

"Bling" for Your Book

YearbookLife offers many enhancements for your school's yearbook! Check out all of the following options and give us a call toll free at 888-680-0143 for further pricing and information.

► **Cover Personalization** Would you like each student to have their own name printed on the cover of their book? Or how about their name, their own photo, or even a few customized icons to show off their favorite activities? All of these personalization options are available depending on the binding type of your book. Contact us for more details and the price.

► **Inside Cover Printing** *[soft cover books only]* Don't want that inside cover to be wasted space? Have some pictures, or art, or text you'd like to add? Printing can be done on the inside cover of our soft cover books. Contact us for precise pricing.

► **Color and Custom End Sheets** *[hard cover books only]* End sheets are the thick paper attached to both the inside front and back covers of your book and the flyleaf. Your books include standard white end sheets, but you may enhance your design by selecting Color End Sheets (see chart) or you can customize the end sheets with a Custom Design to better reflect the theme of your book. The printed area of a Custom End Sheet will be the inside cover and opposite fly leaf (as a spread). Contact us for pricing for Color or Custom End Sheets.

black	felt gray	white (standard)	red
navy blue	royal blue	forest green	goldenrod

More "Bling" for Your Book

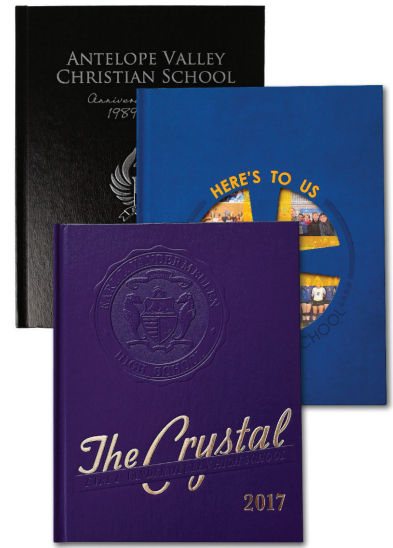

► **Embossing and Debossing** *(hard cover books only)*

Embossing and debossing are techniques which create a raised (embossed) or impressed (debossed) image on the cover. Both techniques can be used with either foil or ink to create special visual effects and textures. Call us for pricing information based on the size of the artwork or text.

► **Yearbook Supplements** Do you have more events from the year that didn't make your yearbook deadline? Want all of those end of year celebrations included too? Then you can produce a Yearbook Supplement. Designed separately from your book, but utilizing the same software, these 4 to 24 page supplements can be created as an addition to your yearbook. Pre-applied tape strips enable anyone to just peel and stick the supplement in the back of the book. Production time is within two weeks, plus shipping. Contact us for precise pricing based on the number of supplements and pages.

► **Autograph Pages** You want to be able to use every page of your book for photos and memories of the school year! So why not include our pre-printed four-page or eight-page Autograph Page Supplements? Designed with an Elementary theme or Middle/High School theme, these pre-printed supplements are bound into your book. Pricing depends on the number of books in your order. Contact us for pricing and design options.

► **Year in Review** Year in Review (Current Event) pages are available as full-page backgrounds in your Pictavo library and are considered part of your overall page count. Treat them as regular pages in your book deciding on what content to include for your school. Or you can create your own custom Year in Review pages by using individual story snippet pieces. Use as many or as few as you'd like, deciding what is of interest or age-appropriate for your school. Current Event backgrounds and snippets are available in February. Since they are included in your page count and design, there are no additional charges.

Embossing/Debossing

Yearbook Supplements

Other enhancements available include Matte Finish and Leatherette covers. Contact us for more information.
