. 17-21).

Take advantage of pre-designed Snippets and templates found on pages 26-105 to quickly create a well-designed book. **Remember you can edit them and adjust the colors to fit any theme.*

GENERAL PERSONALIZATION GUIDELINES

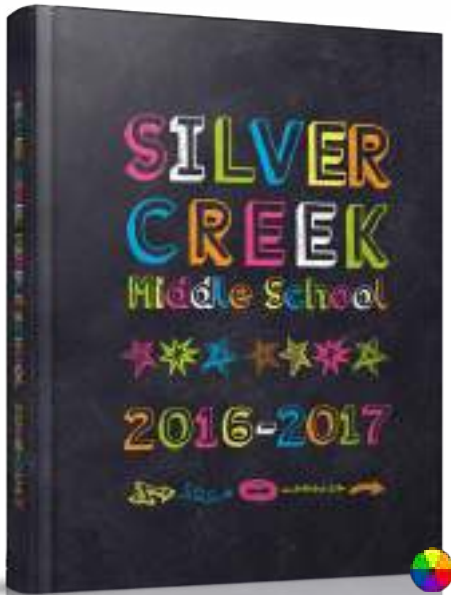

- Please do not include anything in the file that should not be printed on the book (such as homerooms, teachers' names, etc.).
- A person's name should be on the list once for every book he/she orders. If a child wants two personalized books, that name would be on the list two times. In the Option 2 example on page 110, Alexis is ordering two personalized books and others are ordering only one.
- If a family wants the names and/or photos of two children on one book, indicate this by leaving a space above and below the two names to go on the book. List the first name, the second name below it, and then leave a space before continuing the list. When you print out the hard copy of the names, please write "1 book" next to any book that has names on two lines. In the Option 2 example on the opposite page, AnnaMarie and Andrew would get one book with both of their names and photos on it—one above the other.

Design Your Own Custom Cover

Creating your own **custom cover** may incur **additional costs**. Please contact your yearbook representative for more information.

You may use the **custom cover backgrounds** on the following pages to design your custom cover in Pictavo™.

1. Start with the custom cover background of your choice.
2. Add your title (and spine text if applicable).
3. Add your own candid or clip art (optional).
4. Submit by custom cover deadline.

Inspiring Examples You Are Here

Just because the table of contents and divider pages have a job to do, doesn't mean they have to be boring! Take a look at how these creative schools kept things interesting.

Inspiring Examples Student Life

The key to a successful yearbooks is including as many students as possible. Including special events and day-in-the-life pages ensures thorough coverage.

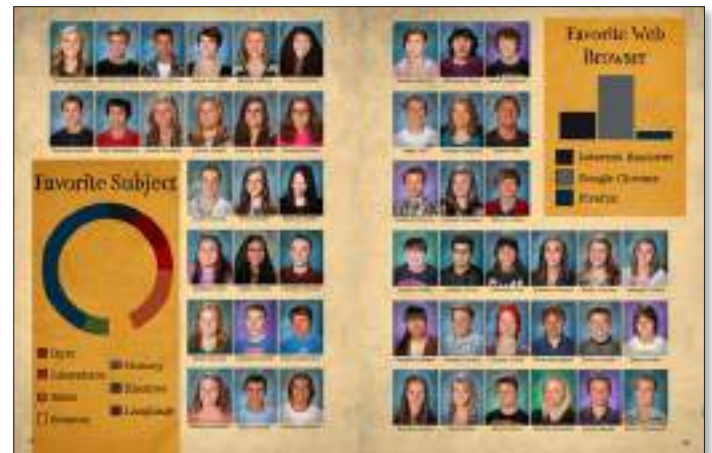

Inspiring Examples Student Life

Yearbooks are designed to be looked at decades from now and nothing signifies the signs of the time more than fashion, student interviews and quotes.

Inspiring Examples Tradition with a Twist

Let's Face It. Student portraits have been around since yearbooks were invented but that doesn't mean they have to look like the same ol' same ol'. Use these ideas to make yours fun!

Inspiring Examples Tradition with a Twist

Sprinkle candid, student art, polls, Q&A's and other student-focused items in with portrait pages to make them even more interesting to look at!

Inspiring Examples Athletics and Clubs

Including all school teams and organizations in your yearbook is your top priority. Check out these inspiring examples to incorporate one or many groups on your spreads.
