Our School

... from a Distance

2020-2021

WELCOME TO OUR NEW NORMAL

PROOF

In the Spring of 2020, the uniform voices reciting the pledge of allegiance could not be heard. Automated bells rang in empty classrooms signaling students to go to their next class. The sounds coming from school gymnasiums was amiss. These missed mundane sounds made it abundantly clear that our school days were unexpectedly changed.

However, we have stepped up to the challenge. Our homes became our classrooms. Our computers became our teachers. Our parents became our tutors.

We adapted and proved to be resilient. We have soldiered on. We conquered. For that, we're all stronger!

After Hours

When we're not studying, here's how
we fill up our time.

What's your favorite thing about remote learning?

I like getting all my assignments at the beginning of the week that are due at the end. I can then pace myself.

- Jimmy Jones

I enjoy doing video chats for my classes.

- Jane Alexander

Doing school work from home has helped us become more organized.

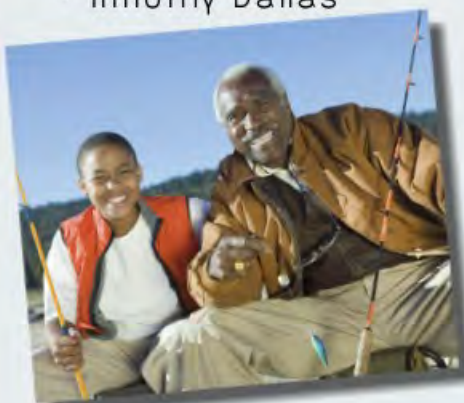

- Alanna & Annie Valdez

What are you looking forward to this summer?

I love going fishing with my grandpa! We go every summer.

- Timothy Dallas

Hanging ten, dude!

- Nate Ewing

I get to play my violin in a summer concert.

- Allison O'Neil

What do you miss the most about going to school?

I miss seeing my friends everyday.

- Jamie Dooney

Band, definitely band.

- Lori Burk

I miss Ms. McClain

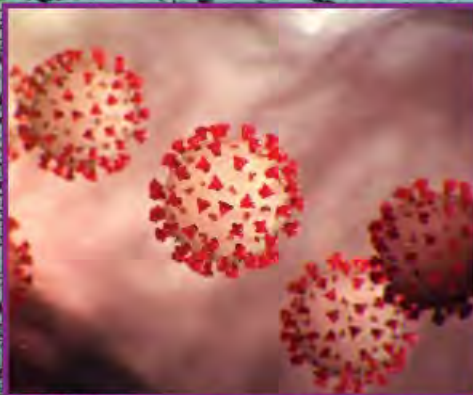

- Billy The Kid

A collage of pop culture figures including Buzz Lightyear, Daenerys Targaryen, Chiwetel Ejiofor, Captain Marvel, Prince Harry, Yoda, and a monster.

Looking Back

**CORONAVIRUS
PANDEMIC
EDITION**

What is the Coronavirus?

Coronavirus disease (COVID-19) is an infectious disease caused by a newly discovered coronavirus.

Most people infected with the COVID-19 virus will experience mild to moderate respiratory illness and recover without requiring special treatment. Older people, and those with underlying medical problems like cardiovascular disease, diabetes, chronic respiratory disease, and cancer are more likely to develop serious illness.

Transmission & Treatment of Coronavirus

The COVID-19 virus spreads primarily through droplets of saliva or discharge from the nose when an infected person coughs or sneezes.

As of April 2020, there are no specific vaccines or treatments for COVID-19. However, there are many ongoing clinical trials evaluating potential treatments. WHO will continue to provide updated information as soon as clinical findings become available.

Mobile testing sites were set up country wide for people who believed they had the virus.

As schools closed nationwide, remote learning became the new norm for teachers, students & parents.

The USNS Comfort, a massive hospital ship, sailed into NYC Harbor to provide medical help with rising numbers of coronavirus cases.

As of April 2020 more than 178 countries have reported 838,000+ coronavirus cases.
