Welcome to YBLive!

YBLive's software combines the very latest web-based application technology with a wealth of collaboration features, creative tools, and professionally designed content. Our goal is to make designing your yearbook fun, trouble-free, and exceptionally rewarding!

1.1 What's New for the 2024-25 Season?

If you're a returning user, you'll notice some awesome improvements for this season! Here's an overview of the new features:

- **Content Updates!** We've replaced the *Clip Art* and *Elements* tabs with a new *Art* tab containing 10,000+ newly curated art objects, organized into major categories with multiple levels of subcategories, and searchable by keyword. In addition to *Art*, there new *Backgrounds*, *Templates*, and professionally designed *Styles*, for Elementary, Middle and High School.
- **Feature and Name Changes.** While updating the content to support more universal users, the changes, below, have been made.
 - The *Clip Art* feature has been removed altogether.
 - *Elements* have been renamed **Art**.
 - *Themes* are now called **Styles**.
 - *Layouts* are now called **Templates**.
 - *Saved Layouts* are now called **My Templates**.
- **Face Matching.** Face matching will now be turned off until enabled by an Adviser during the portrait upload process. Once enabled, candid photos will be tagged with high performance and can be reviewed in a Caption and tag interface. YBLive's goal with this technology is to help manage fair student coverage; develop automatic, accurate indexes; and provide the tools for easy caption development.
- **Zoom Tools.** The Layout Size feature on the Advanced Design page has been replaced with Zoom tools, allowing much greater flexibility for zooming in and out on the page.

- **Lot's More!** Our developers spend each summer working hard in response to the previous season's input! As a result, there are numerous other minor bug fixes, features and tweaks.

Thank YOU for using YBLive! Have a great yearbook season!

1.2 The Yearbook Design Process

The basic process for creating your yearbook will involve defining the book using a planning ladder, and then designing individual sections using a robust set of page design tools.

You'll be able to combine templates, photos, text, and art into custom-designed, finished pages, organized into sections. Multiple users can collaborate on the yearbook simultaneously, each working on their own sections.

Finished sections will be checked into an adviser for review. The adviser can then approve or reject each section, with online comments and interaction.

Once all sections of your yearbook have been created and approved, the yearbook will be ready for print! An Adviser will review and accept the final book and submit it for printing!

1.3 Using this Guide

This *User Guide* describes the process for creating your yearbook using all the features in the software. Shortcut links to other relevant sections of the User Guide are shown as underlined. Clicking the underlined link will take you to that specific section.

Helpful Tips and Important things to note are emphasized in green text.

1.4 Configuration and Preparation

Before you start, your software should have been configured with a blank book, or renewed in the appropriate style and number of pages. If you have any questions about this configuration, please contact YearbookLife.

Once this has been accomplished, you are ready to begin creating your yearbook. In preparation you should have a plan for the organization of the sections in your yearbook, and the expected number of pages per section. It is also helpful to have your candid photos organized for each section.

Finally, if multiple people will work together to create your book, such as in a Yearbook Class, you should have a list with the names, and e-mail addresses if appropriate, of each person that

will be involved, along with an idea of their individual responsibility. This planning will help to ensure that the creation process goes smoothly.

1.5 Software and System Requirements

Please be sure that you are using a compatible computer/device and a supported browser to create your yearbook. is certified to run reliably on the following systems and browsers:

Operating System	Device	Browser
Apple Macintosh	Laptop computers Desktop computers	Apple Safari Mozilla Firefox Google Chrome
Windows	Laptop computers Desktop computers	Mozilla Firefox Google Chrome Microsoft Edge
Apple iOS	iPad tablet	Safari
Android	Tablet computers	Google Chrome
Chrome OS	Chromebook	Google Chrome

New operating systems, browser versions and devices are constantly being made available, and we're committed to providing compatibility with the most popular platforms. If you have any questions about a specific device or operating environment, please contact your yearbook representative.

Tip! For the best software performance, you should have a reliable high-speed Internet connection.

1.6 The Basic Steps

Below are the basic steps for creating your yearbook using the software. Each of these steps is described in detail in the User Guide. Click the link if you'd like to go directly to the section.

1. [Add users](#) to the software.
2. [Add sections](#) to your book, and assign sections to individual users (if applicable)
3. [Upload and organize photos](#) for use in your yearbook.
4. [Edit the sections](#) of your book.
5. [Submit sections](#) for review and approval.
6. [Submit the final book](#) for print!

1.7 Help Within the Software

In addition to the information in this User Guide, you can also get help at the top right of each page in the software.

 [Help](#)  [Video Help](#)  [Log Out](#)

Help and Video Help are available at the top right of every page.

Click the *Video Help* link to watch a video tutorial of the main features on each page.

Click *Help* for access to an online version of this User Guide, a complete Online Knowledge Base, Documentation and Tutorial Videos, and your Direct Support Contact information.

2 USING THE SOFTWARE

Let's Get Started!

Your yearbook software has its own web site. You should have been given a link to your yearbook site by your adviser or administrator, along with a username and password. Each time you use the software you will go to this site and login on the home page.

2.1 User Login

On the home page of your site, you will see your school's name, with a login section below it. To login, enter your username and password then click the *Login* button.

If you do not have login information, please contact your adviser or administrator.

Login to your account to get started.

2.1.1 Forgot Password

If you forgot your password, or your password isn't working, click the *Forgot Password* link. You will be redirected to the *Forgot Password* page. Type in the e-mail address that you registered with, and then click *Send*. You will receive an email with instructions for changing your password.

Please contact YearbookLife if you have any issues logging into the software.

2.2 The Navigation Bar

The Navigation Bar is located at the left of each page after you login and provides access to all the pages in the software.

Main features of the software are organized on six different pages, which will be available to you based on the permissions granted by your adviser or administrator.

These pages are, arranged from top to bottom on the Navigation Bar:

- Home / Activity Page
- Yearbook (Ladder) Page
- Photos Page
- Users Page
- Sales Page
- Adviser Configure Page

Depending on your permissions you may not see all these buttons. Each page is described below. The *Users* section of this document describes the permission levels.

2.2.1 The Activity Page

The *Activity* page is the main dashboard page that you see when you log into the software. The Activity page provides information about the book and overall progress.

2.2.2 The Yearbook Ladder Page

The *Yearbook* or *Yearbook Ladder* page allows you to set up and organize your yearbook using a planning ladder, arrange and modify individual sections, assign sections to different users, and check out sections for editing.

2.2.3 The Users Page

The *Users* page allows you to add users to the site and modify their permissions.

2.2.4 The Photos Page

The *Photos* page allows you to add and organize candid and portrait photos and art for your yearbook.

2.2.5 The Sales Page

The *Sales* page allows advisers to track sales of yearbooks, yearbook ads and other products sold online using the *YB Live Storefront* online e-commerce software. The Storefront is included and integrated with the software and is essential to maximizing your yearbook sales. Check with your Adviser or YearbookLife for more information.

2.2.6 The Adviser Configure Page

The *Adviser Configure* or *Configure* page allows advisers to manage the available content, as well as page numbers in the book.

2.2.7 Video Help

Click the *Video Help* link at the top of each page of the software for a video overview of the main features on each page.

Tip! We recommend that new users of the software watch the [Video Help Tutorials at the top of each page](#). This is a great way to learn the software quickly!

2.2.8 Help

Click *Help* to view any current help or warning messages from the software. A message indicator will appear when there is a new help message.

Below any alert messages you will also see a link to this User Guide. Clicking the link will open the User Guide in a new browser tab, showing the section related to your current location in the software.

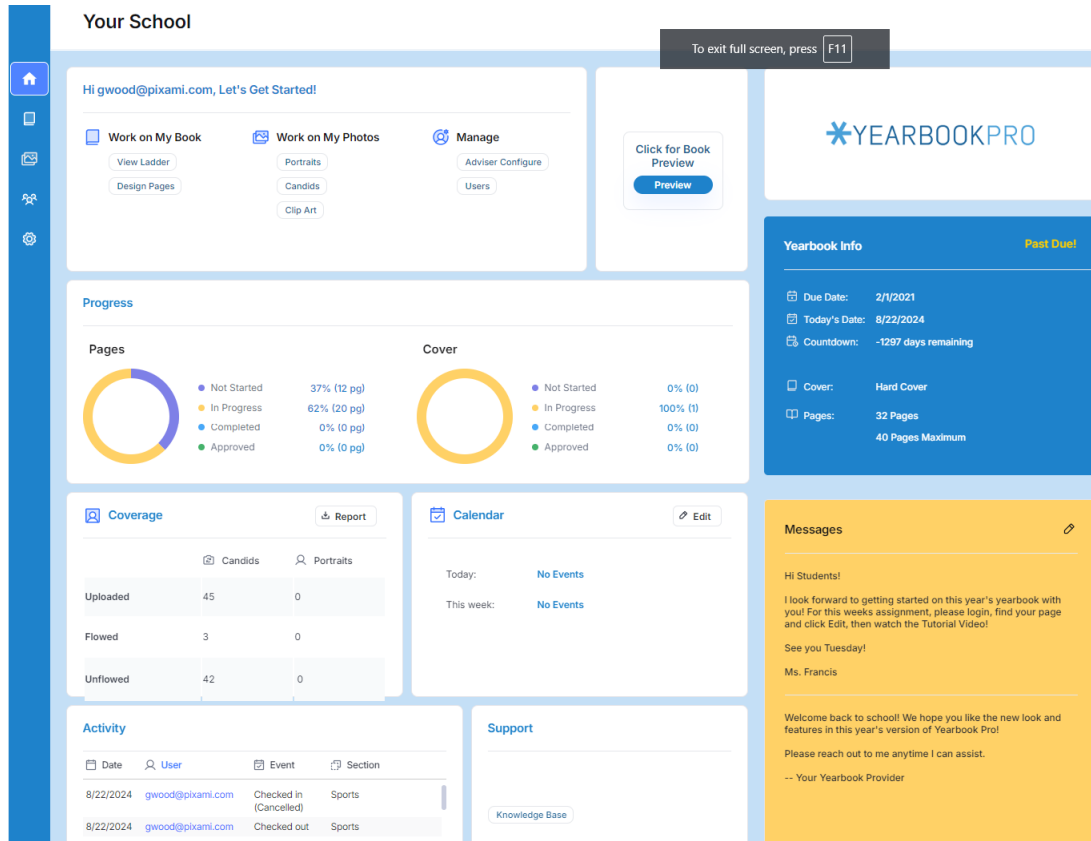

2.2.9 Logout

Click *Logout* to exit and log out of the software.

The following chapters describe all the features in the software, organized by page.

3 THE ACTIVITY PAGE

Each time you login to the site, you'll see the *Activity Page*, which can also be referred to as the main *dashboard* of the software or the *Home page*. This page provides an overview of the yearbook and its progress and is your starting point for accessing the features in the software.

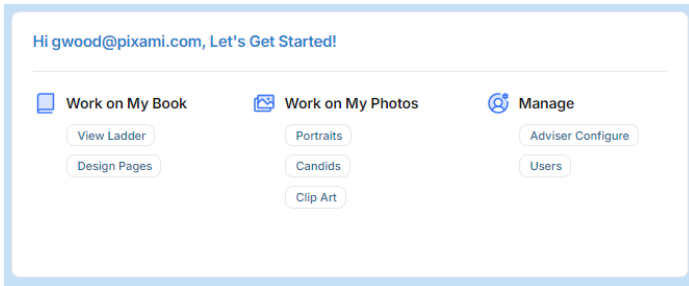

The Activity Page of the site provides access to all major features.

All the functionality on the Activity Page is organized into sections, or 'boxes.' Following is a description of the main sections on the Activity Page.

3.1 Navigation Shortcuts

The *Let's Get Started* section, at the top left of the page, provides direct links to specific functions in the yearbook. You can use these links as shortcuts to navigate through the software based on what you need to do.

The Let's Get Started navigation box.

3.2 Previewing Your Book

Click the *Book Preview* to the right of the Let's Get Started section to display a current preview of the book.

The Book Preview on the Activity Page.

3.3 Monitoring Book Progress

The *Progress Section*, below the Preview, provides a real-time visual overview of progress for the Book Pages and for the Cover, with color-coded graphs.

The Progress Box on the Activity Page.

Not Started shows the percentage or number of pages that have not yet been started.

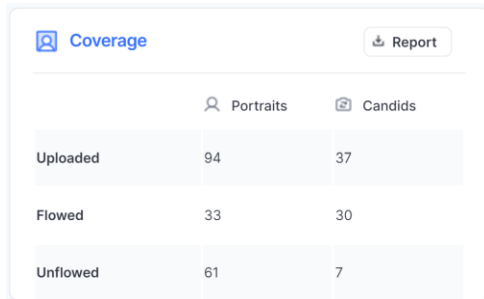

In Progress shows the percentage or number of pages that have been started and are in progress.

Completed shows the percentage or number of pages that have been marked complete by an editor.

Approved shows the percentage or number of pages that have been approved by an adviser.

3.4 Student Coverage Reports

The *Coverage* section, just below the Progress section, shows the total number of Portraits and Candids that have been uploaded to the software, and the number of each that have been flowed into the book.

	Portraits	Candids
Uploaded	94	37
Flowed	33	30
Unflowed	61	7

The Student Coverage section of the Activity Page.

Click *Report* to view a detailed *Student Coverage Report* that lists each student, alongside the number of times they appear in the yearbook, and the specific page numbers they appear.

Information in the report can be sorted by clicking the column header. For example, you can sort from the student who appears the most in the book, to the least.

Click *Print* to print the Coverage Report. Click *PDF* to Save it as a PDF.

Name	Times Used	Pages Used
Bell, Tasha	6	8,10,74,76,77
Ball, Jacquelyn	5	8,10,74,75,76
Alexander, Cecilia	4	8,10,74,76
Ingram, Willie	3	8,10,77
Mcdonald, Yolanda	3	9,74,75
Abbott, Mark	2	8,76
Ball, Mathew	2	8,10
Collier, Doreen	2	8,10

The Student Coverage Report.

3.4.1 Why Is the Coverage Report Important?

First, a coverage report is only possible if *all* the images in the book, candid and portraits, are tagged with accurate student name data. This is a significant manual undertaking that has now

been automated. Face Matching Technology tags all candid images with student and staff names, automatically and with extremely high accuracy.

Now that you have an accurate Student Coverage Report available, you can use it to promote fairness, by representing all students more equally in the yearbook.

A well-rounded and inclusive yearbook that truly encapsulates the spirit of the school year will also increase the popularity of the yearbook!

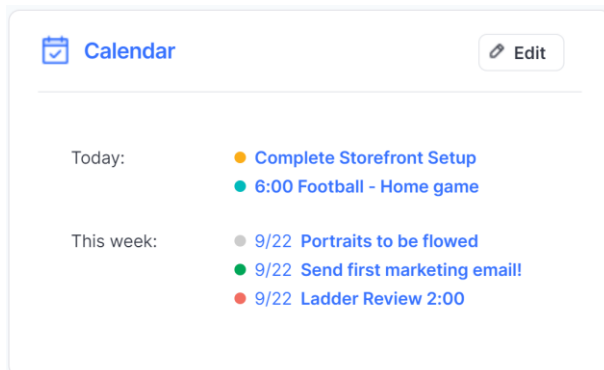

3.5 Yearbook Calendar

The Yearbook Calendar feature allows yearbook Advisers and staff to keep track of important yearbook-related dates. These can include yearbook design deadlines, meetings, sales and marketing actions, and even school sports and academic events. In addition, Admins can create and manage dates related to sales, marketing and production.

This feature allows yearbook staff to effectively oversee all the important aspects of your project, streamlining the process, improving organization and communication, and maximizing sales.

3.5.1 Todays and This Week's Events

The Calendar displays all the events for Today and This Week on the Activity Page.

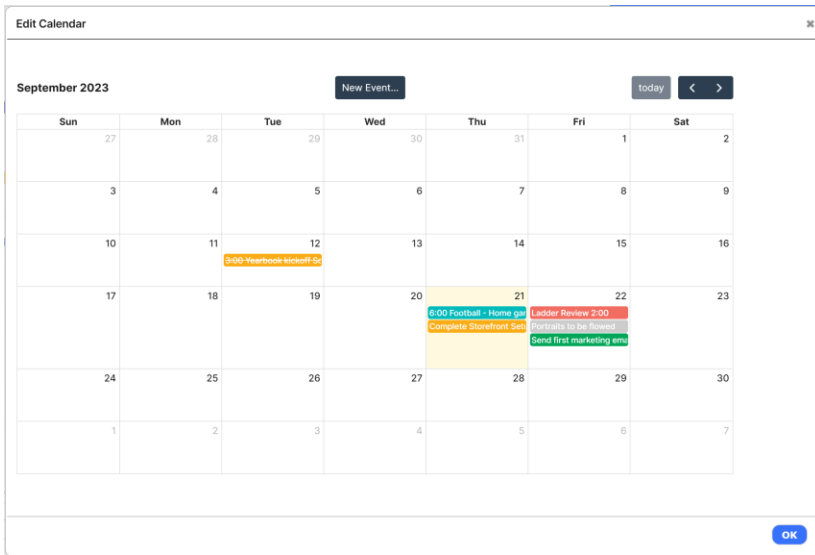

The Yearbook Calendar on the Activity Page.

Events are color coded by type. Users with Adviser privileges can click *Edit* to Modify Evens and Add New Events to the Calendar.

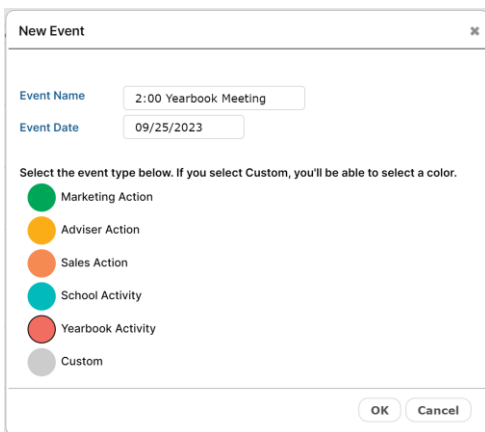

3.5.2 Adding and Modifying Events for Advisers

Click *Edit* to open the *Edit Calendar* dialog and view the full calendar.

The complete Calendar in the Edit Calendar dialog.

Click *New Event* to add a new event to the Calendar. The New Event dialog will appear.

Creating a New Event in the Calendar.

Type in the *Name* for your Event, and then select the *Date* for the Event.

You can also type the *Time* into the Event Name field.

Next, choose a color-coded Event Type to help you organize your distinct types of events.

Click OK to save the Event and add it to the calendar!

3.5.3 About Event Types

The software contains color-coded Event Types to help you organize the various activities related to your project. Below is a List of the main Event Types, along with examples of their use.

Marketing Action: includes reminders to Send Marketing E-mails, Hang Posters, Distribute Flyers, Make an Announcement, Make a Social Media post, Yearbook Signing Day, and other events to help market your yearbook.

Adviser Action: includes a variety of Adviser specific tasks, such as Quote Approvals, Ladder Reviews, Yearbook Meetings, Staff Meetings, Office Hours, and more.

Sales Action: these events serve as important reminders to implement key sales aspects of your plan, such as Launch Storefront, Launch Yearbook Pre-sales, Launch Ad sales, Run sales Report, Increase Presale Price, and other events related to yearbook sales.

School Activity: includes Academic Events, Sports Events, Assemblies, and other important school events, especially those that are opportunities to get yearbook photo content or drive sales!

Yearbook Activity: includes specific major yearbook activities such as Flow Portraits, Ladder Review, Independent Section reviews, Yearbook Meeting, Homework Assignments and more.

Custom: Custom activities include anything else that you'd like to be reminded about in the yearbook software to help stay organized!

3.5.4 Editing Calendar Events

Double-click on an event in the calendar to edit the event. The *Edit Event* dialog will appear.

You can change the *Event Name*, *Event Date* or *Event Type*. Click *OK* to close the event and save your changes.

Check the box next to *This event has been completed* to complete the event. The Event will still show in the calendar, with ~~strikethrough~~ text.

Click *Delete* to delete the event. It will no longer appear in the calendar.

3.5.5 Due Dates and Automatic Dates

The following Due Dates are automatically placed into the calendar from their respective places in the software:

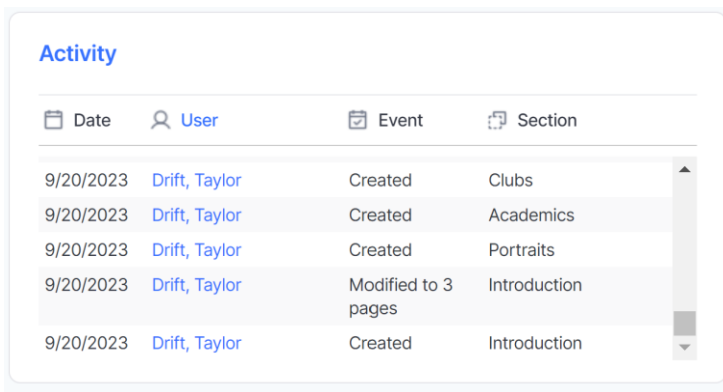

- Book submission deadline
- Cover submission deadline.
- Section submission deadlines
- Storefront Ad ordering deadline
- Storefront Book ordering deadlines

3.5.6 Admin Events

Your yearbook administrator can also enter and manage events in the calendar, allowing for close coordination with their schools. Admins cannot edit or delete Adviser events. And Advisers cannot edit or delete Admin events.

3.6 Activity Log

The *Activity Log* box, below the Coverage section, shows a real-time log of all user activity in the book. Items are arranged chronologically with the most recent at the top of the list, and the user and book section are shown for each event. You can scroll through the Activity log to see a complete history of the book.

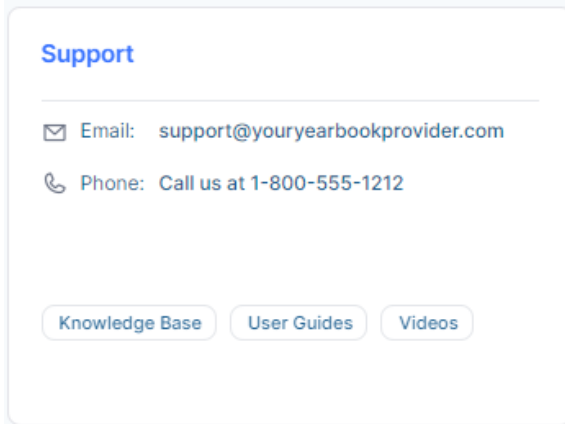

The screenshot shows a box titled "Activity" containing a table with the following data:

Date	User	Event	Section
9/20/2023	Drift, Taylor	Created	Clubs
9/20/2023	Drift, Taylor	Created	Academics
9/20/2023	Drift, Taylor	Created	Portraits
9/20/2023	Drift, Taylor	Modified to 3 pages	Introduction
9/20/2023	Drift, Taylor	Created	Introduction

The Activity Log, at the base of the Activity Page.

3.7 Support Contact

The Support box is located at the base of the Activity page and displays your direct support contact for assistance with the yearbook software. When you have questions about the software and need live assistance, use the phone and/or email information located here.

Check the Support box on the Activity Page for your direct support contact!

3.7.1 YBLive Knowledge Base

You can find this User Guide, Content Guides, Tutorial Videos, and a lot more on YearbookLife's website on the [YBLive Customer](#) page.

3.8 Info box

The *Yearbook Info* box, at the top right of the Activity Page, displays the Due Date for your yearbook, along with today's date, and a countdown of days remaining. Below the due date information, you will also see the book specification, including Cover Type, Number of Pages, and Quantity ordered. These items are configured by YearbookLife.

If the due date has been passed and the book has not yet been submitted, a large *Past Due* banner will appear in the Info box.

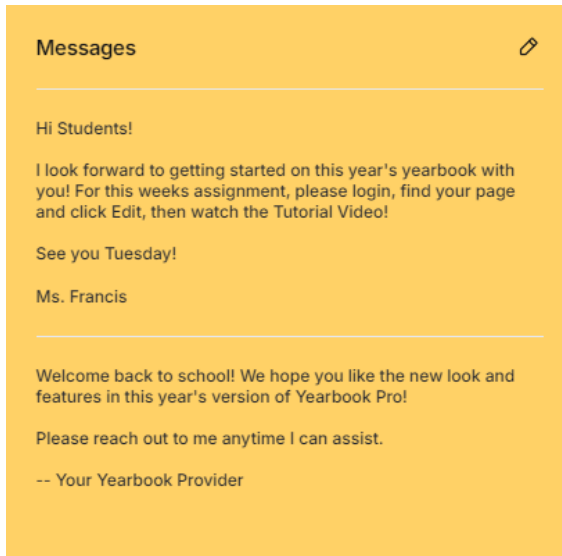

Once the book has been submitted, a large *Book Submitted* banner, along with the submission date and user information, will appear in the info box.

3.9 Message box

The *Message* box, at the lower right of the Activity Page, displays messages from your yearbook adviser and from YearbookLife.

The text above the line is an editable message from Advisers.

Any user with Adviser privileges can add or update the adviser message by clicking the *Edit* icon, and then typing in a new message.

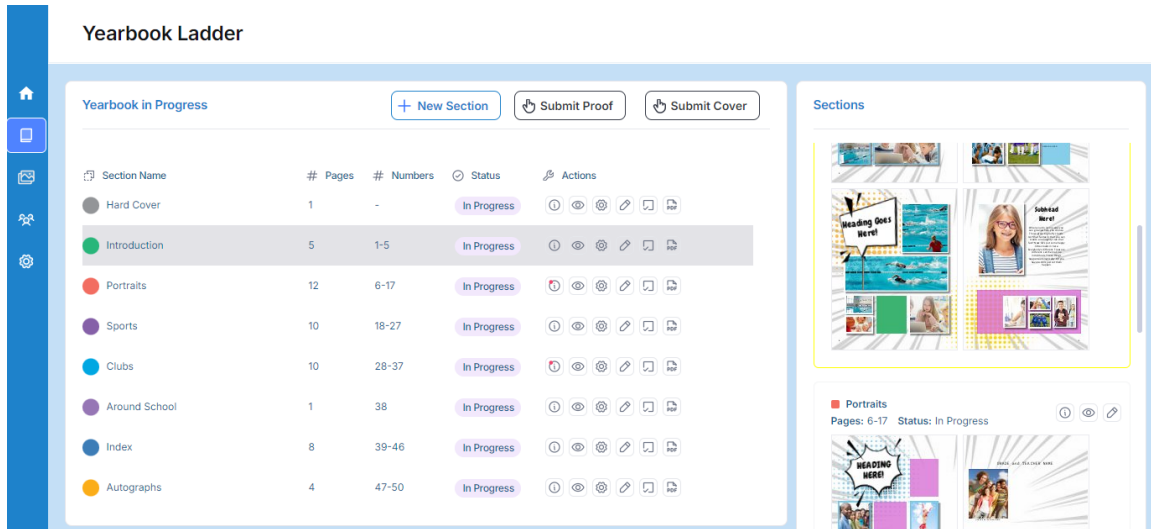

The message box on the Activity Page.

The text below the line is controlled in Admin and allows YearbookLife to post essential information about the project.

4 THE YEARBOOK PAGE

On the *Yearbook*, or *Yearbook Ladder* page, you can set up and organize your yearbook, arrange and modify individual sections, assign sections to different users, and check out sections for editing.

The Yearbook Page uses a *Yearbook Planning Ladder* for creating and managing your book.

The *Yearbook Planning Ladder*, located on the left side of the Yearbook page, is a valuable tool that graphically illustrates all the pages of your yearbook, arranged into sections as they will appear in the finished book, with page numbers. The ladder helps you organize the book and determine the overall number of pages needed. In the case of a collaborative effort, the planning ladder can also be used to allow individual users to work on different sections of the book.

The *Section View*, located on the right side of the Yearbook page, displays a current thumbnail version of each section in the book, and provides shortcut access to key functionality.

Tip! Clicking on a section in the Yearbook Ladder will scroll that section into view in the Section View.

The Yearbook page is accessible by users with *Adviser*, *Editor* and *Staff* privileges. If you do not see the Yearbook button on the Navigation Bar, you have not been provided access.

4.1 Organizing Your Yearbook Using the Yearbook Ladder

It is helpful to plan and organize your yearbook 'off-line' before you get started with the software. You can then use the yearbook ladder to easily set up your yearbook.

Yearbook in Progress

+ New Section Submit Proof Submit Cover

Section Name	# Pages	# Numbers	Status	Actions
Hard Cover	1	-	In Progress	Info, View, Settings, Edit, Copy, PDF
Introduction	5	1-5	In Progress	Info, View, Settings, Edit, Copy, PDF
Portraits	12	6-17	In Progress	Info, View, Settings, Edit, Copy, PDF
Sports	10	18-27	In Progress	Info, View, Settings, Edit, Copy, PDF
Clubs	10	28-37	In Progress	Info, View, Settings, Edit, Copy, PDF
Around School	1	38	In Progress	Info, View, Settings, Edit, Copy, PDF
Index	8	39-46	In Progress	Info, View, Settings, Edit, Copy, PDF
Autographs	4	47-50	In Progress	Info, View, Settings, Edit, Copy, PDF

The Yearbook Ladder allows you to organize your book into color-coded sections.

You can use the Yearbook Ladder to navigate through your book. Clicking on a colored section will highlight it in the *Section Name* column, and thumbnails for the section will scroll into view in the Section View.

4.1.1 Adding New Sections to Your Book

A book Section contains one or more pages, typically organized by subject matter. Typical yearbook sections include subjects like Student Life, Clubs, Sports, Academics, and Portraits.

Click the *New Section* button to add a new section to your yearbook. Then enter the *Section Name*, number of *Pages* for the section, choose a *Color Code* for the Yearbook Ladder, and choose a *Style*.

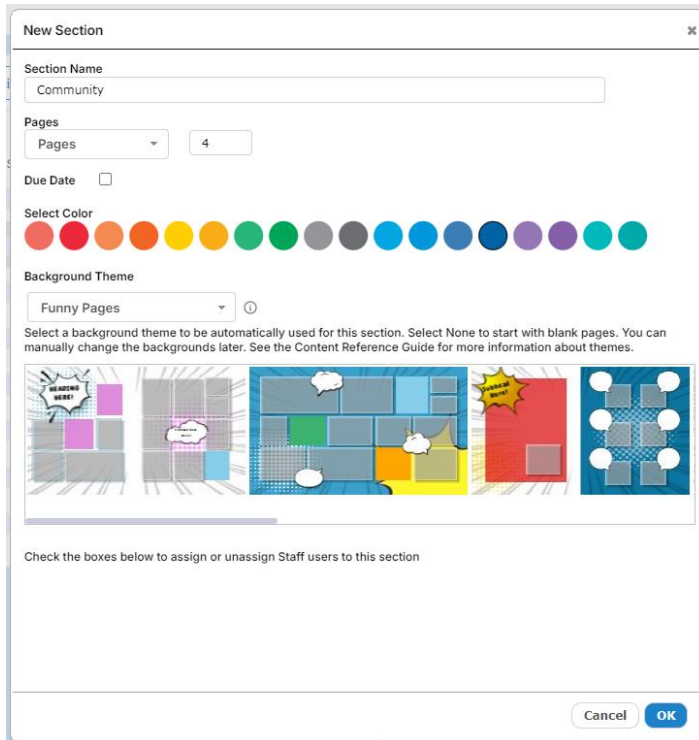

The *Section Name* will be referenced in the Section Name column and should represent the subject of the section. Note that you can also change the section name later at any time.

For *Section Type*, select *Pages* for all main sections of your book.

The *Color Code* will be used to identify the new section in the yearbook ladder. The software will select a new color automatically, or you can click on the color swatch and choose a different color from the color picker.

Enter the number of *Pages* for the section. You can add more pages to the section any time later.

Choose a *Style* for the section from the dropdown menu. Choose *None* if you would like to start with blank pages.

Create sections using the New Section dialog.

Selected Styles will be automatically applied to pages in your section, giving you a head start on the design. You can make any changes that you'd like later.

Refer to the Style Guide in the Knowledge Base for a detailed overview of all available Styles.

To add a Due Date for the section. Check the Due Date checkbox, and then enter the due date.

Finally, check the appropriate boxes to assign the section to any Staff users, if applicable.

When you're finished configuring your new section, click *OK*. The section will now appear in the Section Name list and on the yearbook ladder. Page numbers will be added automatically.

Repeat this process for each new section in your yearbook.

Tip! You can drag-and-drop the sections in the Section Name column to rearrange your yearbook. However, you will receive an alert if the change affects a section that is currently checked out by another user, or if it breaks spreads in another section.

4.1.2 Pages and Page Numbers

The *Pages* column shows the current number of pages in each section.

The *Numbers* column shows the current page number range for each section. The numbers will be updated as changes are made, such as adding pages to a section, or moving a section.

4.1.3 Understanding Section Status in the Status Column

On the Manage and Design Book page users can *Check Out* and work on individual sections of the book. Once they are finished with their page designs, they can *Mark the Section Complete*, which will submit it to an adviser for review. The adviser can then either *Approve* the section as finished, or *Reject* the section with a comment. Once all sections have been approved, the book is considered complete and can be ordered.

During this process, the status of each section may change. The *Status* column next to a section shows the status for that section and whether it's available for editing by each user. There are four different section statuses: 1) In Progress, 2) Checked Out, 3) Complete and 4) Reviewed.

A status of *In Progress* means the section has been started but not completed. If you have Editor or Staff privileges and are assigned to this section, you will see a *Check out for editing* button. You can click on *Check out for editing* to check out this section and work on its design.

A status of *Checked Out* means the section is currently being edited by someone and cannot be modified by anyone else. Only one person at a time can check out and work on a section. However, multiple sections can be checked out by different users at the same time.

If you're an Adviser, you can click *Force Check-In* to force the section to be checked in, if you know it is not currently being worked on. The section will be saved and then checked in, where it will then be available for editing.

A status of *Complete* means the section has been submitted and is waiting for an adviser to review it and provide feedback. To mark a section as complete, click the *Mark Complete* button. This will send an email to each Adviser letting them know that the section has been checked in.

Once you Check In a section, you will not be able to make any changes to the section until it has been *Rejected* by an Adviser and once again shows a status of In Progress.

A status of *Reviewed* means the section has been reviewed and approved by an adviser and is ready to be printed when the other sections are complete. You will not be able to make any changes to the section unless it is *Rejected* by an adviser and once again shows a status of In Progress. See the *Adviser Review* section of this User Guide for more information.

4.1.4 Using the Actions Toolbar

The *Actions Toolbar* contains a set of features that allow you to arrange and modify individual sections, assign sections to different users, check out sections for editing, and submit sections for review and approval.

Features are accessed by clicking a toolbar icon, each of which are described below. Not all icons will be always available. The set of available icons will change depending on the status of the section, and your specific user privileges.

The Actions column toolbar, with icons for key features.

Info/Messaging

Click the *Info/Messaging* icon to view a complete history of the section.

You can also *Add a Comment* that will be available to anyone who can view the section. To add a comment, type your comment into the text field, then click the *Comment* button. A yellow alert icon will appear in the section name column to indicate that a new comment has been posted.

Preview

Click the *Preview* icon to see an online preview of the selected section. You can turn the pages of the preview and navigate through the entire yearbook.

Settings

Users with Editor or Adviser privileges can perform advanced section management functions using the menu items that can be accessed by clicking the *Settings* icon.

See the following section, [Advanced Section Management](#), for more detail.

Edit

Click *the Edit* icon to check out a section of the yearbook and work on its design. You will be taken to the *Advanced Design* page.

While you are working on a section its status will be shown to other users as *Checked Out*, and no one else will be able to work on it.

Please see the [Designing Your Yearbook](#) section of this guide for more information about designing and editing your pages.

Force Check-in

Users with Adviser privileges can click the *Force Check-in* icon to gain access to a section that is currently checked out. This feature is intended to be used when the user forgot to properly check in the section after they were finished working. If a user is currently working on the section when this icon is clicked, they will lose access immediately.

Mark Complete

Click the *Mark Complete* icon when you are done editing a section and ready to submit it to an adviser for review. When a section has been marked complete, advisers will be notified via email, and can then review the section and *Approve* it, or *Reject* it with their comments.

PDF Proof

Users with Adviser privileges can click the *PDF Proof* icon to render PDF that can be printed locally for review.

You will see an option that allows you to select the sections that will be included in the PDF. Click *Select All* to select all sections in the book. Once you've selected your sections, click *OK*. The PDF will be generated and will appear in a new window.

The Online PDF is intended for local proofing only and is not the final production PDF. It is thus lower resolution and contains a PROOF watermark.

Approve

Users with Adviser privileges can click the *Approve* icon to approve a section that has been marked complete by the designer. Before clicking *Approve*, be sure to review the section in detail for any errors or required changes.

Click Approve once the section is complete and ready for the finished book. The section will be marked as *Reviewed*. While it has a status of Reviewed, the section will not be able to be checked out for further editing. Click the *Reject* icon to make the section once again available for editing.

Once all sections have been approved by an adviser, and have a status of *Reviewed*, it's time to submit your yearbook for printing. Please see the [Submitting Your Yearbook for Print](#) section of this guide for more detail.

Reject

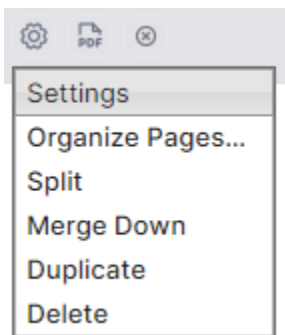

Users with Adviser privileges can click the *Reject* icon to reject a section and give the editor an opportunity to make changes. You will be prompted to add a reason that the section has been rejected. Your comment will appear in the Info/Message dialog and become part of the history of the section.

Once a section has been rejected, the section status will return to *In Progress*, and the Info/Message icon will update to notify the designer that there is a new comment. Any user can click the Info/Message icon to review the comment.

4.1.5 Advanced Section Management using the Settings Menu

Users with Editor or Adviser privileges can perform advanced section management functions using the menu items that can be accessed by clicking the Settings icon.

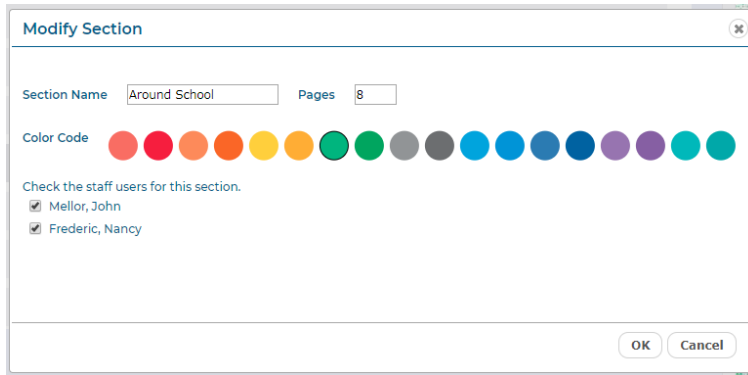

Click the Settings icon next to a section, then scroll down to the appropriate menu item, to select a feature.

Items in the Page Settings icon menu.

Settings

Select Settings to bring up the *Modify Section* dialog. Here you can update section details, add and delete pages, and assign users to work on a section.

The *Modify Section* dialog.

Change the *Section Name* to rename the section.

Change the *Pages* to adjust the number of pages in the section. If you increase the page count, new pages will be added at the end of the section. If you decrease the number of pages, pages will be deleted from the end of the section. A warning will appear asking you to confirm. Once pages are deleted, they cannot be retrieved.

If you change the page count by an odd number, the updated section will potentially break a spread in subsequent sections. In other words, left-hand pages will become right-hand pages, and right-hand pages will become left-hand pages. If you do this, a warning will appear asking you to confirm. You will not be allowed to break a spread if any of the affected sections have a status of *Checked Out*, *Complete*, or *Reviewed*.

Click a *Color Code* to choose a color for the section.

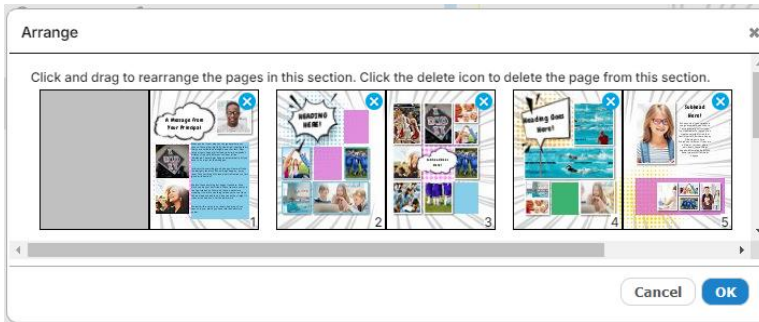

Check the box next to the name of the any Staff user(s) to give them permission to edit the section. Multiple users can be assigned to the same section.

Click *OK* when finished.

Arrange Pages

Select *Arrange Pages* under the Settings icon to bring up the *Arrange Pages* dialog. Here you can rearrange and delete pages in a section.

You can only arrange pages for a section with a status of *In Progress*. You cannot arrange pages for a section with a status of *Checked Out*, *Complete*, or *Reviewed*.

The Arrange Pages dialog.

Click and drag a page and then drop it in the desired location.

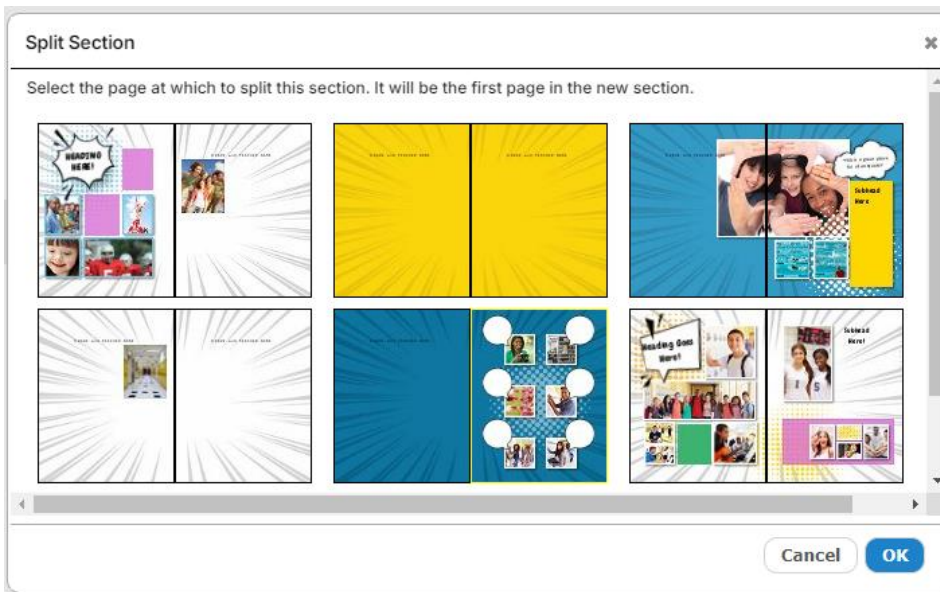

Click the x at the top of a thumbnail to delete that page from the book.

Click *OK* when complete. The section will be updated with the new page order.

Split

Select *Split* under the Settings icon to bring up the Split Section dialog. Here you can split a section into two separate sections.

You can only split a section with a status of *In Progress*. You cannot split a section with a status of *Checked Out*, *Complete*, or *Reviewed*.

The Split Section dialog.

Select the page which you would like to be the first page of the new section.

Click *OK* when complete. The section will be split at the point you selected, and a new section will be created.

Merge Down

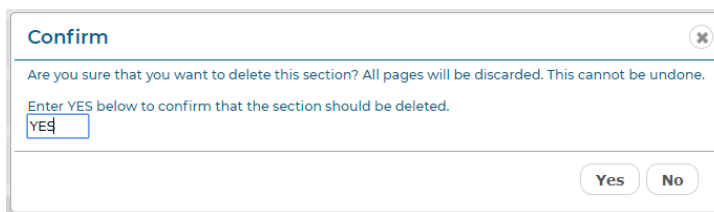

Select *Merge Down* under the gear icon to merge the current section with the section below it. The two sections will be merged. The current page order will be maintained.

You can only merge two sections that are adjacent to each other in the book, and only if each has a status of *In Progress*. You cannot merge sections if either of them has a status of *Checked Out*, *Complete*, or *Reviewed*.

Delete

Select *Delete* under the gear icon to delete the current section.

You can only delete a section with a status of *In Progress*. You cannot delete a section with a status of *Checked Out*, *Complete*, or *Reviewed*.

The Confirm Delete dialog.

You must type YES into the Delete Confirmation dialog to confirm that you want to delete the section. Then click OK.

Important! Deletion of a section is permanent and cannot be undone.

Copy Cover

If you have your book set up with two different Cover types, such as Hard Cover and Soft Cover, you can copy the cover design between covers.

The Copy Cover option in the Cover Settings dialog.

Click the gear icon on a Cover section, then select Copy Cover. You will then be prompted for the location for the copied cover.

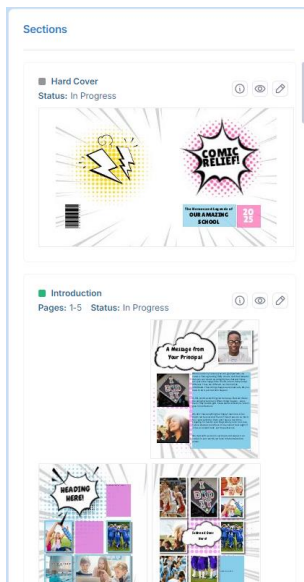

The Copy Cover dialog.

Make the appropriate selection from the dialog, then click OK.

Important! Each cover type has a different specification as required for printing. Once you have copied a design from one cover type to another, review each cover to make sure everything is properly aligned, and still within the safe area.

Working in the Section View

The *Section View*, located on the right side of the Yearbook page, displays a current thumbnail version page, and provides shortcut access to key functionality.

The Section View on the Yearbook page.

The *Section View*, located on the right side of the Yearbook page, displays a current thumbnail version of each section in the book, and provides shortcut access to key functionality.

Clicking on a section in the Yearbook Ladder will scroll that section into view in the Section View.

Each section in the Section View is color-coded with the ladder color for that section, and displays the Section Name, Status, and Page Range.

Icons on the Section View provide access to key functionality from the Yearbook Ladder.

Click the *Info/Messaging* icon to view a history of the section along with any current warnings or errors, and to *Add a Comment* that will be available to anyone who can view the section.

Click the *Preview* icon to see an online preview of the selected section. You can turn the pages of the preview and navigate through the entire yearbook.

Click *the Edit* icon to check out a section of the yearbook and work on its design. You will be taken to the *Advanced Design* page.

5 DESIGNING YOUR YEARBOOK

Designing the pages of your yearbook with YBLive should be fun and rewarding!

We recommend you spend some time familiarizing yourself with this chapter and the main features of the software before getting started. It's also ok to play around with the features before starting the actual design process.

Once you have a basic understanding of how the software works, you'll become an expert in no time!

5.1 Using the Advanced Design Page

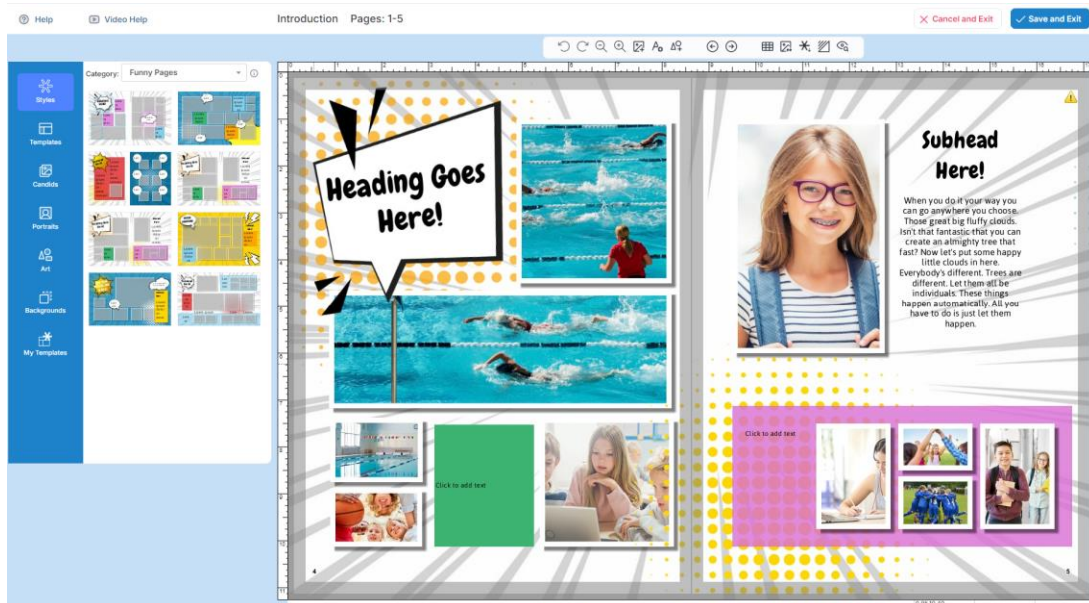

Click the *Edit* icon next to a section on the Yearbook Ladder where you have editing privileges. You will be taken to the *Advanced Design* page.

Click the Edit icon to edit a section..

It's time to start customizing your yearbook! The *Advanced Design* page provides a preview of the section you're working on and allows you to customize each page or spread individually. You can add templates and backgrounds, photos, text captions, and art, and make other design changes.

You can also create your portrait Panel pages, and Index pages, using automated features.

The Advanced Design page contains a wealth of features for designing the pages of your yearbook.

Click the *Help Video* link at the top of the page for a video overview of the main features.

Click *Help* to view any current help or warning messages. A message indicator will appear when there is a new help message.

The *Section Name* is displayed at the top of the page, along with the specific page numbers for that section.

The *Main Toolbar* across the top of the page, above the section preview, provides access to the main features for working with your yearbook.

The *Cancel and Exit* button allows you to leave the Advanced Design page without saving any of your changes.

The *Save and Exit* button allows you to leave the Advanced Design page and save all your changes.

HOT TIP! *Your pages are Auto Saved by the software so there's no need to worry about having to save them manually or losing any of your work. Click *Cancel and Exit* if you want to leave the page without saving anything. If you leave the page without clicking *Cancel and Exit* or *Save and Exit*, all changes will be applied.*

The *Tab Bar* on the left contains all the page design components, which can be dragged and dropped onto the pages of the yearbook.

The *Section Preview* in the center of the page is your working area and contains a real-time preview of the section you are working on.

Below the Section Preview, are *Page Navigation* controls that allow you to scroll between pages of the section.

5.1.1 Image Frame Types: Portrait vs. Candid

Image, or Photo, Frames are empty boxes in a page layout into which you drag portrait or candid photos. Portraits and Candid have different types of image frames; portraits can only be dragged into *Portrait frames*, and candid photos can only be dragged into *Candid frames*.

Two types of Image Frames in page layouts.

Image frames contain icons that let you know the type of frame. Portrait frames contain a portrait icon, and candid frames contain a landscape icon.

5.1.2 Trim and Safe Areas

A dark gray border around the section preview represents the *trim area*. You should not place any design art objects within this area, as they will be trimmed off in production.

A light gray border around the preview represents the *safe area*. You should be careful with any art objects placed within this area, as they will be very close to the edge of the page in the finished book.

5.1.3 Alerts and Warnings

When an error on the page occurs, an Alert dialog will appear, containing a description of the error and information about how to correct it.

Once you dismiss the dialog, a yellow Alert icon will appear on the page at the location of the error. Alert icons will disappear once the issues have been corrected. Note that an icon may signify that there is more than one issue.

The Alert icon.

Until the errors have been resolved, the message text will be available by clicking the Help icon at the top left of the page. A message indicator on the Help icon will indicate when there is a new error.

Common errors include:

- You have a low-resolution photo. Choose a different photo or reduce the size of the photo frame.
- You may have placed a text frame too close to the edge of the page. We recommend you move the text box inside the gray 'safe area' to ensure that it will not be trimmed off in production.
- Your pages may have been rearranged, and affect a frame (photo or art) that was on both sides of the spread. This frame now displays a warning icon. Please review and make any changes.
- You may have a Portrait photo that is overlapped by another photo or design art object.

IMPORTANT! When an error occurs on the page, you **MUST** locate and correct it before submitting your final book. You will be responsible for any uncorrected errors that show up in the final yearbook. If you have any questions about a specific error or message, please contact YearbookLife.

5.2 Using the Main Toolbar

The *Main Toolbar* provides access to the main features for working with your yearbook.

Move your mouse over any of the tool icons to see a description of the tool.

The Main Toolbar on the Advanced Design page.

Click the *Undo and Redo* icons to reverse or reapply the previous action. You can undo or redo up to 5 previous actions in a row.

Click the *Zoom In and Zoom Out* to enlarge or reduce the preview area to the optimum size for your screen.

Click the *Add Image Frame* icon to add a new image frame to the page. You can then drag and drop a photo from the Photos tab into the new frame.

Click the *Add Text Frame* icon to add a new text frame to the page. You can then click the T icon on the *Text toolbar* to add text to the frame.

Click the *Add Shape* icon to add a shape to the page, and adjust the Border, Fill Color, Drop Shadow and Transparency. There are several available shapes including Square, Circle, Hexagon, Triangle, Octagon, vertical Line and horizontal Line.

Click the *Previous Page* and *Next Page* icons to move forward and backward through the section.

Click the Toggle *Grid* icon to turn on and adjust the grid. The grid will help in aligning text, images and other floating design art objects. Clicking the button will provide a dropdown menu.

Select *Show Grid* icon to display a grid overlay on the page. Select $1/8''$, $1/4''$ or $1/2''$ from the Grid menu to choose the spacing between the grid lines.

Items will automatically snap to the grid as you move them. Select $1/8''$ or $1/4''$ from the Snap menu to determine the grid increments to which the items will align. Note that the snap increment you choose may be different than the grid spacing.

When you Zoom in to enlarge the page, in largest you will have an additional option of $1/16''$ in the Snap menu.

Click *Show Rulers* to toggle Rulers on and off.

Click the *Flip Layout* icon to flip the current layout horizontally. Clicking the icon will provide a dialog, with the option to flip only the Left page, only the Right page, or Both pages together. Select your preference, click OK, then the layout will be flipped.

Click the *Save Template* icon to save the current page or spread design under My Templates. You will have the option to save the Left side, the Right side, or Both sides of your 2-page spread. You will also have the option to include the Background and organize your new Template into a Category.

All Saved Templates will be available on the My Templates tab. You can drag and drop them to any page, just like a standard template.

Click the *Adjust Background* icon to clear the page background or adjust the color and lightness of the background. Select Colorize to adjust the color of the background. Select Lightness to make the background lighter or darker. Select Clear Background to remove the background from the page. Select Clear Color to reset the background to its original color. Select Clear Lightness to reset the background to its original lightness.

Click the *Preview* icon to see an animated on-screen preview of your book.

5.3 Adding Styles

Styles are predesigned spreads, in a wide variety of design choices, that allow you to create beautiful pages quickly and with little design experience. You can use *Styles* for your entire book, or for individual sections, spreads or even pages.

The selection of *Styles* that are available in your software can be controlled by an Adviser user.

You can add a *Style* to your section when you create it initially in the New Section dialog.

You can also add or change the style per spread in Advanced Design.

To add a *Style* to your page, click the *Styles* tab, then drag and drop your selected style onto the page. Note that styles are designed as two-page spreads and will replace the entire spread. You can also drag a style to a single page.

Once on the page, styles can be modified by changing the templates and backgrounds, and moving design art objects including image frames, text frames, and art objects.

The Styles tab contains a wide variety of pre-designed pages to choose from.

5.3.1 EL, MS and HS Styles

Styles are organized according to Elementary, Middle School and High School.

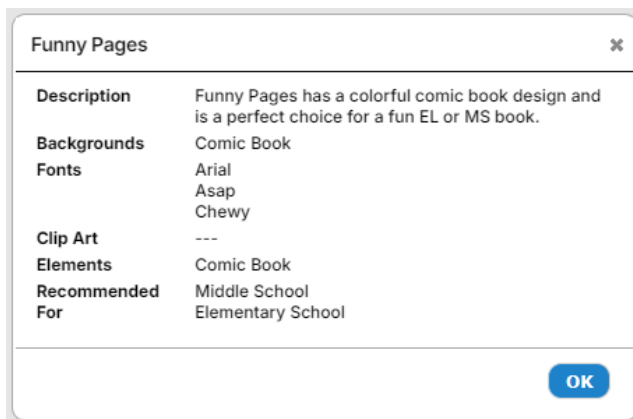

High School styles each contain eight or more spreads, with section intros for Clubs, Sports, Academics, Student Life and Portraits. HS styles also include *Modules* for special features such as surveys and scoreboards.

Middle School styles each contain 8 or more spreads, with basic Headers and Subheads, and include a wide variety of styles from playful to sophisticated.

Elementary School styles contain 6 or more spreads, with simple, fun and colorful designs and an emphasis on bright colors, elementary subjects and collages.

Advisers can select which styles to show in the software using the features on the [Configure page](#) in the software.

Click on the *Info* icon in the Styles tab to read information about the current style and its suggested use.

The Style Info dialog.

Tip! Refer to the YBLive *Content Guide* for all the available Styles, Templates, Styles, and Art that are updated each season These are excellent tools to aid in your yearbook planning and design!

5.4 Adding Templates and Backgrounds

The pages of your yearbook are primarily made up of *templates* and *backgrounds*.

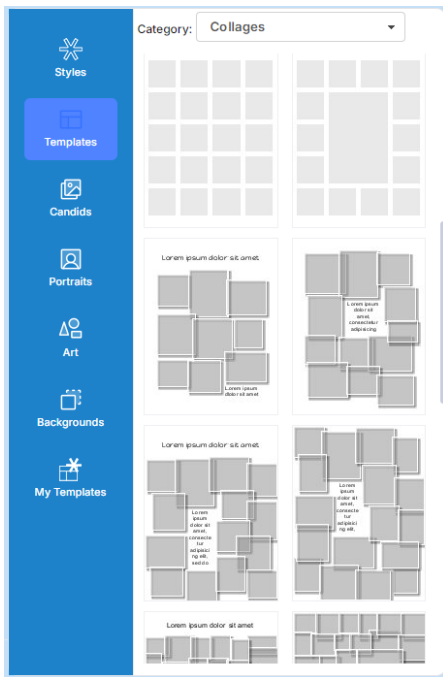

Templates are page layouts that contain photo frames and text frames. Photo frames contain photos that are dragged directly into the frame. There are different types of image frames for portrait and candid images, denoted by an icon in the frame.

Text frames contain text that is typed into the software and then applied to the frame.

Backgrounds are designs in various categories, which appear behind the templates, and often provide the overall style for the page.

Templates and *Backgrounds* are located on their respective tabs, to the left of the section preview. You can change the template or background for each page independently, by dragging them to the appropriate page in the spread. Backgrounds can also be added to the entire spread.

Templates are organized into categories. Click on the *Templates* tab, and then use the *Category* menu to browse and view the available templates. To change the template for a page, select a template thumbnail, then drag and drop it from left to right onto the page. Note that any existing text and photos will be flowed into the new template.

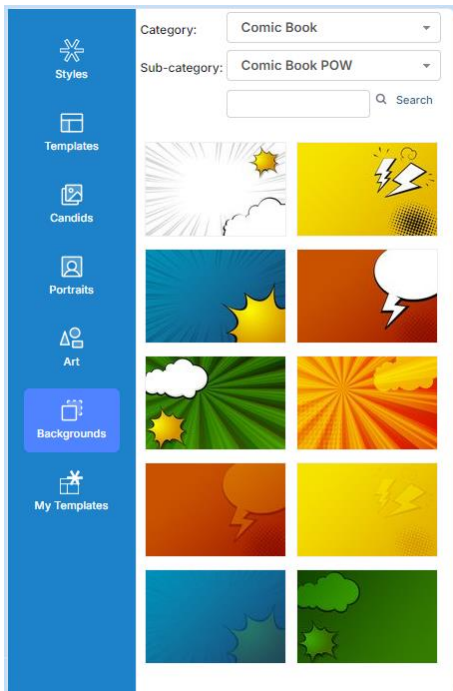

Choose from a wide variety of templates on the Templates tab.

Backgrounds are organized into categories and sub-categories by style. Click on the *Backgrounds* tab, and then use the *Category* and *Sub-category* menus to browse and view the available backgrounds. To change the background for a spread, select a background thumbnail, then drag and drop it from left to right onto the center of the spread. To change the Background for only the left or right page, drag it to that page.

You can *Search* for Backgrounds by typing keywords into the Search bar, then clicking Search. Your results will appear below.

Tip! When you drag a Background onto the page, you will see a green highlight on the preview to indicate whether the background will be added to the left page, right page, or entire spread.

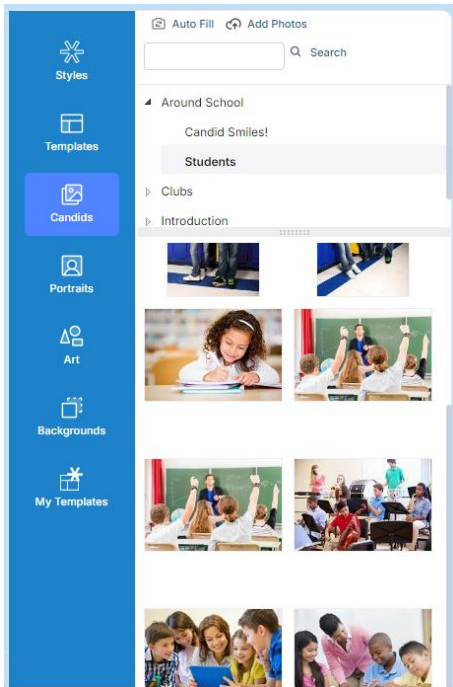

Browse and select backgrounds on the Backgrounds tab.

5.5 Working with Candid Photos

Candid Photos are [uploaded on the Photos page](#) of the software, and are then available on the *Candid*s tab. When you first click on the Candids tab you will see the photos that are in the same folder as the name of your section. Use the *Folder* menu to choose a different folder of photos.

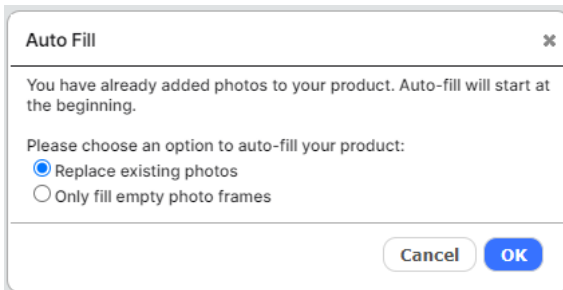

To add photos to a page, click on a photo, and drag and drop it from left to right into an image frame on the page. To replace an existing photo, simply drag a new photo onto it.

Click *Search* to locate all the candid photos containing a particular student. The results will appear in a new dialog.

The Candid tab.

Click *Autofill* to automatically flow photos from the current folder into the image frames in the section. You will have the option to *Replace the existing photos*, or to *Only fill the empty photo frames*. Click the button next to your selection, then click *OK*. Photos will be flowed throughout the section until there are no more photos, or no more frames.

The Auto fill dialog.

You can also click the *Add Image Frame* button on the toolbar to add a new frame to the page. Then click on a photo and drag and drop it onto the new frame.

In addition, you can simply drag a photo from the Photos tab to any empty part of the page, and then release it.

Click and drag on an image frame to move the photo around on the page.

Click and drag the handle on any corner of an image frame to scale the image.

Click and drag the handle on the top or side of any image frame to crop the image.

Refer to the [Editing Photos section](#) for more information about editing candid photos.

5.6 Working with Portrait Photos

Portrait Photos are [uploaded on the Photos page](#) of the software, and are then available on the *Portraits* tab.

Use the *Folder* menu on the Portraits tab to choose a different folder of portraits. Click *Portrait Wizard* to get started building your portrait pages.

The Portraits tab.

5.6.1 Using the Portrait Wizard

To create your *Panel Pages*, or *Portrait Pages*, it's recommended that you use the *Portrait Wizard*. The *Portrait Wizard* will automate the design of your pages and manage the placement of portraits.

Once your portrait pages have been created, you can choose to make changes and add design elements using the same advanced tools available for your candid photo layouts.

Tip! Before you start it's helpful to have a basic idea of how many portraits you will have per class, and on each page. Then create a Portraits section with the appropriate number of pages. It's ok to add extra pages just in case, which you can delete later.

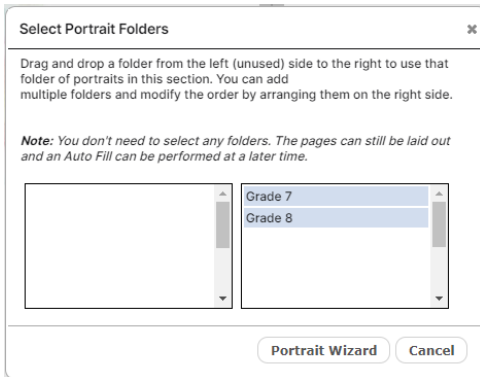

When you're ready to get started, click on the *Portrait Wizard* icon, on the Portraits tab.

Portrait Wizard

The Portrait Wizard icon on the Portraits tab.

Selecting Your Photos

When you click on *Portrait Wizard*, the *Select Portrait Folders* dialog will open. Here you can select the folder, or folders, of portraits that you would like to flow into the section. To select a folder, drag it from the left pane to the right pane. You can flow as many portraits as you'd like into a single section.

The Select Portrait Folders dialog.

Tip! You may choose to add your portraits later. In this case, skip this step and use the Portrait Wizard to layout your pages without portraits. Choose Auto fill from the Photos tab to flow your portraits later.

When you're finished, click *OK*. The *Portrait Wizard* dialog will open.

Saved Settings

The *Portrait Wizard* allows you to easily build and modify your panel pages, while viewing your changes in real time. It also allows you to save and manage your portrait page settings, to simplify page creation and management. Each time you launch the Portrait Wizard, your most recently used settings will be applied. If you have not yet saved any settings, you will be prompted to create a new settings file.

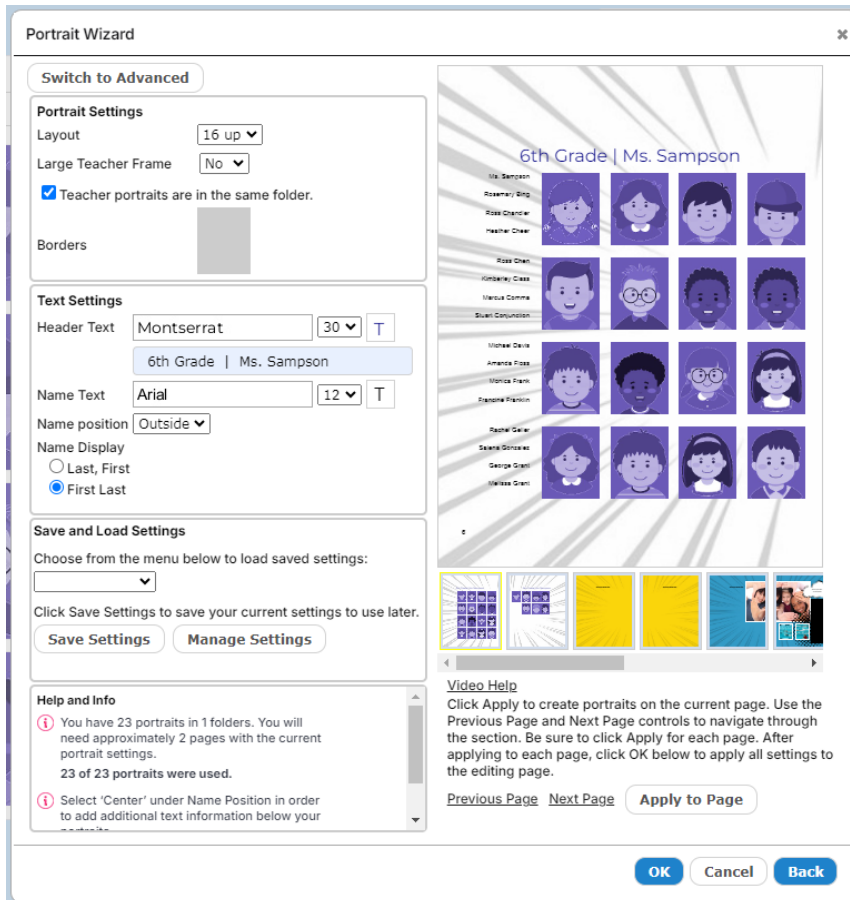

Basic or Advanced Mode

The Portrait Wizard has two different modes of use: *Basic* mode provides the most popular standard layouts and features and is most suitable for novice users, or users that want to quickly create basic portrait pages. Features in *Advanced* mode allow for more detailed customization of your panel pages. Don't worry – you can switch back and forth between these modes based on your needs!

5.6.2 Basic Mode Features

The Portrait Wizard opens in *Basic* mode. Click the *Switch to Advanced* button at the top of the page to change to Advanced Mode. You can switch back and forth between modes any time.

This section describes the features available in Basic mode; the following section describes the features in *Advanced* mode.

Basic mode in the Portrait Wizard.

Basic Mode Overview

Adjustments for your portrait pages are organized into *Portrait Settings* and *Text Settings*.

The *Save and Load Settings* feature allows you to save your current Portrait Wizard settings for later use, or for use in another section.

The *Preview* at the right shows a live update of all settings, with *Page Navigation icons* below that show the number of pages in the section you are currently working on.

You can apply your current settings to pages in the Preview by clicking the *Apply to Page* button, which is also located below the Preview. Click the *Previous Page* and *Next Page* buttons to navigate through the current section.

Help and Info appears at the lower left of the dialog, to the left of the Preview. The text at the top of the Help and Info section tells you the number of pages you will need, based on the number of portrait photos you have selected and the current portrait settings. This text will be updated as you make changes that affect the number of pages required.

Tip! Click the [Video Help](#) link to watch the tutorial video when using the Portrait Wizard for the first time. This is a great way to get started!

Adjusting the Portrait Settings

The *Portrait Settings* allow you to define and adjust the layout of portraits on the page.

The Layout menu contains the most popular portrait layouts. Select from the menu to specify the number of portraits you would like on each portrait page. Note that the number of pages required may change based on this setting.

If you can't find a setting that works for your desired portrait page design, click the button to *Switch to Advanced* mode, where you will have more options.

Select from the *Type* menu to change the shape of the portrait frames between standard (rectangular) or oval.

Drag the *Borders slider* to add a border to the portraits, and to adjust the thickness of the border. Click on the *color swatch* to change the color of the border.

Working with Teacher Portraits

In Basic mode, you can choose to flow one teacher portrait into a large teacher frame, or to flow multiple teachers into smaller frames ahead of the student portraits.

To add a large frame for your teacher photo, select Yes from the *Large Teacher Frame* menu.

Check the checkbox *if teacher portraits are in the same folder* as the student portraits. This will cause the teacher portraits to flow automatically into the first row, with the first portrait flowing into the large frame and the rest flowing into smaller frames. You can designate which portrait is a teacher and set the order that each teacher appears on the page [using the controls on the Photos page](#).

If your teacher portraits are in a different folder than your student portraits, you can drag and drop teacher photos into their frames from the Photos tab.

If you need more than one large teacher frame, click the button to *Switch to Advanced* mode, where you will have more options.

Adjusting the Text Settings

The *Text Settings* allow you to define and adjust the attributes of all text on the page.

Use the *Header Text* functionality to add a text header to the top of the page. Type your text into the text box. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change the size of the text. Click on the color swatch to change the color of the text.

Use the *Name Text* functionality to adjust the type characteristics of the student names. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change the size of the text. Click on the color swatch to change the color of the text.

Select from the *Name position* menu to adjust placement of student names. Select *Outside* to place the names to the outside of the page. Select *Center to place the names below* the frames.

Select from the *Name lines* menu to designate either 1 or 2 lines of space for student names.

Select a *Name Display* button to choose whether to organize student names by *Last Name, First Name* or *First Name, Last Name*.

Alerts

The yellow Alert icon.

If you see a yellow *Alert icon* on your preview, this indicates an error on the page. For example, the amount of text in the student name will not fit in the allotted space. Check the Help and Info section at the lower left corner of the Portrait Wizard dialog for additional information. The Alert icon will disappear when there are no issues remaining.

Applying and Saving to Your Portrait Pages

Click *Apply to page* to apply the current Portrait Wizard settings to the current page. Refer to the *Page Navigation icons* at the lower right to confirm the page you are working on.

Click on *Previous Page* and *Next Page* to move through the pages in the section. Then click *Apply to page* again to apply the settings to each subsequent page.

Portraits will flow onto the pages automatically as you apply the settings. You can change the settings for a page at any time. Be sure to click *Apply to page* again to apply any changes.

Saving Your Settings

You can save the current Portrait Wizard settings and then apply them to other portrait pages. Click the *Save Settings* button to save the current settings. You will be prompted to enter a name for your settings. Your settings will be saved to the *Save Settings* dropdown menu.

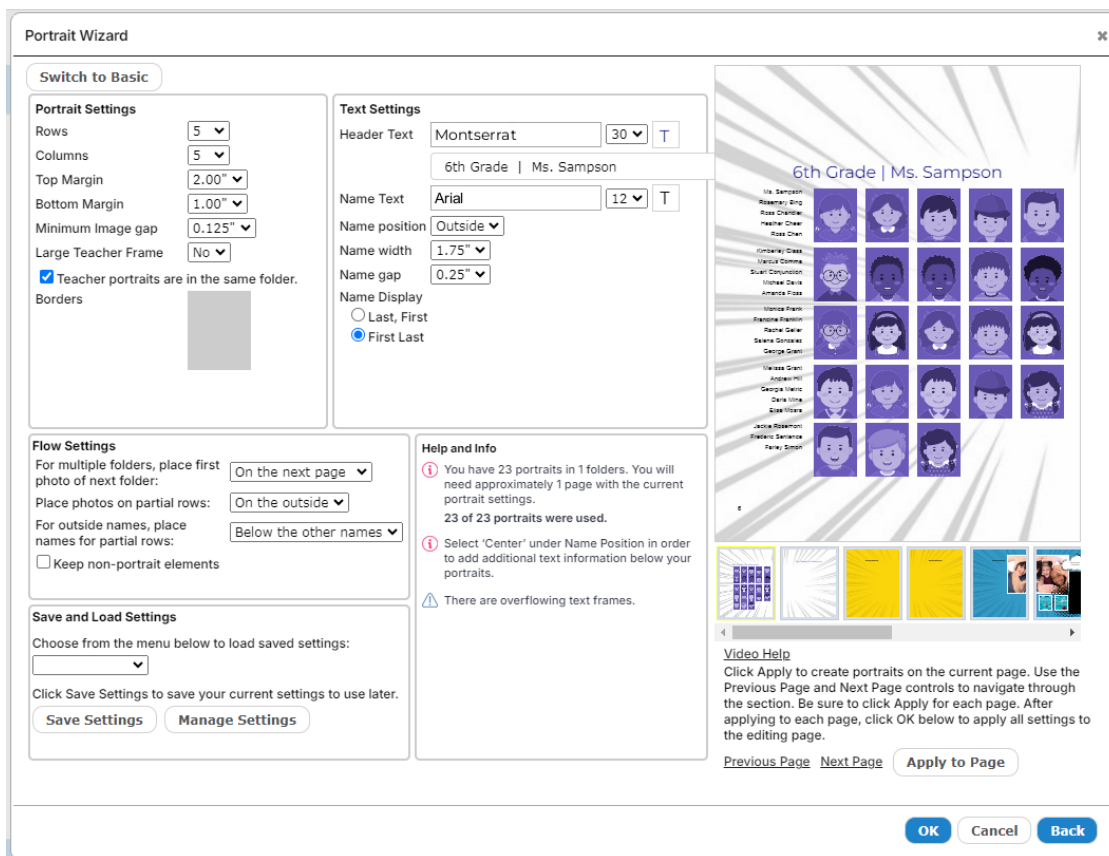

Click Manage Settings to *Rename* or *Delete* your saved settings.

To apply your settings to another portrait page, open the Portrait Wizard, then select your saved setting from the menu. The Portrait Wizard settings will be updated. Click *Apply to page* to apply the settings to the current page.

Click *OK* to close the dialog and save your changes. Click *Cancel* to close the dialog without applying any changes. Click *Back* to go back to the Select Portrait Folders dialog.

5.6.3 Advanced Mode Features

This section describes the features available in *Advanced* mode; the previous section describes the features in *Basic* mode. Click the *Switch to Basic* button at the top of the page to change to Advanced Mode.

The Portrait Wizard showing a panel page in progress.

Advanced Mode Overview

Adjustments for your portrait pages are organized into *Portrait Settings*, *Text Settings*, and *Flow Settings*.

The *Save and Load Settings* feature allows you to save your current Portrait Wizard settings for later use, or for use in another section.

The *Preview* at the right shows a live update of all settings, with *Page Navigation icons* below that show the number of pages in the section you are currently working on.

You can apply your current settings to pages in the *Preview* by clicking the *Apply to Page* button, which is also located below the *Preview*. Click the *Previous Page* and *Next Page* buttons to navigate through the current section.

Help and Info appears at the lower center of the dialog, to the left of the *Preview*. The text at the top of the *Help and Info* section tells you the number of pages you will need, based on the number of portrait photos you have selected and the current portrait settings. This text will be updated as you make changes that affect the number of pages required.

Video help also appears below the *Preview*. Click to watch the tutorial video.

TIP! We recommend that users watch the tutorial video before using the Portrait Wizard for the first time. This is a great way to get started!

Adjusting the Portrait Settings

The *Portrait Settings* allow you to define and adjust the layout of portraits on the page.

Select from the *Rows* and *Columns* menus to specify the number of rows and columns you would like on your portrait page. Note that the number of pages required may change based on this setting.

Select a *Top Margin* setting from the menu to add additional space to the top of the page.

Select a *Bottom Margin* setting from the menu to add additional space to the bottom of the page.

Select a *Minimum Image Gap* setting from the menu to adjust the minimum amount of space between your portraits. A smaller minimum image gap will bring the portraits closer together and will result in larger portraits.

Select from the *Type* menu to change the shape of the portrait frames between standard (rectangular) or oval.

Drag the *Borders slider* to add a border to the portraits, and to adjust the thickness of the border. Click on the *color swatch* to change the color of the border.

Click the *Drop Shadow* checkbox to add a drop shadow to the portraits. Select from the *color picker* to choose a color for the drop shadow. Select from the *Transparency* slider to adjust the transparency of the drop shadow.

Options for Working with Teacher Portraits

In *Advanced mode*, you can choose to flow multiple teachers onto the page into large teacher frames, or into smaller frames ahead of the student portraits.

To add larger frames for your teacher photos, select from the *Large Teacher Frame* menu to add the number of frames you'll need. If you do not choose to add larger teacher frames, teacher portraits can be placed into smaller frames ahead of the student portraits.

Tip! The number of available Large Teacher Frames depends on the number of portrait columns you have available. The maximum number of Large Teacher Frames is 3, which will become available when you use 6 or more columns.

Check the checkbox *if teacher portraits are in the same folder* as the student portraits. This will cause the teacher portraits to flow automatically into the appropriate teacher frames. You can designate which portrait is a teacher and set the order that each teacher appears on the page [using the controls on the Photos page](#).

If your teacher portraits are in a different folder than your student portraits, you can drag and drop teacher photos into their frames from the Photos tab.

Adjusting the Text Settings

The *Text Settings* allow you to define and adjust the attributes of all text on the page.

Use the *Header Text* functionality to add a text header to the top of the page. Type your text into the text box. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change the size of the text. Click on the color swatch to change the color of the text, and the transparency and fill color for the text frame.

Use the *Name Text* functionality to adjust the type characteristics of the student names. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change the size of the text. Click on the color swatch to change the color of the text, and the transparency and fill color for the text frames.

Select from the *Name position* menu to adjust placement of student names. Select *Outside* to place the names to the outside of the page. Select *Center to place the names below* the frames.

If you select *Outside*, the names will appear to the left of portraits on a left-hand-page, and to the right of portraits on a right-hand page. You will see menus to adjust the *Name width* and *Name gap*. Change the *Name width* to adjust the width of the text frames. Change the *Text gap* to adjust the amount of space between the text frames and portraits.

Select a *Name Display* button to choose whether to organize student names by *Last Name, First Name* or *First Name, Last Name*.

If you select *Center*, the names will appear below the portraits, and you will have some additional flexibility in adding text.

You will see a *Name lines* menu that will allow you to adjust the number of lines to be used for student names. You can choose to add between 1 - 4 lines of information below each portrait.

Once you've selected the appropriate number of lines, drag and drop the information that you would like to appear on the panel page, from the left to the right.

IMPORTANT! If you see a yellow *Alert icon* on any of the portraits in the preview, this might mean that the amount of text in the name does not fit in the allotted space. You'll see more detail in the Alert section at the lower left of the dialog. Adjust the font size, name position, and other settings until all names fit properly, and the alerts disappear.

Adjusting the Flow Settings

If you selected more than one folder of photos on the *Select Portrait Folders* dialog, the *Flow Settings* will appear, allowing you to determine how to separate the portraits from each subsequent folder, and how you would like a final, partial row of portraits to appear.

In the menu labelled *For multiple folders, place first photo of next folders*, you can choose between *On the next page*, *On the next photo*, or *On the next line*. This will allow you to control the transition from one folder of class portraits to the next.

In the menu labelled *Place photos on partial rows*, you can choose between *On the left*, *On the right*, *In the center*, *On the inside* or *On the outside*. This will allow you to control the appearance of the final row of portraits, when it contains less portraits than the rows above it.

In the menu labelled *Display empty portrait frames*, you can choose *Yes* or *No*. This will allow you to control whether empty portrait frames should be shown on the page. If you chose to place partial rows in the center, the *Display empty portrait frames* menu will automatically be set to *No*.

Tip! We recommend you do not delete empty portrait frames. It is best to leave them in place, in case you need to add additional portraits to the class later. The *Display empty portrait frames* feature allows you to hide the frames that are unused but keep them available in case you end up needing them.

Click the *Keep non-portrait elements* checkbox to preserve other elements in your page design when changing your portrait layout. If you do not check this box, the Portrait Wizard will delete existing objects, and floating image and text frames when updating the page.

Alerts

The yellow Alert icon.

If you see a yellow *Alert icon* on your preview, this indicates an error on the page. For example, the amount of text in the student name will not fit in the allotted space. Check the Alerts section at the lower left corner of the Portrait Wizard dialog for additional information. The Alert icon will disappear when there are no issues remaining.

Applying and Saving Settings

Click *Apply to page* to apply the current Portrait Wizard settings to the current page. Refer to the *Page Navigation icons* at the lower right to confirm the page you are working on.

Click on *Previous Page* and *Next Page* to move through the pages in the section. Then click *Apply to page* again to apply the settings to each subsequent page.

Portraits will flow onto the pages automatically as you apply the settings. You can change the settings for a page at any time. Be sure to click *Apply to page* again to apply any changes.

You can save the current Portrait Wizard settings and then apply them to other panel pages. Enter a name for the settings, then click the *Save Settings* button to save the current settings. Your settings will be saved to the *Save Settings* dropdown menu.

To apply your settings to another panel page, open the Portrait Wizard, then select your saved setting from the menu. The Portrait Wizard settings will update. Click *Apply to page* to apply the settings to the current page.

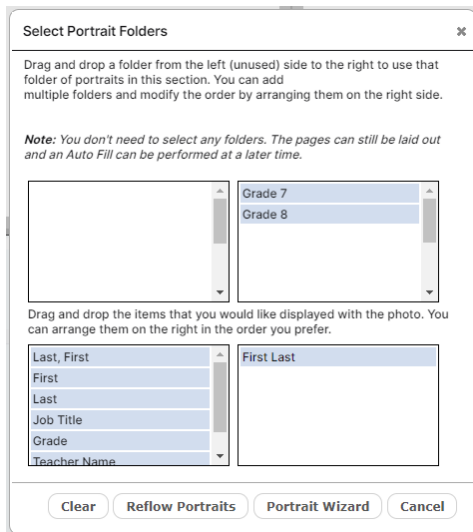

Click *OK* to close the dialog and save your changes. Click *Cancel* to close the dialog without applying any changes. Click *Back* to go back to the Select Portrait Folders dialog.

5.6.4 Using the Reflow Portraits feature to Flow Your Pages

You can also use the *Reflow Portraits* feature to create and flow your portrait pages. This is recommended for unique designs and special cases where the Portrait Wizard is not suitable.

To create new Portrait Pages, drag a Portrait Layout to the page from the Layouts tab, or from Special Pages on the Styles tab. You can customize the layout using the tools in the editor.

Click *Reflow Portraits* to automatically flow portrait photos from the current folder into the layout. When you click Reflow Portraits, the dialog will appear.

The Reflow Portraits dialog.

To flow your portraits into the current layout, drag the portrait folder(s) you want to use from the left to the right.

Then, drag the data you want to display with the portraits from the left to the right.

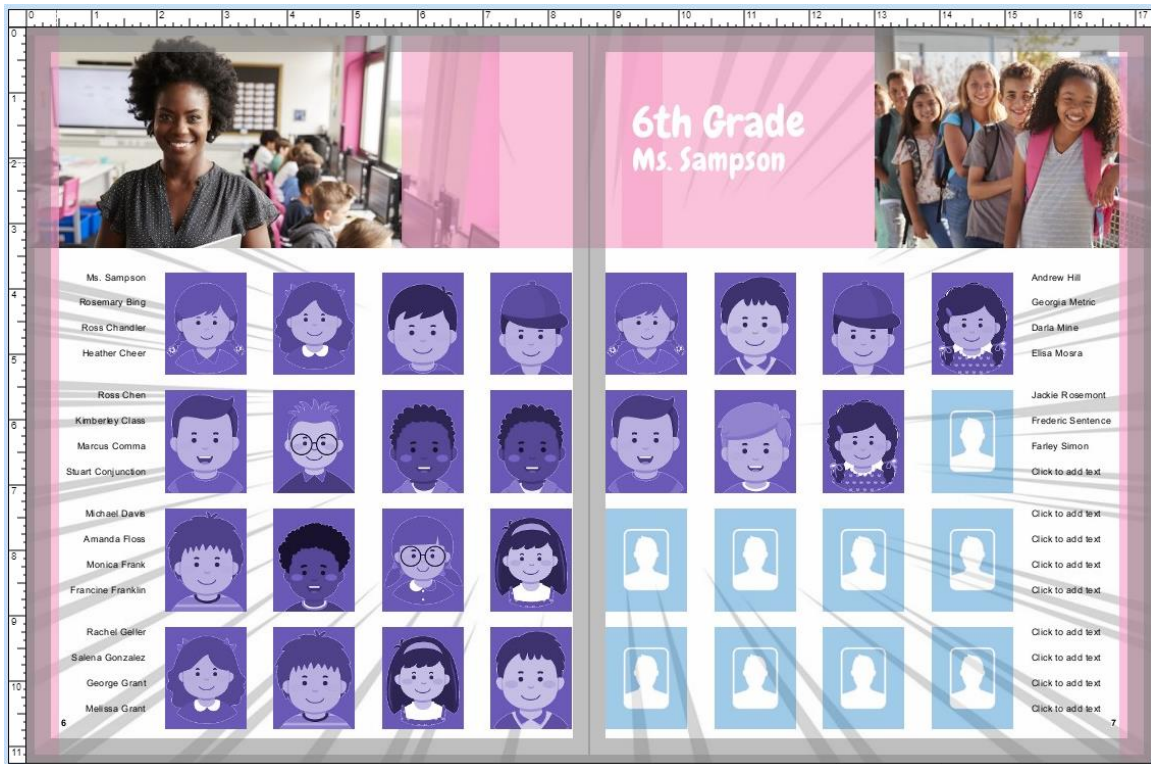

Finally, click *Flow Portraits*. Your portraits will flow into the layout.

Tip! The Reflow Portraits feature can also be used to flow portraits, or reflow portraits, into layouts that were created using the Portrait Wizard.

5.6.5 Editing Your Portrait Pages

You can use all the design functionality for customizing your portrait pages, including changing backgrounds, adding text and candid photos, and adding art.

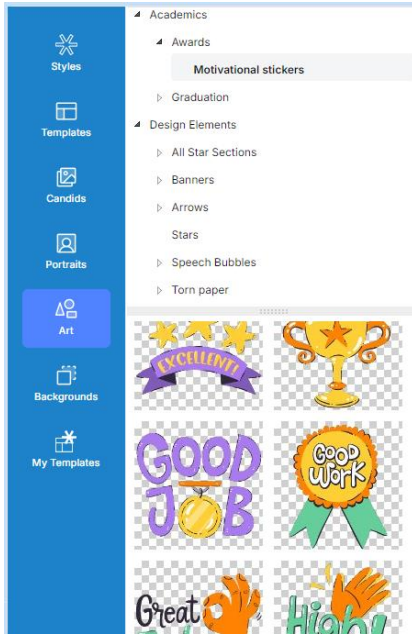

You can also delete or move individual portrait frames. The order of the portraits will be maintained, and portraits will reflow as necessary in response to any changes.

A creative Portrait Page designed using the portrait wizard, and then customized.

5.7 Adding Art to Your Pages

The *Art* tab contains a wide selection of art objects and design elements that can be used to enhance your pages. Click on the *Art* tab, and then use the menus to browse and view the art library. The available selection of Art can be adjusted by an Adviser.

The Art tab.

To add an art object to the page, select a thumbnail, and drag and drop it from right to left onto the page. You can then click and drag it to position it on the page.

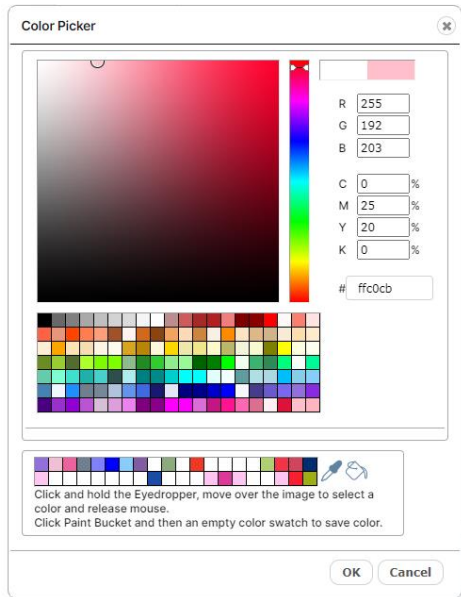

Click and drag the handle on any corner of the frame to scale to a larger or smaller size.

Selected Art Object and the Editing Toolbar.

When you click to select an art object, you will see the *Editing Toolbar*.

Click the *Rotate* icon, then select an option from the dropdown menu, to flip or rotate the art object.

Use the Color Picker to change the color of your art object.

Click the *Colorize* icon to launch the color picker and change the color of your art object. You can select a color from the available swatches, type in your own RGB or CMYK value, or use the eyedropper to select a color from your page. Click OK to apply the currently selected color to your object.

Click the *Delete* icon to delete the object.

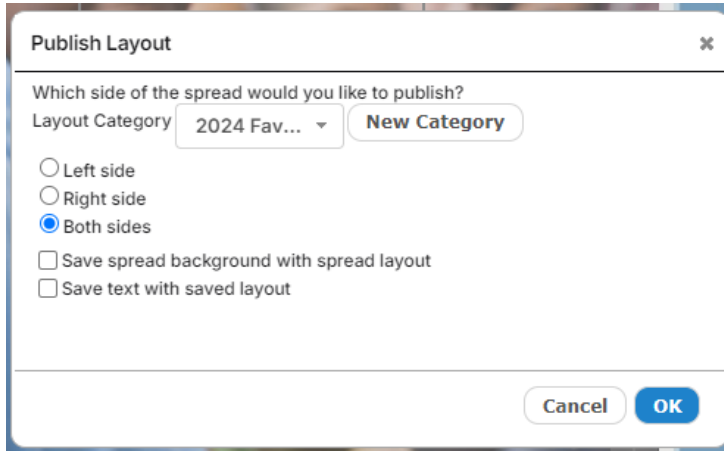

Click the *More* arrow, then select *Duplicate* from the menu to duplicate the object.

Click the *More* arrow, then select from the *Layer* menu to move the object forward or backward with relation to other items on the page.

5.8 Working with My Templates

The *My Templates* tab allows you to create your own custom page designs and use them throughout your book.

To save a Template you designed to My Templates, click the *Save Template* button. A dialog will appear, providing you with some options for saving your template.

The Save Template dialog.

Choose a *Template Category* from the menu for your saved template. Or, click *New Category* to create a new category for your template.

Select *Left Side* to save only the left side of your 2-page spread.

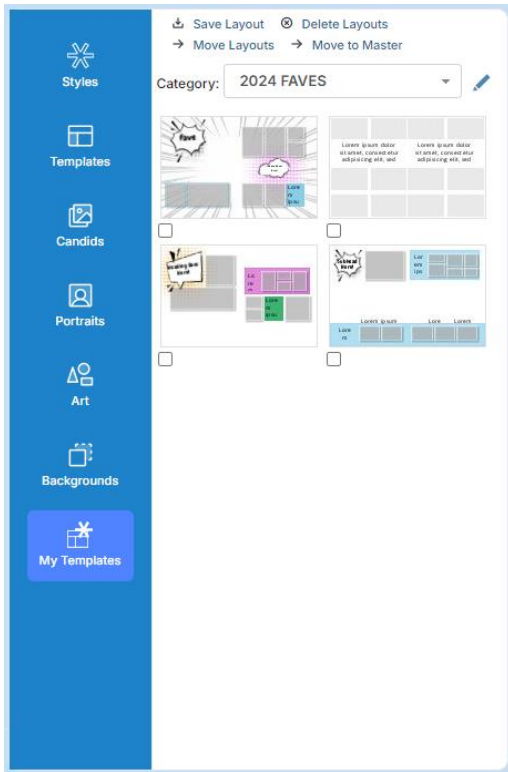

Select *Right Side* to save only the right side of your 2-page spread.

Select *Both Sides* to save both sides of your 2-page spread.

Click *Save Background* to include the background with your saved template.

Any Art will be automatically saved as part of the template.

Once you are ready, click *OK*. Your newly saved template will now be available on the *Saved Templates* tab. You can drag and drop it to any other page in your books.

The Saved Templates tab.

5.9 Editing Photos

To edit a photo, click on it to select it, and you will see the *Photo Editing Toolbar* appear at the top of the photo. Move your mouse over any of the tools to see a description of the tool.

The Photo Editing Toolbar.

5.9.1 Cropping Using the Crop Tool

Click on the *Crop tool* to crop the photo. The crop dialog will appear. The yellow crop triangle represents the area of the photo that will be cropped. Click in the center of the crop triangle and drag to reposition it. Click and drag a corner to scale it. Click *Apply* to close the dialog and apply your changes to the photo. Click anywhere outside of the dialog to close it without making any changes.

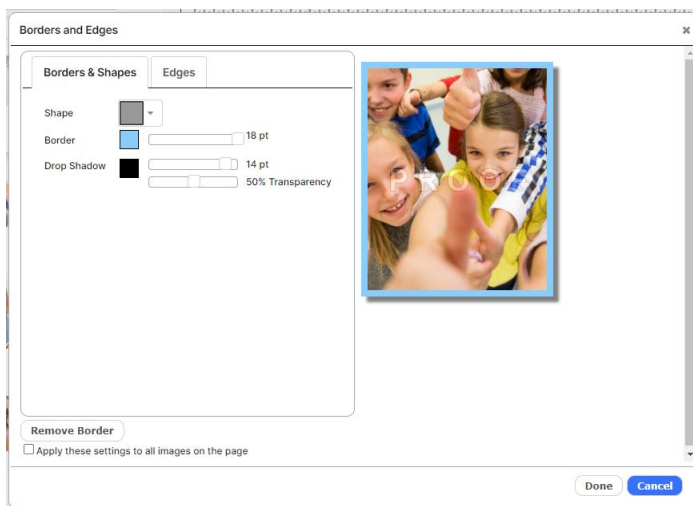

Cropping a photo in the Crop dialog.

5.9.2 Adding Borders, Shapes, Drop Shadows and Edge Effects

Click on the *Borders and Edges tool* to apply a border, shape, drop shadow, and to choose from a variety of edge effects to apply to the photo. The Borders and Edges dialog will appear.

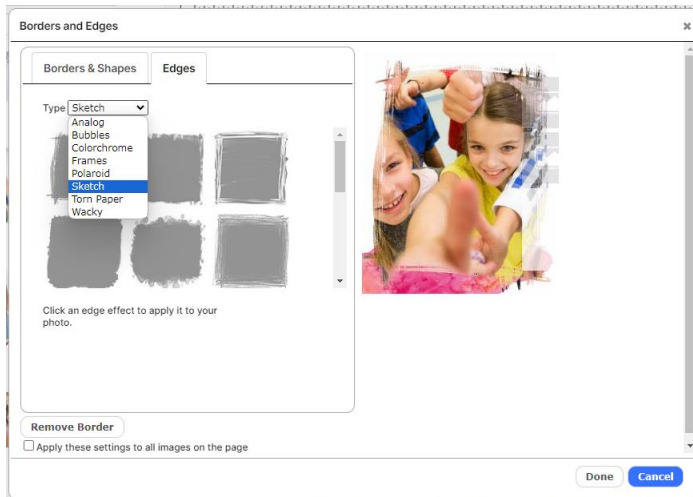

Applying a border, shape and colored drop shadow in the Borders and Effects dialog.

Choose from the *Shape* menu to change the shape of the image frame.

Adjust the *Border* slider to add a border and change its thickness. Click on the *color swatch* to change the color of the border.

Adjust the *Drop Shadow* slider to add a drop shadow and control its thickness. Click on the *color swatch* to change the color of the drop shadow. Select from the *Transparency* slider to adjust the transparency of the drop shadow.

Click on the *Edges* tab to choose from different edge effects to apply to your photo.

Adding Edge Effects to a photo.

Click *Remove Border* to remove borders and effects from your photo.

Click *Done* to close the dialog and apply your changes to the current photo. Check the box to *Apply your settings to all images on the current spread*.

Click *Cancel* to close the dialog without making any changes.

5.9.3 Rotating and Flipping Using the Rotate Tool

Click on the *Rotate tool* to rotate or flip the photo. A dropdown menu will appear with several options for flipping your photos or rotating to various angles. Select an option from the menu. Your selection will be automatically applied to the photo.

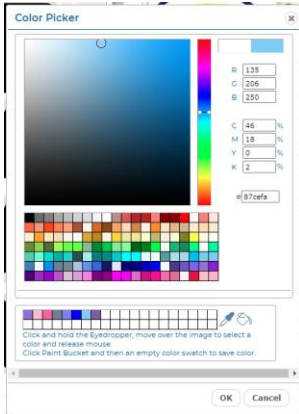

Choose *Custom* to type in a value for the rotation, then click *Apply* to rotate your photo.

5.9.4 Colorizing a Photo

Click the *Colorize* icon to launch the color picker and change the color of your photo. You can select a color from the available swatches, type in your own RGB or CMYK value, or use the eyedropper to select a color from your page. Click *OK* to apply the currently selected color to your photo.

Tip! When colorizing a photo, the properties of the photo will have an impact on which colors work best. Sometimes different colors work better than others, and sometimes darker or lighter works better, so experiment to find the result you want. You may also want to try the *Duotone Effects* feature.

Use the Color Picker to change the color of your photo.

5.9.5 Adding Custom Colors to the Color Picker

You can save *custom colors* from art objects on the page and add them to the bottom rows of the color picker to use throughout your book.

To add a custom color, click on the *Eyedropper* tool at the bottom of the color picker, then while still holding down your mouse button, move the cursor around the page to a color you would like to use. Let go of the cursor when you have found a color you like.

Next click the *Paint Bucket* tool to load the color, then click the swatch you'd like to fill with your new custom color. The color will now be available in the color picker to use throughout your book.

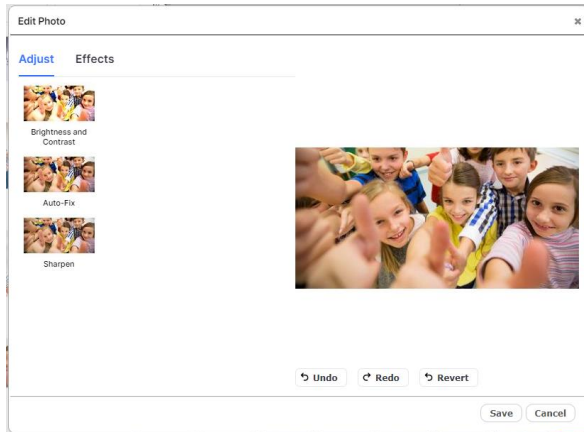

Adding a custom color to the color picker.

5.9.6 Editing Your Photo

Click the *Effects* icon to apply a variety of enhancements and effects to the photo. The *Edit Photo* dialog will open.

The Effects dialog for image frames.

On the Effects dialog you will see a preview of your current photo on the right, and the available corrections on the left. The thumbnails show the actual effect to your current image.

Click a *thumbnail* to apply the effect to your image. Some of the effects will provide variations at the right, which you can click to apply.

Click *Undo* to reverse the most recent action. Click *Redo* to repeat the most recent action. Click *Revert* to revert the image to the original.

Click *Save* to save a copy of the image with corrections.

The following Enhancements are available on the *Adjust* tab:

- Brightness and Contrast
- Auto-Fix
- Sharpen

The following Effects are available on the *Effects* tab:

- Duotone
- Blur
- Pixellate
- Posterize

5.9.7 Deleting a Photo or Frame Using the Delete Tool

Click on the *Delete tool*, then choose *Delete Frame* from the dropdown menu to delete the entire image frame. Choose *Clear Image* to only delete the photo and leave the image frame in place.

5.9.8 Advanced Photo Editing

Click on the *arrow* icon at the right of the *Photo Editing Toolbar* to access the *Advanced Editing* options. A dropdown menu will appear.

Select *Duplicate* from the menu to duplicate the photo.

Select *Lock* from the menu to lock the photo so that it cannot be moved. Select *Unlock* to unlock the photo.

The *Fill Page* options allow you to fill the page with a photo, or use a photo as the background, in one simple step. Select *Fill Page* to fill the current page with the photo. Select *Fill Page/Send to Back* to fill the page with the current photo, then send it to the back, making it the background. Select *Fill Spread* to fill the whole spread with the photo. Select *Fill Spread/Send to Back* to fill the whole spread with the current photo, then send it to the back, making it the background.

The *Layer* options allow you to move the photo forward and backward in relation to the other objects on the page. Select from *Bring Forward*, *Bring to Front*, *Send Backward*, and *Send to Back*.

Click *Transparency* to adjust the transparency of the photo. Drag the slider to the desired transparency, ranging from 0% (opaque) to 100% (completely transparent). The photo will update automatically when the slider is adjusted.

Click *Image Info* for information about the photo, including names of people tagged in the photo.

Select from the *Image Fill* menu to adjust the placement of the photo in the frame. The *Scale to Fit* option will fit the entire photo in the frame, even if the frame has a different aspect ratio. The *Scale to Fill* option will fill the frame with the photo, from the center out. If the frame has a different aspect ratio than the photo, the photo may be cropped equally on all sides to fit the frame. The *Scale to Fill (Top)* option will fill the frame with the photo, from the top down. If the frame has a different aspect ratio than the photo, the photo may be cropped on the bottom and sides to fit the frame.

5.10 Adding and Editing Text

To add or edit text, click on a text frame to select it, and you will see the *Text Editing Toolbar* appear at the top of the photo. Move your mouse over any of the tools to see a description of the tool.

The Text Editing Toolbar.

5.10.1 Adding and Editing Text Using the Text Edit Tool

Click on the *Text Edit tool* to add text to the frame or edit existing text. The text editing dialog will appear. Type your text into the text box. Select from the *Font* menu to change the font. Select from the *Font Size* menu to change the size of the text. Click the *Bold* or *Italic* button to change the style of the text. Click the *Left*, *Center* or *Right Alignment* button to change the horizontal alignment of the text. Click the *Top*, *Center* or *Bottom Alignment* button to change the vertical alignment of the text. Click *Apply* to close the dialog and apply your changes to the photo. Click *Apply All* to close the dialog and apply the font changes to all text frames on the page. This will not change the font size in the other frames. Click anywhere outside of the dialog to close it without making any changes.

Adding text in the Text Editing dialog.

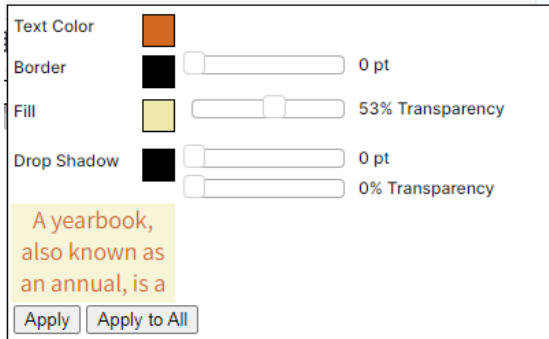

Tip! Not all the available Google fonts contain styles for *Bold* and *Italic*. Therefore, these settings may not work for some of the fonts.

5.10.2 Applying Color and Borders Using the Borders Tool

Click on the *Borders tool* to apply color to the text, and to apply a border and fill to the text frame. The borders dialog will appear. Click on the *Text Color* swatch to change the color of the

text. Click on the *Border* color swatch to change the border color for the text frame. Drag the *Border* slider to adjust the thickness of the border. Click the *Fill* color swatch to change the fill color for the text frame. Drag the slider to the desired transparency for the fill. Click the *Drop Shadow* checkbox to add a drop shadow to the photo. Select from the color picker to choose a color for the drop shadow. Select from the Transparency slider to adjust the transparency of the drop shadow.

The Text Borders dialog.

Click *Apply* to close the dialog and apply your changes to the current text frame. Click *Apply All* to close the dialog and apply your changes to all text frames in the spread. Click anywhere outside of the dialog to close it without making any changes.

5.10.3 Rotating Text Using the Rotate Tool

Click on the *Rotate tool* to rotate the text frame. A dropdown menu will appear with several options for rotating to various angles. Select an option from the menu. Your selection will be automatically applied to the text frame.

5.10.4 Deleting Text or a Text Frame Using the Delete Tool

Click on the *Delete tool*, then choose *Delete Frame* from the dropdown menu to delete the entire text frame. Choose *Clear Text* to only delete the photo and leave the text frame in place.

5.10.5 Advanced Text Editing

Click on the *arrow* icon at the right of the *Text Editing Toolbar* to access the *Advanced Editing* options. A dropdown menu will appear.

Select *Duplicate* from the menu to duplicate the text frame.

Select *Expand* from the menu to slightly expand the width of the text frame. This feature is helpful for fine tuning text placement.

The *Layer* options allow you to move the text frame forward and backward in relation to the other objects on the page. Select from *Bring Forward*, *Bring to Front*, *Send Backward*, and *Send to Back*.

Select *Lock* from the menu to lock the text frame so that it cannot be moved. Select *Unlock* to unlock the frame.

5.11 Selecting and Editing Multiple Frames Together

You can select multiple frames at once, including image frames, text frames, and art objects, and then apply changes to the entire selection. To select multiple frames, hold the Control (CTRL) key on your Windows keyboard, or the CMD (Apple) key on your Mac keyboard, while you click on each frame.

The Multi-select Toolbar with multiple text boxes selected.

When you have more than one frame selected, you will see a dotted line around the selection, and the *Multi-select Toolbar* will appear above the selection. The available tools in the toolbar will vary depending on the number and types of frames you have selected. Move your mouse over any of the tools to see a description of the tool.

The Multi-select Toolbar with multiple image boxes selected.

5.11.1 Adjusting Text for Multiple Text Frames

If you have multiple text boxes selected, you will see the *Edit Text* icon in the toolbar. Click the icon to change the font, size, alignment and linespacing for all the selected text boxes at once.

5.11.2 Adjusting Color and Borders for Selected Text Frames

If you have multiple text boxes selected, you will see the *Text Color and Borders* icon in the toolbar. Click the icon to change the text color, border, fill color, and drop shadow for all the selected text boxes at once.

5.11.3 Adjusting Borders for Selected Image Frames

If you have multiple image frames selected, you will see the *Borders* icon in the toolbar. Click the icon to change the shape, border, and drop shadow for all of the selected image frames at once.

5.11.4 Duplicating Multiple Frames Using the Duplicate Tool

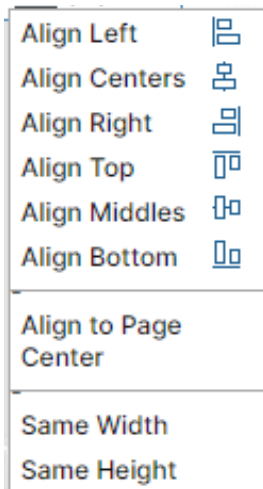

Click the *Duplicate tool* to duplicate the selection of frames.

5.11.5 Aligning Multiple Frames Using the Align Tool

Click the *Align tool* to align the selection of frames. A dropdown menu will appear.

Choose from the available settings to align the selected frames.

Align Left will align the left edges of the selected frames.

Align Centers will vertically align the centers of the selected frames.

Align Right will align the right edges of the selected frames.

Align Top will align the top edges of the selected frames.

Align Middles will horizontally align the centers of the selected frames.

Align Bottom will align the bottom edges of the selected frames.

Align to Page Center will center the selected frames on the page.

Same Width will adjust all the selected frames to be the same width.

Same Height will adjust all the selected frames to be the same height.

5.11.6 Deleting Multiple Frames Using the Delete Tool

Click the *Delete tool* to delete all the selected frames.

5.11.7 Locking Multiple Frames Together Using the Lock Tool

Select the *down arrow* on the toolbar and choose *Lock* from the menu to lock the selected items together. When items are locked together, they cannot be moved independently. Choose *Unlock* from the menu to unlock.

5.12 Adding Page Numbers

Page numbers can be added to your yearbook in the Administration pages of the software, and also on the Configure page if allowed by your Administrator.

Refer to the [Configure](#) section of this guide for more information.

The following settings are available for adjusting your page numbers:

Placement: Top or bottom; inside, centered, or outside

Page number margin, which is the distance from the edge of the page (in inches): 0.25, 0.3125, 0.375, 0.5, 0.625, 0.75

Font: Arial, Comic Sans, Times New Roman, Trebuchet, or Verdana

Font size (points): 9, 10, 11, 12

Page number style: #, -#-, or #/#

Outline: Yes or No

To add page numbers and to gain access to page number functionality, please contact your Adviser or Administrator.

IMPORTANT! Page numbers can be added or modified at any time. However, page numbers can't be added or modified if any sections have a status of *Checked Out*. Be sure that all sections are checked in before asking your Adviser or Administrator to add or adjust page numbers.

Page numbers will appear in a text frame on each page in Advanced Design. Selecting a page number on a specific page will provide a toolbar that allows you to change the color or delete the page number.

5.13 Adding Grad and Biz Ads

If you have the Storefront software enabled, parents and businesses can design Grad and Business Ads online, and then pay for them using a Shopping Cart.

All ads that get ordered will automatically get converted to JPG files, and then transmitted to a new folder on the Manage Photos page called Advertising. You can check the Advertising folder regularly for new Ads. Advisers can also run sales reports for ads on the Adviser Review page. See the Adviser Review section of this user guide for more information.

5.13.1 Creating an Advertising Section

To add your ads to the book, first create a *New Section* on the Manage and Design Book page, just as you would create any other section of the book. Name the new section *Advertising* and

specify the number of pages you think you will need. You can add more pages, or delete some, later if needed. Choose *None* for the background style, so you will have blank pages.

5.13.2 Editing Your Advertising Section

Now that you have created an Advertising section, click *Check out for editing* to open the Advertising section into the Advanced Design page.

On the Advanced Design Page, select the Photos tab. Then click Change Source. Choose the Advertising folder, then click OK.

Your ads will load onto the Photos tab. Hold your mouse over the thumbnail for each ad and you will see whether it is a 1/8-page, 1/4-page, 1/2-page or Full page ad. You will need to know this in order to plan your ad page templates.

Next, click the Templates tab. Select *Grad and Biz Ads* from the *Category* menu. You will see a selection of ad page templates, with various combinations of 1/8-page, 1/4-page, and 1/2-page frames, and a Full page template. Select a template according to your current ad selection, and drag it onto a page.

Next click the Photos tab. Then drag each ad into the appropriate sized frame on the template.

Repeat this process to create all of your ad pages.

5.14 Building an Index

The *Index* feature allows you to create a set of index pages in your book, that lists all students in alphabetical order along with the pages number(s) of the book in which they appear.

Student names and their corresponding page numbers are automatically added to the index for all Portrait photos.

For Candid photos you will manually add names for any photos that you would like referenced in the index. Please see the section [Previewing Photos, and Adding Captions and Index Entries](#) for instructions on how to add names for your candid photos.

5.14.1 Creating an Index Section

Before you can create your index, you will need an *Index Section* in your book. You can create an Index Section on the Yearbook page, just as you would create any other section of the book. Please refer to [Adding New Sections to Your Book](#) for instructions on creating a section. Name the new section *Index* and specify the number of pages you will need.

Note that the formatting of the Index pages, and the number of students, will affect the number of pages needed for the Index Section. You may want to add a few more pages than you think you will need. You can delete any unneeded pages later.

5.14.2 Editing Your Index Section with the Index Wizard

Now that you have setup your Index Section, you can begin editing it. Go to the *Yearbook* page and click *the Edit* icon to edit your Index section. The section will open into Advanced Design.

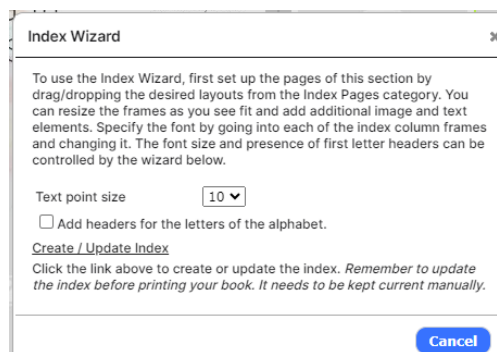

Next, click on the Templates tab, and then select *Index Pages* from the Category menu. Here you will see a variety of templates to choose from for your Index pages. Some of the templates have photo frames that will allow you to add photos to the index pages. Choose the templates you want to use and drag them onto your pages. Note that you can change the templates at any time in the future.

Next, click on the *Index Wizard* button.

The Index Wizard button on the Templates tab.

The Index Wizard dialog will appear.

Create your index using the Index Wizard.

Click on *Create /Update Index*, and all of your student name information will automatically be flowed into the Index.

Click on the *Add headers for letters of the alphabet* checkbox to add a capital letter at the beginning of each letter of the alphabet in the Index. This will provide some additional organization and is helpful for a large index.

When the index has been successfully created you will get a message to confirm that the Index was completed and that all index information fit in the templates provided.

If there was not enough room in your templates to fit the entire index, you will get a message that asks you to either add additional frames or change the point size. In this case you can use the Text point size drop down menu to change the text to a smaller size, and then click *Create / Update Index*. You can also drag a different template with more room for index entries, such as

a 3-column template with no images, onto the page. Or, you can add additional pages to your Index section.

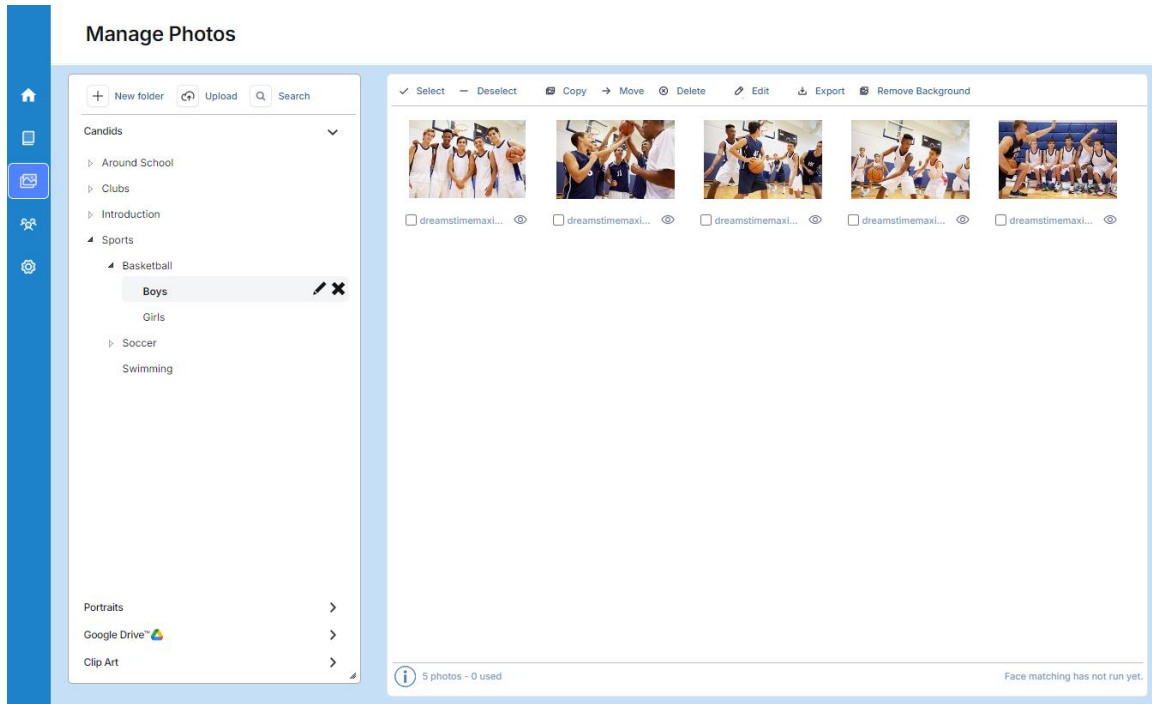

Once you have your Index section template the way you want it, click the *Create/Update Index* at the bottom of the wizard.

Important! Always remember to update your index in the Index Wizard as a final step before submitting your book for proof and approval. This will make sure that the index is up to date with all of the changes in the book.

6 THE PHOTOS PAGE

On the Photos page you can add and organize photos and art for your yearbook.

This page is accessible by users with *Adviser*, *Editor*, *Staff*, or *Photographer* privileges. If you don't see this page, you have not been provided access.

The Manage Photos page contains functionality for organizing and editing your photos and art objects.

6.1 Face-Matching and Auto-Tagging of Photos

Face-Matching saves a lot of time for yearbook staff! This safe technology runs in the background and automatically tags candid photos with student names, based on the portrait photo and name provided, with a very high degree of accuracy.

With *Face-Matching*, you will no longer need to spend time manually identifying and tagging students in photos.

It also allows search of all photos for students by name, and provides detailed coverage reports with detail on student placement in the book.

Here's How Auto-Tagging Works!

Face Matching must be enabled on the Photos page before it will run. Once enabled, the *Face Matching* technology will automatically analyze the face in each portrait for unique facial

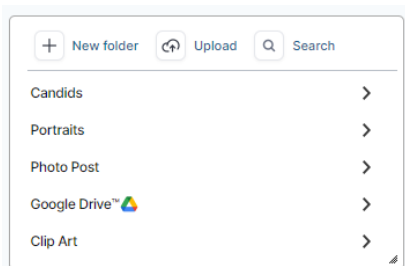

characteristics, which are very much like a fingerprint. It will then associate the data for each face with the name that was already provided for each student.

Next, the software will analyze all candid photos using this database and add the name to each recognized face. In multiple places in the software, it will display the name for each matched face that's located in each candid photo, along with the opportunity to review and edit.

Complete, automatic, accurate tagging of all candid photos with visible student faces will save you lots of time, allow for better captions, accurate indexing, more equity among students in the yearbook, and more!

Organization of the Manage Photos Page

Main features on the *Photos* page are organized on the left in collapsible tabs. Images are organized into folders on each tab.

Tabs on the Manage Photos Page.

Clicking a tab will make it active. Clicking a folder on a tab will display thumbnails of the images in that folder in a contact sheet, on the right half of the page.

Features for managing the images are located in a toolbar along the top of the contact sheet.

The *Candid*, *Portraits* and *Art* tabs contain the three main types of images that can be managed on this page. If configured, you may also see tabs for *Photo Post* and *Google Drive*. These tabs provide additional sources for obtaining photos for your yearbook.

A checkmark icon on a photo thumbnail indicates that the photo has already been used in the book. A plus icon indicates that the photo has been used more than once in the book.

Green or Yellow icons indicate auto-tagging status.

Note that the available features may be different based on the selected tab and your user permissions.

6.2 Working with Candid Photos on the Candid Tab

The *Candid* tab contains all non-portrait photos to be used in your yearbook. These can include candid photos, sports and club photos, etc.

Candid photos are organized into folders and subfolders. For each section that you created on the *Yearbook* page, a corresponding folder was automatically added on the *Candid* tab. You can add photos for each specific section to these folders, and you can also add your own folders and subfolders.

6.2.1 Adding Photos for Use in Your Yearbook

In order to make photos available for use in your yearbook you will need to upload them into the software. Candid photos should be RGB JPG or PNG files.

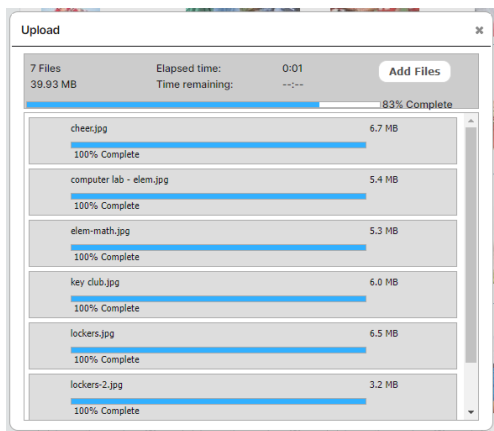

To upload photos from your PC or other device, select the folder you want to upload your photos into, then click the *Upload* button at the top of the tab.

Click *Upload* to upload photos to the software.

Next click *Add Files*, and locate the photos that you want to upload. Select the specific photos you want to upload, then click *Open* to start the upload process.

Progress indicators will provide status during the upload process, and you will be notified when it is complete.

Uploading photos to use in your yearbook.

6.2.2 Managing Your Candid Photos

Adding a New Folder

Click the *New Folder* button to add a new folder for organizing your photos. Enter a name for the folder when prompted, then click *OK*.

The New Folder button.

Renaming or Deleting a Folder

Click the *Rename folder* icon next to a folder to rename the folder. Enter a new name for the folder when prompted, then click *OK*.

Click the *Delete folder* icon next to a folder to delete the folder.

The Rename and Delete icons.

Managing and Previewing Auto-Tagged Candid

A Green Auto Tagging icon on any candid thumbnail indicates that faces have been identified in this photo, and names have been added (tagged). You can mouse over the icon to see the names.

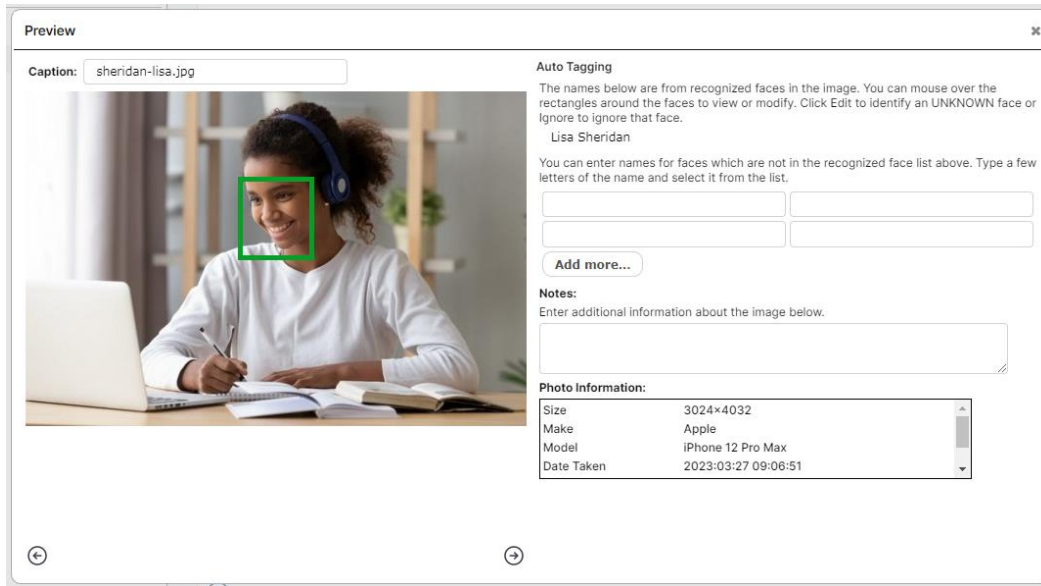

A Yellow Auto Tagging icon on any candid thumbnail indicates that there are faces in this photo that have not been identified.

The Auto-Tagging and Preview/Info icons shown on a Candid thumbnail.

To *Preview* a photo in a larger window, manage *Auto-tagging*, manually tag names, and add *Notes*, click the *Preview/Info* icon, at the lower right of any photo thumbnail.

The *Preview/Info* dialog will appear.

The Preview/Info dialog for a Candid photo.

Click the *Left and Right arrows* to scroll through all of the Photos in the current folder.

To change the name of a photo, type the new name into the *Caption* field.

The *Auto Tagging* section displays the names for all recognized faces in the image, along with a corresponding rectangle over each face.

Mouse over the rectangle to see the portrait that was used to determine the name of the person in this photo. Click *Edit* to change the name. Click *Ignore* to ignore the selected portrait.

A *Green* rectangle indicates high certainty that the name is accurate, based on the data provided.

A *Yellow* rectangle indicates low or medium certainty, or an unsuccessful match. Click *Edit* to correct the name.

A *Blue* rectangle means that the name was added manually or corrected manually.

You can also manually add names for people who are in the photo, but not recognized by the software. Type these names into the space provided. Type a separate name into each field for each person. Click *Add more...* to add more space for additional names.

All tagged names will be referenced in the Index with the appropriate page number for the photo. Tagging also allows for students to be searched for by name, throughout the book.

Enter any additional information about the photo in the *Notes* field. This will be helpful for developing captions for the photos in your book.

6.2.3 Searching for Candid Photos

Click the Search button to search for photos containing a specific person. Type the first few letters of the first or last name of the person you are searching for, then select the name from the list that appears, and click Search.

Candid photos are searched based on the Index information in your photos. For more information about adding information to your photos, see the section *Previewing Photos, and Adding Captions and Index Entries*.

The Search button.

6.2.4 Photo Organization Using the Toolbar

You can select a photo by clicking it, or by clicking the checkbox below it. A checkmark will appear to indicate that the photo has been selected. Deselect a photo by clicking it, or the checkbox, again. You can also select multiple photos at a time.

Use the features on the *toolbar* to organize the photos in a folder.

The main Photo toolbar on the Candid tab.

Click *Select* and then choose from the menu to *Select All*, *Select Used* or *Select Unused* photos in the current folder.

Click *Select All* to select all photos in the currently active folder.

Click *Select Used* to select only the photos in the current folder that have been used in the book. These photos display a checkmark icon.

Click *Select Unused* to select only the photos in the current folder that have not been used in the book.

Click *Deselect* to deselect all photos in the current folder.

Click *Copy* to copy the currently selected photos to another folder. The *Copy selected photos* dialog will appear. Select a destination folder for the photos, then click *OK*.

Click *Move* to move the currently selected photos to another folder. The *Move selected photos* dialog will appear. Select a destination folder for the photos, then click *OK*.

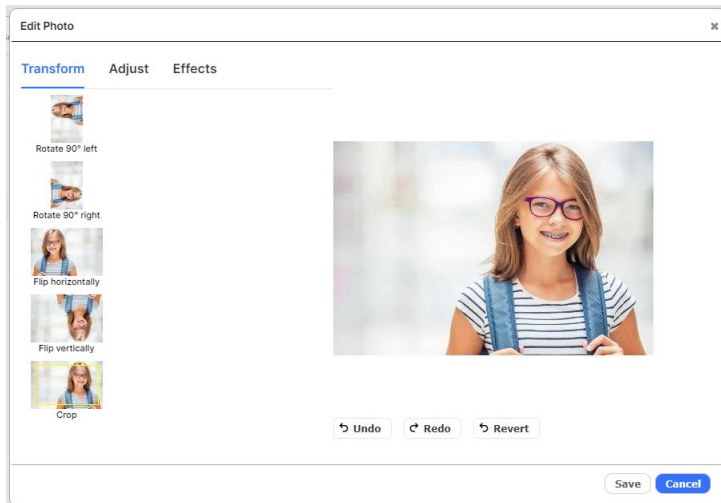

Click *Delete* to delete the currently selected photos.

Click *Edit* to edit a photo. You can only have one photo selected to use the editing feature.

Click *Export* to export the selected photos to your local disk for archival purposes. Photos will be added to a zip file. Click where instructed to download the file.

6.2.5 Editing Your Photos

You can make corrections to a photo and add fun and creative filters and effects. To edit a photo, select it, and then click *Edit*. The photo will be opened into the *Photo Editor*.

Use features on the Edit Photo dialog to edit your photos and add creative effects.

On this page you can easily apply corrections or creative effects to your photos. Thumbnails for the effects show the current photo with the effect applied.

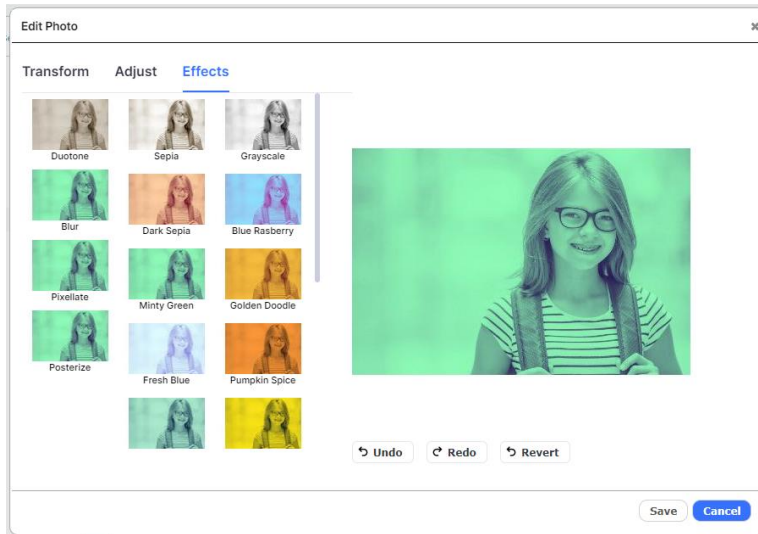

Simply click to Apply an effect. Click *Undo* to reverse the effect, and *Redo* to reapply the last effect. Click *Revert* to revert to the original image. Click *Save* to save a copy of the image with the current changes.

There are three main categories of functionality:

On the *Transform* tab, you can Rotate, Flip and Crop your photo.

On the *Adjust* tab, you can apply basic image corrections including Brightness and Contrast, Auto-fix and Sharpen.

On the *Effects* tab you can apply Duotone effects, plus Blur, Pixellate and Posterize.

The Edit Photo dialog showing Duotone Effects.

6.3 Working with Portraits on the Portraits Tab

The *Portraits* tab contains your school portraits. These may already be uploaded onto the site by your portrait studio or YearbookLife or provided to you for uploading to the site. If you are unsure, please check with your yearbook administrator.

6.3.1 Adding Portraits for Use in Your Yearbook

You will need your portraits available on a CD that conforms to the PSPA standard. To get started, place the PSPA CD in your disc drive, or copy the contents of the CD to your hard drive.

Click the *Portraits* tab on the Photos page. Then, click the *Portrait Import* button at the top of the Portraits tab.

The Portrait Import button at the top of the Portraits Tab.

The Portrait Import dialog will launch.

The Portrait Import dialog, Step 1.

Step 1: Select Index File

The first step to uploading portraits is to upload your *PSPA Index file*, which contains an index of all of the files on the CD. The file may be named *index.txt* or something similar.

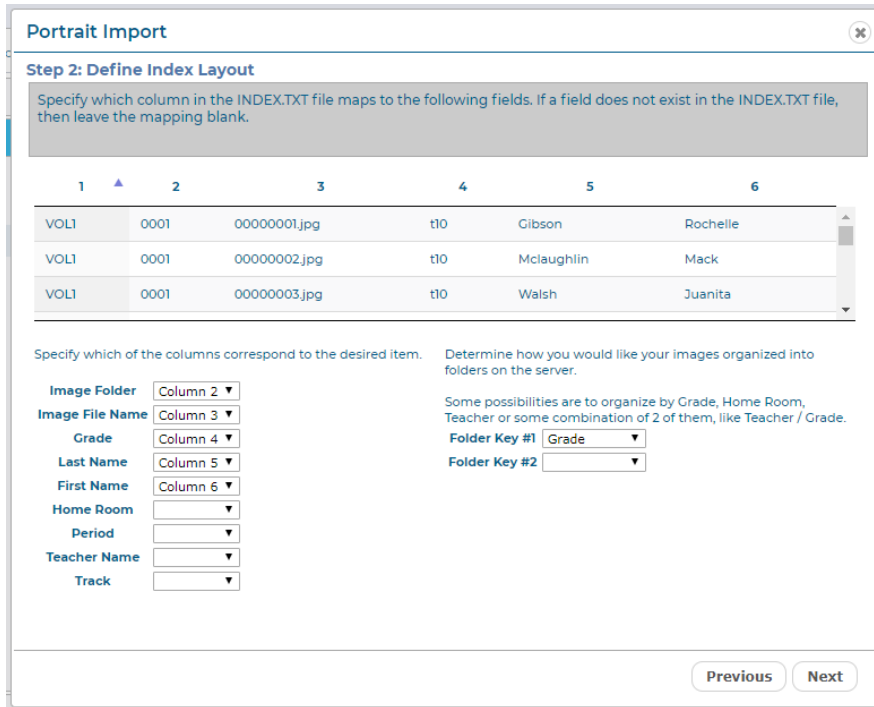

Click *Browse*, locate the folder that contains the index file, and then click *OK*.

Or, you can drag and drop the file directly from your hard disk onto the target in the uploader.

Click *Next*.

Step 2: Define Index Layout

The contents of the index file will be displayed in the Portrait Import dialog.

The Portrait Import dialog, Step 2, organizing contents of the index file.

The contents of the index file will be organized into columns. Use the dropdown menus to specify the columns that correspond to the contents of the index.

Using the example above as a reference, you can see that Column 2 lists the name of the Image Folder, Column 3 lists the Image File Name, Column 4 lists the Grade, Column 5 lists the Last Name, and Column 6 lists the First Name.

Use the *Folder Key* menus to specify how you would like your portraits organized in the software. For example, if you choose *Grade*, your portraits will be placed in folders according to the grade of the students. If you choose *Teacher*, the portraits will be placed in folders according to teacher.

You can choose more than one Folder Key based on the information available in the index file. For example, if you choose *Teacher* for Folder Key #1, and then *Grade* for Folder Key #2, portraits will be organized in folders labelled *Grade/Teacher*.

Once you have made your selection, click *Next*.

Step 3: Add Portrait Files

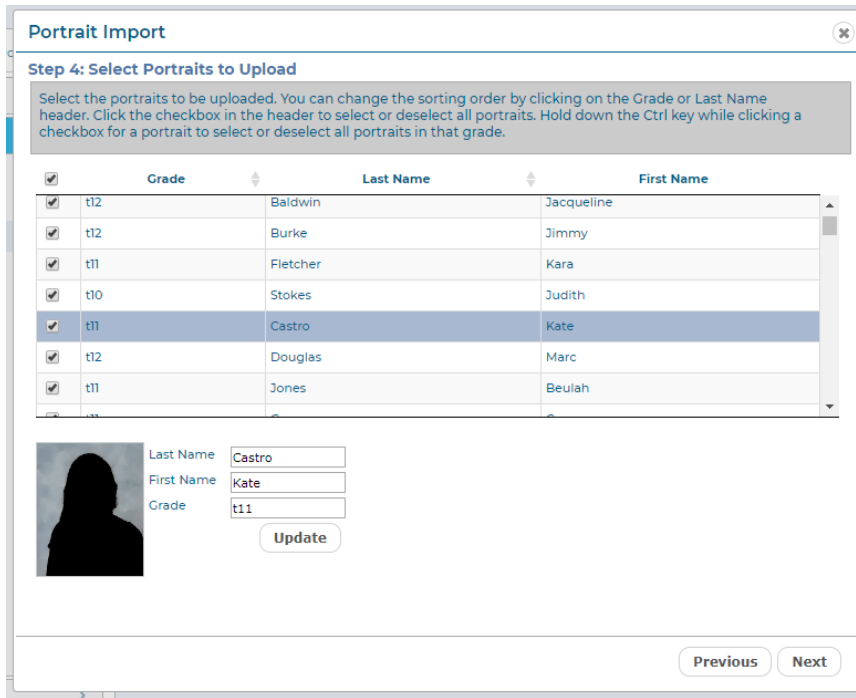

If the software could not find them, you may be prompted to locate and add your portrait files. Click *Browse*, locate the portrait files on the CD or your hard disk, select them, and then click *OK*.

Or, you can drag and drop the files directly onto the target in the uploader.

Click *Next*.

Step 4: Select Portraits to Upload

The list of portraits will be displayed in the Portrait Import dialog.

The Portrait Import dialog, Step 4, selecting portraits to upload.

Your portrait photos will be listed according to the columns you specified on the previous screen.

You can edit any mistakes by clicking on the specific portrait, and making changes in the *Last Name*, *First Name*, and *Grade* fields at the bottom of the screen. Click *Update* after making any changes.

Click the *Grade* heading at the top of the column to sort the portraits by grade. Click the *Last Name* heading at the top of the column to sort the portraits by grade.

Next, select the portraits you would like to upload. To select all portraits, click the checkbox at the top of the first column. Click the checkbox again to deselect all of the portraits.

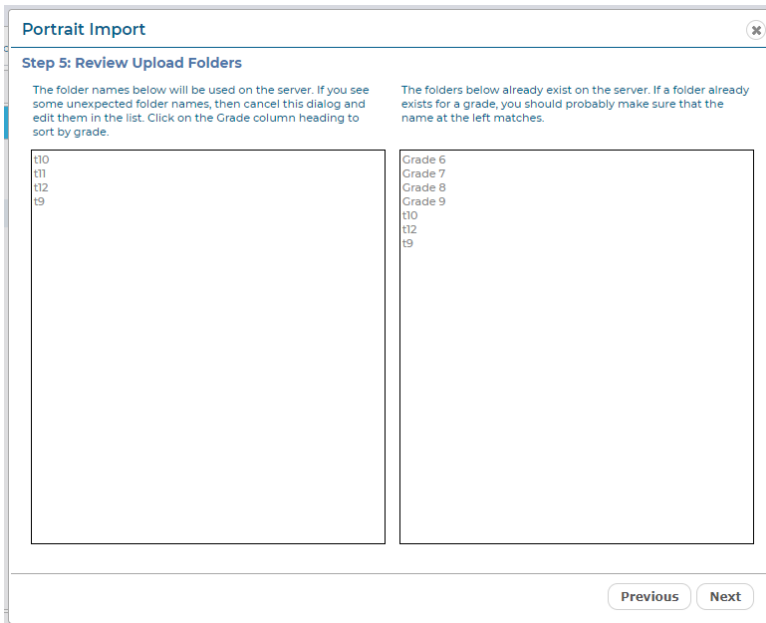

To select individual portraits, click the checkbox next to each portrait that you would like to upload.

To select an entire Grade, hold the Control Key on your keyboard, then click the checkbox next to a portrait for the grade you want to select. All portraits for that grade will be selected.

Click *Next*.

Step 5: Review Upload Folders

You will be prompted to review and confirm the portrait folders as a final step.

The Portrait Import dialog, Step 5, reviewing the portrait folders.

The folder names to the right represent portrait folders that already exist in the software from any previous portrait upload sessions. The folder names on the left represent new folders that will be created for this upload.

Review the information to confirm that it is correct.

Click *Next*. The upload process will begin.

The Portrait Import dialog, Step 6, uploading the portraits.

You will see a progress bar while the portraits are being uploaded. Once the upload is complete, the Portrait Import dialog will close and you will be returned to the Portraits tab on the Manage Photos page. You should see your new portraits organized in folders in the Portrait Folders section of the Portraits tab.

Tip! If you have uploaded a large number of portraits, it may take a few minutes for them to appear after the Portrait Import dialog has closed. If they still do not display after a few minutes, try refreshing your browser.

6.3.2 Managing Your Portraits

Adding a New Folder

Click the *New Folder* button to add a new folder for organizing your portraits. Enter a name for the folder when prompted, then click *OK*.

The New Folder button.

Renaming or Deleting a Folder

Click the *Rename folder* icon next to a folder to rename the folder. Enter a new name for the folder when prompted, then click *OK*.

Click the *Delete folder* icon next to a folder to delete the folder.

The Rename and Delete icons.

6.3.3 Searching for Portrait Photos

The Search button.

Click the Search button to search for portrait photos containing a specific person. Type the first few letters of the first or last name of the person you are searching for, then select the name from the list that appears, and then click Search. Portrait photos are searched based on the Index information in your photos.

6.3.4 Printing your Portraits for Proofreading.

Click the *Print* button to print your portraits for proofreading. The *Print Portraits* dialog will appear. Select the folders you would like to print, then click *OK*. A PDF will be generated, which you can print to your local printer.

The Print button.

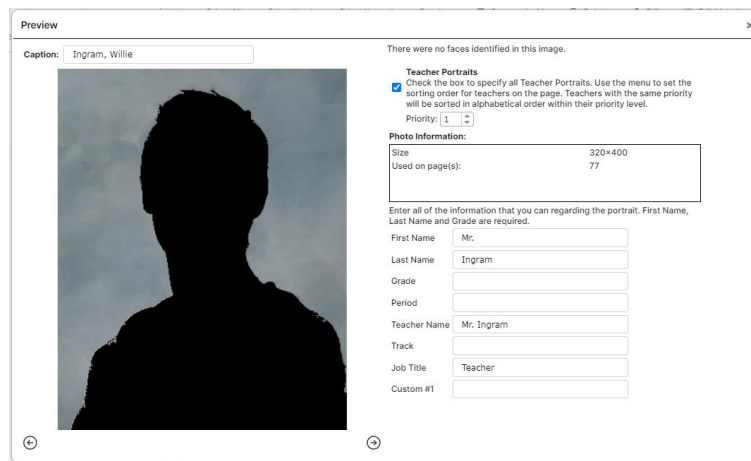

6.3.5 Changing Portrait Information and Prioritizing Teachers

To *Preview* a portrait in a larger window, change the Name, Grade and other info, view Portrait Info, and specify Teacher Portraits and Priorities, click the *Preview/Info* icon, at the top right of any photo thumbnail.

The *Preview/Info* icon shown on a Candid thumbnail.

The *Preview/Info* dialog will appear.

The *Preview/Info* dialog for a Portrait photo.

Click the *Left and Right arrows* to scroll through all of the Portraits in the current folder.

To change the Caption for a portrait, type the new name into the *Caption* field.

To change or add the Last Name, First Name, Grade, Home Room, Teacher Name, Title, or Job Title for the portrait, type it into the appropriate field.

If your teachers are in the same folder as the student portraits you can make them appear in the first position(s) on the class portrait page, or automatically flow into a larger teacher frame. Check the *Teacher Portraits checkbox* to specify all teachers in the folder. All portraits with the Teacher Portrait checkbox checked will flow into the first positions on the portrait page, regardless of alphabetical order.

If you have selected more than one portrait as a teacher, you can adjust the order in which they appear by selecting a number from the *Priority* menu. The Priority for each teacher will appear on the thumbnail in the contact sheet.

If you select the same Priority for more than one Teacher Portrait, the portraits will appear on the portrait page in alphabetical order, within that priority level.

Portrait Organization Using the Toolbar

You can select a portrait by clicking it, or by clicking the checkbox below it. A checkmark will appear to indicate that the portrait has been selected. Deselect a portrait by clicking it, or the checkbox, again. You can also select multiple portraits at a time.

The toolbar on the Portraits tab.

Use the features on the *toolbar* to organize the portraits in a folder.

Click *Select All* to select all of the portraits in the current folder.

Click *Select Used* to select only the portraits in the current folder that have been used in the book. These portraits display a checkmark icon.

Click *Select Unused* to select only the portraits in the current folder that have not been used in the book.

Click *Deselect* to deselect all portraits in the current folder.

Click *Copy* to copy the currently selected portraits to another folder. The *Copy selected photos* dialog will appear. Select a destination folder for the portraits, then click *OK*.

Click *Move* to move the currently selected portraits to another folder. The *Move selected photos* dialog will appear. Select a destination folder for the portraits, then click *OK*.

Click *Delete* to delete the currently selected portraits.

Click *Edit* to edit a portrait. You can only have one portrait selected to use the editing feature.

Click *Edit Metadata* to correct or add any information from the Index file. This feature allows you to make changes to the portrait data after the portraits have been uploaded.

Click *Export* to export the selected portraits to your local disk for archival purposes. Portraits will be added to a zip file. Click where instructed to download the file.

Automatic Updates

When you make changes to your portraits, the layout of existing portrait pages will update automatically if needed. Some changes that may cause your existing portrait pages to update automatically include:

- Changing or correcting the first or last name associated with a portrait

- Adding a portrait or portraits to a class folder
- Removing a portrait or portraits from a class folder
- Moving a portrait or portraits from one class to another
- Depending on your layouts, and the specific changes you made, your pages could be significantly altered. An alert may appear under the Help menu, on the Photos page, or on the Advanced Design Page, suggesting that you review your portrait pages after any changes have been made.

IMPORTANT! If you make any changes to your portraits that may affect the layout of existing portrait pages, it is very important that you review the pages in Advanced Design. You can then make sure that everything looks the way you want and make adjustments as necessary.

6.4 Using Photo Post to Collect Photos

Photo Post is a feature that allows you to obtain candid photos and portraits, through a secure web page, from your school community of students, parents, teachers and supporters. You will be able to review submitted photos and select any that you would like for inclusion in the yearbook.

Photos can be submitted via PhotoPost from any supported browser on any supported device, including Windows, Mac, Apple iOS, Chrome OS and Android OS.

Tip: Photo Post is a great way to obtain additional candid and portrait photos for your yearbook from students, families and other supporters!

Photo Post must be enabled in order to be used. If you do not see a Photo Post tab on your Photos page and would like to use it, contact your Administrator or YearbookLife.

6.4.1 Inviting Someone to Submit Photos

To invite someone to use Photo Post, click on the Photo Post tab, then click *New folder* to add a new folder for your photos. Enter a name for the folder when prompted, then click *OK*.

Next, click the *Invite* button in the toolbar to invite someone to submit photos to your folder.

The Invite dialog will appear.

The Photo Post Invite dialog.

Type your email address, the email address for the recipient, a subject, message, and signature into the appropriate text fields. Then click the *Invite* button. The email will be sent to the recipient, along with a link to a secure page where they can click *Upload* to upload their photos, along with information about each photo.

Tip! Photo Post users will not be able to see other user's photo submissions, or any yearbook photos, or access the yearbook software.

6.4.2 Other Ways to Use PhotoPost

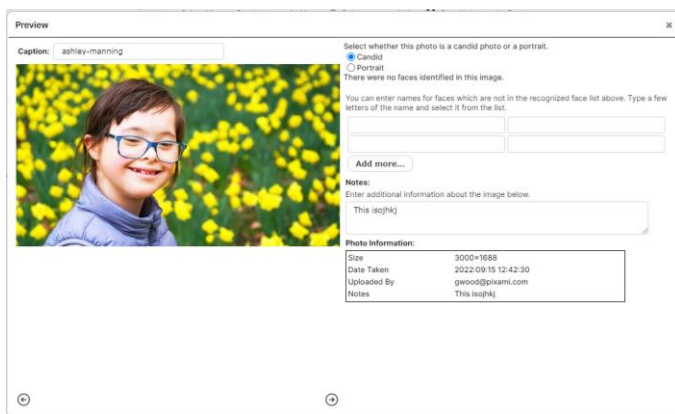

You can also e-mail the PhotoPost link directly to users from your e-mail account, from an email marketing application such as Constant Contact, or post it to your school's website. Anyone with the link will be able to upload photos to the site.

To obtain the link for your site, click the *Invite* button, and add your own e-mail in the *To* field. Then click *OK* to send the email. You will receive an email with a link that you can use to direct users to PhotoPost.

6.4.3 Choosing Photos for Your Yearbook

Once photos have been submitted using Photo Post, they will appear in their respective folders on the Photo Post tab.

To preview and scroll through your submitted photos in a larger window, click the *Preview/Info* icon, at the top right of the photo thumbnail. The Preview dialog will open.

The Preview dialog on the Photo Post tab.

Click the *Left and Right arrows* to scroll through all of the photos in the current folder.

In order to use submitted photos in the yearbook, you will need to move them to a Candids or Portraits folder. You can select a photo by clicking it, or by clicking the checkbox below it. A

checkmark will appear to indicate that the photo has been selected. Deselect a photo by clicking it, or the checkbox, again. You can also select multiple photos at a time.

Next, use the features on the *toolbar* to move or organize the photos.

Click *Select All* to select all of the photos in the current folder.

Click *Deselect* to deselect all photos in the current folder.

Click *Move* to move the currently selected photos to a folder on the Candids or Portraits tab. The *Move selected photos* dialog will appear. Select the appropriate folder for the photos, then click *OK*. Your submitted photos have now been moved and are ready to be used in your yearbook!

After you've moved the photos that you'd like to use in your yearbook, it's recommended that you delete any submitted photos that you do not plan to use. Click *Delete* to delete the currently selected photos.

Click the *Delete folder* icon to delete the folder.

6.5 Importing Photos from Google Drive

You can import photos directly from Google Drive for your yearbook.

To get started. Click the Google Drive tab. A Google dialog will appear asking you to Sign In to your Google Account. Select the account you would like to use. You will now be logged into Google Drive.

Your Google Drive folders will appear on the Google Drive tab. Select a folder to view its contents. Note that only RGB JPG files will be uploaded to the software.

Tip: If your Google Drive photos do not appear, try refreshing your browser.

Nobody will be able to see your photos on the Google Photos tab unless they are logged into your account.

In order to use the Google Drive photos in the yearbook, you will need to copy them to a Candids folder. Select a photo by clicking it, or by clicking the checkbox below it. A checkmark will appear to indicate that the photo has been selected. Deselect a photo by clicking it, or the checkbox, again. You can also select multiple photos at a time.

Next, use the Copy feature on the *toolbar* to copy the photos to a Candids folder.

Click *Select All* to select all of the photos in the current folder.

Click *Deselect* to deselect all photos in the current folder.

Click *Copy* to copy the currently selected photos to a folder on the *Candid* tab. The *Copy selected photos* dialog will appear. Select the appropriate folder for the photos, then click *OK*. Your Google Drive photos have now been copied and are ready to be used in your yearbook!

6.6 Working with Art on the Art Tab

The software contains a standard set of *art objects* for use in designing your pages. In addition, you can add your own art objects. To use this feature, click on the *Art* tab.

Tip! If you would like to create and add your own art, it should be saved as a .PNG file, with enough resolution to provide good print quality. We recommend an approximate size of 1200 x 1200 pixels, which will allow you to scale the art up to 4 inches square while maintaining good 300 dpi print quality. For irregularly shaped art, the background should be transparent.

6.6.1 Adding a New Folder

When you are ready to upload your own art, click the *New folder* to add a new folder for organizing your art in the software. Enter a name for the folder when prompted, and then click *OK*.

6.6.2 Renaming or Deleting a Folder

Click the *Rename folder* icon next to a folder to rename the folder. Enter a new name for the folder when prompted, then click *OK*.

Click the *Delete folder* icon next to a folder to delete the folder.

6.6.3 Uploading Your Own Art

To upload your Art from your PC, select the folder you want to upload your art into, then click the *Upload* button at the top of the tab.

Next click *Add Files*, and locate the Art files that you want to upload. Select the specific files, then click *Open* to start the upload process.

Progress indicators will provide status during the upload process, and you will be notified when it is complete.

To *Preview Art* in a larger window and change the *Caption*, click the *Preview/Info* icon, at the top right of any photo thumbnail. The *Preview/Info* dialog will appear.

The Preview/Info dialog for Art .

To change the name of the Art , type the new name into the *Caption* field.

Click the *Left and Right arrows* to scroll through all of the Art in the current folder.

6.6.4 Art Organization Using the Toolbar

You can use the additional features to manage your own custom Art , but you cannot make modifications to the standard set of Art . If you try to make any changes that are not allowed you will see an alert message.

You can select a photo by clicking it, or by clicking the checkbox below it. A checkmark will appear to indicate that the photo has been selected. Deselect a photo by clicking it, or the checkbox, again. You can also select multiple photos at a time.

Use the features on the *toolbar* to organize the Art in a folder.

Click *Select All* to select all of the Art in the current folder.

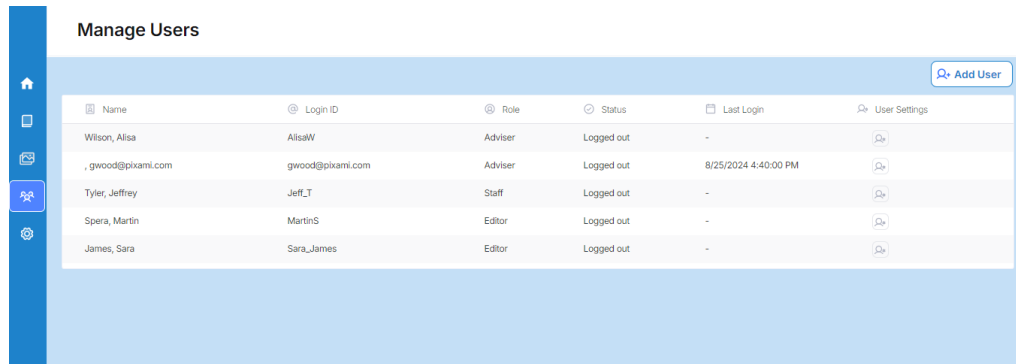

Click *Deselect* to deselect all Art in the current folder.

Click *Copy* to copy the currently selected photos to another folder. The *Copy selected photos* dialog will appear. Select a destination folder for the Art , then click *OK*.

Click *Delete* to delete the currently selected Art .

7 THE USERS PAGE

In order to login and work on the yearbook, a user must first be added to the site. On the Users page you can add new users, and assign them roles based on their individual responsibilities.

This page is accessible only by users with *Adviser* privileges. If you don't see this page, you have not been provided access.

7.1 Understanding User Roles

Each user of the software will be assigned a *Role*, which will determine how much access the user has to the software, and to the yearbook. User Roles will be assigned when a User is created, and can be changed at any time.

Below is a description of each User Role.

Viewer: Users with the *Viewer* role can only view the yearbook using the Preview feature. They will have no ability to edit or otherwise modify the book. This role should be applied to anyone who would like to view progress of the book, but is not an active participant.

Photographer: Users with the *Photographer* role can upload and manage all photos and art on the Photos page. This role should be applied to those responsible for taking and/or organizing photos for the sections of the yearbook.

Staff: Users with the *Staff* role can perform all of the above, plus edit the yearbook for the sections which they were assigned, on the Yearbook page. This role should be applied to those responsible for creating and designing individual sections of the yearbook, such as designers and copywriters.

Editor: Users with the *Editor* role can perform all of the above, plus create sections, organize the yearbook, and edit any section on the Yearbook page. This role should be applied to those responsible for organizing the yearbook.

Adviser: The *Adviser* role provides full access to the software. Users with this role can perform all of the above, plus modify user accounts and access levels on the Users page, and review then

approve or reject sections, and submit the final yearbook for printing on the Yearbook page. An administrator or teacher would typically be assigned to this role.

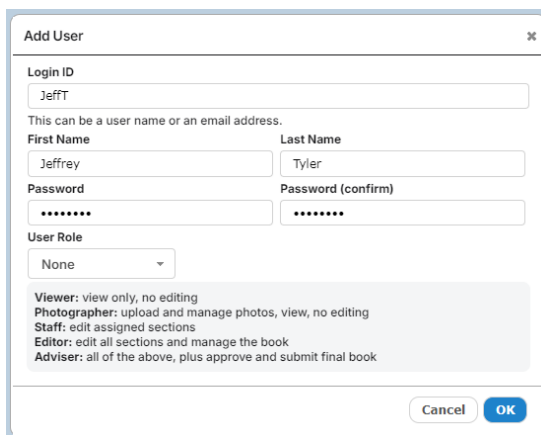

7.2 Adding Users

To add a new user, and assign them a Role, click the *Add User* button.

The Add User button on the Users page.

The *Add User* dialog will appear.

A dialog box titled "Add User" with a close button (x) in the top right corner. It contains several input fields: "Login ID" with the value "JeffT", "First Name" with "Jeffrey", and "Last Name" with "Tyler". Below these are "Password" and "Password (confirm)" fields, both containing six asterisks. A "User Role" dropdown menu is set to "None". A legend at the bottom lists roles: Viewer (view only, no editing), Photographer (upload and manage photos, view, no editing), Staff (edit assigned sections), Editor (edit all sections and manage the book), and Adviser (all of the above, plus approve and submit final book). At the bottom right are "Cancel" and "OK" buttons.

The Add User dialog.

Enter a Login ID for the user. Next, enter the users First Name, Last Name, and a password. This can be an e-mail address, but it does not need to be.

Tip: The Login ID can be an e-mail address, but it does not need to be. If an e-mail address is used, the user may receive communication from the software regarding major activities and status changes in the book. This is particularly helpful for Advisers.

Select a *Role* for the user from the *User Role* menu.

If the *Staff* Role is selected, check the box next to a section to assign it to the user. This will allow the user to check the section out for editing. Multiple users can be assigned to the same section. You can also add or change user assignments any time.

Click *OK* when finished. The user has now been added, and can log in any time.

7.3 Updating Users with User Settings

Click the User Settings icon next to a user to change the user's Role, update their Name and Password, view their activity on the site, or Delete them. The Update User dialog will appear.

The screenshot shows the 'Update User' dialog box. It features a title bar with the text 'Update User' and a close button. The main content area is divided into several sections. At the top, there are input fields for 'First Name' (containing 'Lisa') and 'Last Name' (containing 'Mullen'). Below these are fields for 'Password' and 'Password (confirm)'. Further down, there are fields for 'Login ID' (containing 'LisaM') and 'Last Login' (containing '-'). Below these are fields for 'Number of Logins' (containing '-') and 'Saved Sections' (containing '-'). A 'User Role' dropdown menu is set to 'Adviser'. Below the dropdown is a text box containing the following roles and their descriptions: 'Viewer: view only, no editing', 'Photographer: upload and manage photos, view, no editing', 'Staff: edit assigned sections', 'Editor: edit all sections and manage the book', and 'Adviser: all of the above, plus approve and submit final book'. Below the text box are two columns of checkboxes for sections: 'SaddleStitch', 'Introduction', 'Portraits Intro', 'Sports Intro', 'Clubs Intro', 'Clubs', 'Portraits', and 'Sports'. At the bottom of the dialog, there is a table with columns 'Section', 'When', and 'Event', which is currently empty. 'Cancel' and 'OK' buttons are located at the bottom right of the dialog.

The Update User dialog.

To change the user's *First Name*, *Last Name*, or *Password*, type the new information into the appropriate field.

To change the user's *Role*, select a new *Role* for the user from the *User Role* menu.

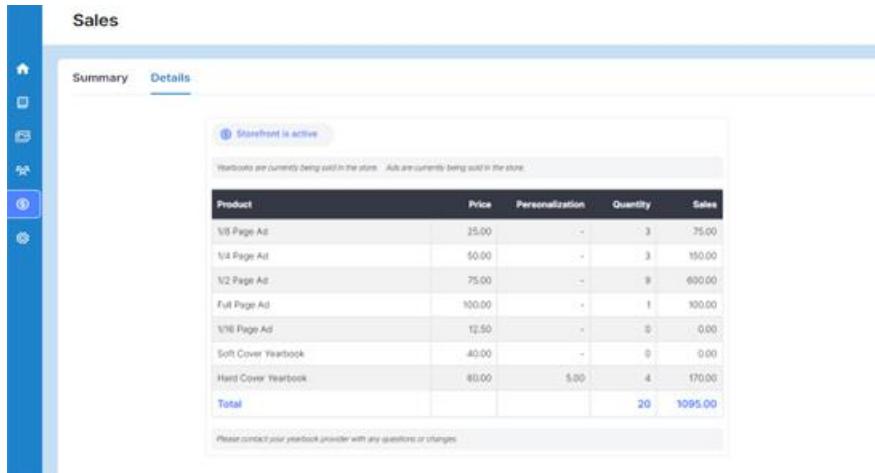

If the *Staff* Role is selected, you can change the sections that are assigned to user by checking or unchecking the box next to any section.

You can view a summary of the user's activity under *Last Login*, *Number of Logins*, and *Saved Sections*. In addition, the *Activity Log* at the bottom of the dialog provides a complete history of the user's Activity.

8 THE SALES PAGE

The *Sales* page provides a real-time sales report for any items that are being sold in the *E-Commerce Storefront* for your school. This includes Yearbooks, Ads, Personalized Yearbook pages and Supplements, and any other fundraising products. Please contact to YearbookLife regarding the availability of products for sale in the Storefront.

The Sales Page is only accessible by users with *Adviser* privileges. If you don't see this page, you have not been provided access.

The screenshot shows the 'Sales' page interface. At the top, there's a 'Sales' header and a navigation bar with 'Summary' and 'Details' tabs. Below the tabs, a status indicator says 'Storefront is active'. A message states 'Yearbooks are currently being sold in the store. Ads are currently being sold in the store.' Below this is a table with columns: Product, Price, Personalization, Quantity, and Sales. The table lists various products like 1/8 Page Ad, 1/4 Page Ad, 1/2 Page Ad, Full Page Ad, 1/8 Page Ad, Soft Cover Yearbook, and Hard Cover Yearbook, along with their respective prices, quantities, and sales amounts. A 'Total' row at the bottom shows a quantity of 20 and sales of 1095.00. A note at the bottom of the table area says 'Please contact your yearbook provider with any questions or changes.'

Product	Price	Personalization	Quantity	Sales
1/8 Page Ad	25.00	-	3	75.00
1/4 Page Ad	50.00	-	3	150.00
1/2 Page Ad	75.00	-	8	600.00
Full Page Ad	100.00	-	1	100.00
1/8 Page Ad	12.50	-	0	0.00
Soft Cover Yearbook	40.00	-	0	0.00
Hard Cover Yearbook	40.00	5.00	4	170.00
Total			20	1095.00

The Sales Page provides detailed reporting for online and offline sales.

8.1 Viewing a Summary Sales Report

When you access the Sales page, you will see the current status of the Storefront at the top of the page. Click the *storefront* link to view your active store in a new browser tab.

Below the status. If your storefront is enabled you will see a summary report of recent sales, organized by product, with product, pricing and quantity information, and total sales to date.

Contact YearbookLife to make any changes such as enabling or disabling your storefront, and changing products or pricing information.

8.2 Viewing a Detailed Sales Report

Click on *Details* to view a detailed Sales Report.

Choose a *Start Date* and *End Date*, and then click the *Refresh* button, to view a basic sales report for a specific time period. Items in the report are organized by product category. Click on the *Plus* icon to see more detail for each product.

8.3 Viewing a Detailed Sales Report

Click the *Order Report* button to view a complete, Detailed Sales Report for yearbooks and other products.

The Order Report button on the Sales tab.

The *Order Detail* dialog will open, displaying the report.

The screenshot shows a dialog box with two tabs: "Summary" and "Details". The "Details" tab is active. At the top, there are input fields for "Start Date" (10/12/2016) and "End Date" (10/03/2023), a "Refresh" button, and two buttons: "Order Report" and "+ Add Offline Orders". Below this is a table with columns for "Product", "Quantity", and "Retail Sales". The table contains the following data:

	Product	Quantity	Retail Sales
+	1/2 Page Ad	9	600.00
+	1/4 Page Ad	3	150.00
-	1/8 Page Ad	3	75.00
	Personal	3	75.00
+	Burlap 18x18	3	119.85
+	Full Page Ad	1	100.00
+	Hard Cover Yearbook	4	170.00

The Order Detail dialog showing Yearbook orders.

Click *Text View* to view a version that you can copy and paste into a spreadsheet.

Click the *Yearbooks* tab to view yearbook sales.

Click the *Products* tab to view sales of all non-ducts.

Click *Column Visibility* to adjust the information available in the report. Select the items that you want to appear.

Click *Print* to print the report to a local printer.

Click *PDF* to generate a PDF of the report.

Click *Excel* to generate an Excel spreadsheet of the report.

8.3.1 Entering Offline Orders

You can also enter non-E-Commerce (paper check or credit card) yearbook orders into the system, allowing you to generate a single report for both online and offline orders.

Click the *Add Offline Orders* button.

The Add Offline Orders button on the Sales page.

The Add Offline Order dialog will appear.

Add Offline Order

If there is more than 1 student in a single order, please break up the order into multiple orders.

Purchaser (First Name) Purchaser (Last Name)

Number of Books Amount

Check Number Type of Book

Student First Name Student Last Name

Home Room

Cancel OK

The Add Offline Order dialog on the Sales page.

Enter the appropriate information in the text fields, and then click *OK* to enter the order in the system. Offline orders will appear in the Detailed Sales Report.

9 THE CONFIGURE PAGE

The *Configure* page allows an adviser to control which content is available on the site, and to view and reset page numbers.

The Configure page is only accessible by users with *Adviser* privileges. If you don't see this page, you have not been provided access.

9.1 Managing Content on the Configure Page

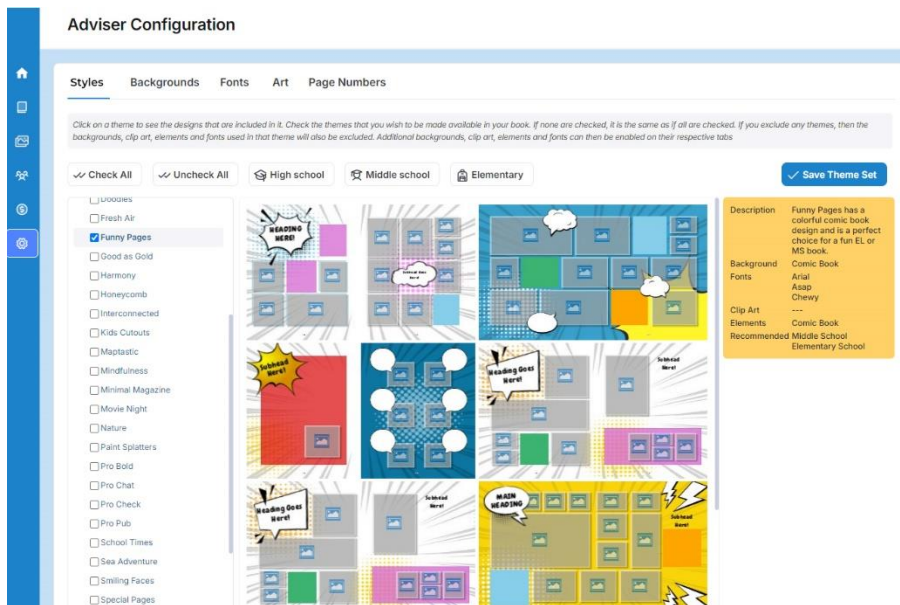

You can use the controls on the Configure page to enable and disable Styles, Backgrounds, Fonts, and Art. This feature is available only to users with Adviser privileges.

Select the type of content you would like to manage, then click on a category to see previews of its contents. Click the checkbox next to the content that you would like to be available on the site. Then click Save. Only the selected content will be available to users of the site.

If no content is checked, then all content will be shown.

Styles are organized into categories for *Elementary School*, *Middle School* and *High School*. Check the box the styles you would like to display, and click Save.

Style Info is displayed to the right of the style preview and contains detailed information about the contents of the style.

Selecting Styles on the Configure page.

Click *Page Numbers* to view the current page number status and position.

Click Reset to reset all page numbers to the current settings.

Below are the available settings for adjusting page numbers. Contact YearbookLife to change any of these variables in your book.

Placement: Top or bottom; inside, centered, or outside

Page number margin, which is the distance from the edge of the page (in inches): 0.25, 0.3125, 0.375, 0.5, 0.625, 0.75

Font: Arial, Comic Sans, Times New Roman, Trebuchet, or Verdana

Font size (points): 9, 10, 11, 12

Page number style: #, -#-, or #/#

Outline: Yes or No

10 SUBMITTING YOUR YEARBOOK FOR PRINT

You will submit your final yearbook on the *Yearbook* page. The features for proofing and final acceptance of your yearbook are only available for users with *Adviser* privileges. If you don't see these features, you do not have *Adviser* privileges.

10.1 The Basic Proofing and Acceptance Process

You will typically be required to review a proof before submitting your final book for print. Your proof may be a Press Proof (printed proof) or Digital Proof (online PDF proof) depending on your agreement.

This section provides an overview of the basic proofing and acceptance process. Please see the following section, [Proofing Options](#), for more specific detail regarding each proofing option.

10.1.1 The Submit Button

The Submit button appears at the top of the Yearbook Ladder page.

Once all sections have been marked as *Approved*, by clicking the *Approve* icon on the Yearbook Ladder, and show a status of *Reviewed*, click *Submit* to begin the proofing, approval and printing process.

Click the Submit button to start the Proofing process.

10.1.2 The Approve and Reject Buttons

Once you've submitted your book for a proof, all features in the software will be locked to prevent further editing of the book. You will see *Accept Proof* and *Reject Proof* buttons at the top of the page.

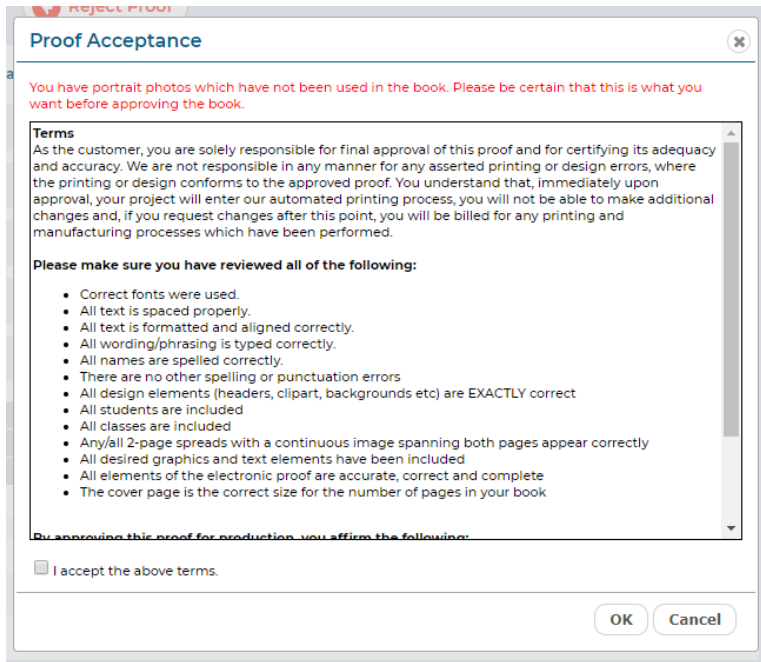

After reviewing your proof, click *Reject Proof* if you need to make any corrections. The software will be unlocked, and you can click the *Reject* icon on the Yearbook Ladder to unlock any section, then click the *Edit* icon to make additional changes.

Once you've made the necessary corrections, click the *Mark Complete* icon, and then the *Approve* icon, to approve the section once again. Once all sections are approved, you can click *Submit Proof* to request another proof for review.

When you are satisfied that the proof is exactly as you'd like, click *Accept Proof* to accept your final proof of the book and proceed with the printing process.

10.1.3 Final Acceptance

Upon clicking Accept Proof, you will be asked to review the *Proof Acceptance* dialog, and accept the terms.

The Proof Acceptance dialog.

Please review all of the terms carefully, then check the checkbox when you are ready to accept the terms and submit your final book.

IMPORTANT! You will see a red error message if you have any potential problems with your book, such as portraits that have not been included. Please review any error messages carefully and make all of the necessary corrections before proceeding.

Once you've accepted the proof, a final PDF will be rendered for production, and the book will be locked to prevent further editing.

Tip! The software will automatically generate a high-resolution PDF file and deliver it for production. An email notification will be sent at the time the order is submitted.

Quantities for both the proof and final print should have also already been configured on the Administration Pages based on your agreement.

10.2 Proofing Options

There are two options for proofing and approval of your yearbook that can be configured in the Administration pages by YearbookLife: Press Proof, and Digital Proof. Each of these options is described in more detail below.

Please contact YearbookLife or your administrator if you have any questions about which process you will be using.

10.2.1 Option 1: n/a

10.2.2 : Press Proofing – Hard Copy Proof

If the software has been configured for *Hard Copy Proof*, once all sections have been marked as *Approved*, by clicking the *Approve* icon on the Yearbook Ladder, and show a status of *Complete*, a *Submit* button will appear at the top of the Yearbook page.

Click *Submit* to begin the proofing, approval and printing process.

Click the *Submit* button to start the *Proofing* process.

A PDF file will be rendered, and a printed proof book will be provided. Please communicate with YearbookLife regarding the details of the press proof delivery.

Once you've submitted your book for a proof, all features in the software will be locked to prevent further editing of the book. You will see *Accept Proof* and *Reject Proof* buttons at the top of the page.

After reviewing your proof, click *Reject Proof* if you need to make any corrections. The software will be unlocked, and you can click the *Reject* icon on the Yearbook Ladder to unlock any section, then click the *Edit* icon to make additional changes.

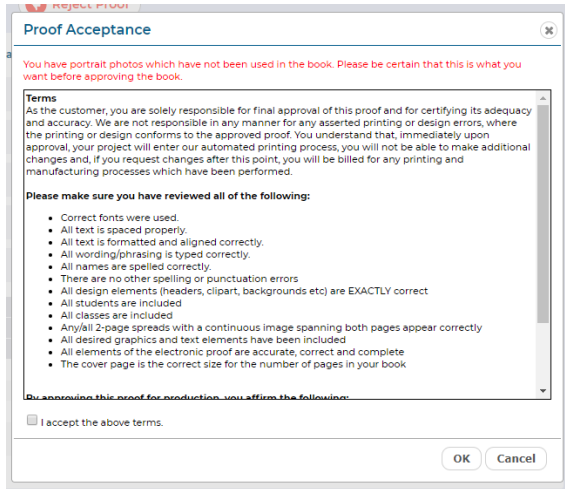

Once you've made the necessary corrections, click the *Mark Complete* icon, and then the *Approve* icon, to approve the section once again. Once all sections are approved, you can click *Submit Proof* to request another proof for review.

When you are satisfied that the proof is exactly as you'd like, click *Accept Proof* to accept your final proof of the book and proceed with the printing process. A second printed proof is not an option and not part of your agreement.

Click *Accept and Print* to submit your book and proceed with the printing process, without an additional proof.

Accepting Your Press Proof as Final

When you are satisfied that the proof is exactly as you'd like, click *Accept Proof* or *Accept and Print* to proceed with the printing process. The *Proof Acceptance* dialog will appear.

The Proof Acceptance dialog.

Please review all of the terms carefully, then check the checkbox when you are ready to accept the terms and submit your final book.

IMPORTANT! You will see a red error message if you have any potential problems with your book, such as portraits that have not been included. Please review any error messages carefully, and make all of the necessary corrections before proceeding.

Once you've accepted the proof, a final PDF will be delivered to production, and the book will be locked to prevent further editing.

Tip! The software will automatically generate a high-resolution PDF file and deliver it for production. An email notification will be sent at the time the order is submitted.

10.2.3 Option 3: Digital Proofing – No Proof/PDF Proof

The *Digital Proof* option provides an online PDF proof, and allows for online approval of the proof and final order.

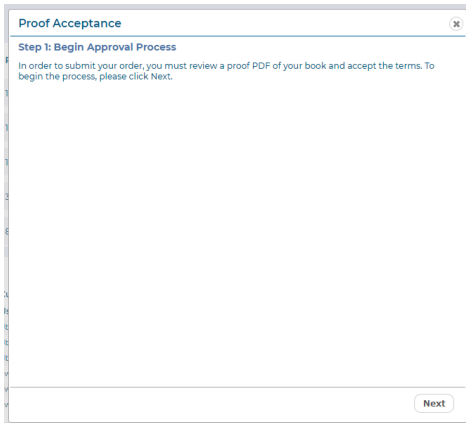

If the software has been configured for *Digital Proof*, once all sections have been marked as *Approved*, by clicking the *Approve* icon on the Yearbook Ladder, and show a status of *Complete*, a *Submit* button will appear at the top of the Yearbook page.

Click *Submit* to begin the proofing, approval and printing process.

Click the Submit button to start the Proofing process.

The *Proof Acceptance* dialog will appear, and the software will require review and approval of an online PDF proof of the entire book. Click *Next* to generate the PDF.

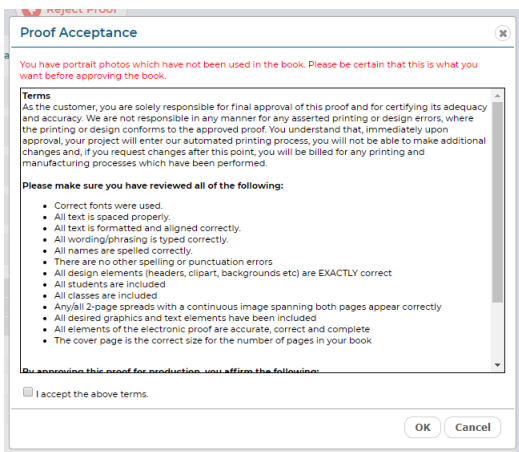

Step 1 of the Digital Proof approval process.

The software will generate an online PDF. A progress bar will be displayed during this process.

Once the PDF is available, click the link to display it on your screen. The Online PDF is intended for proofing only, and is not the final production PDF. It is thus lower resolution, and contains a PROOF watermark.

Once you have reviewed the entire PDF, click *Next* to proceed to the final step. The *Proof Acceptance* dialog will appear.

The Proof Acceptance dialog.

Please review all of the terms carefully, then check the checkbox when you are ready to accept the terms and submit your final book.

IMPORTANT! You will see a red error message if you have any potential problems with your book, such as portraits that have not been included. Please review any error messages carefully and make all of the necessary corrections before proceeding.

If the PDF is not acceptable, has errors, omissions, or other issues, click *Cancel*. The software will be unlocked, and you can click the *Reject* icon on the Yearbook Ladder to unlock any section, then click the *Edit* icon to make additional changes.

Once you've made the necessary corrections, click the *Mark Complete* icon, and then the *Approve* icon, to approve the section once again. Once all sections are approved, you can click *Submit Proof* to request another Digital Proof for review.

Once you've accepted the proof, a final PDF will be delivered to production, and the book will be locked to prevent further editing.

10.3 Proofing Status and Messaging

The *Proofing History* box at the bottom of the *Yearbook* page will display a complete history of the proofing process.

Submitted		Current Status			
User	Date	User	Date	Status	Comment
gwood@pixami.com	08/16/2018	gwood@pixami.com	08/16/2018	Rejected	Rejected by site administrator

11 CUSTOMER SUPPORT

Thank you for using the YBLive online yearbook software! We hope it's made the process of creating your yearbook fun and easy, and resulted in a product that everyone in your school will cherish for years to come!

11.1 Your Support Contact

If you have any questions that aren't addressed in this User Guide please contact YearbookLife or your administrator.

11.2 Knowledge Base

You can find this User Guide, Content Guides, Tutorial Videos, and a lot more on YearbookLife's website on the [YBLive Customer](#) page.

11.3 Troubleshooting

Since the software is 100% web-based, any issues that you experience could likely be caused by a slow or intermittent Internet connection. If you experience any issues, please try the following before contacting support:

- Reset your modem or restart your Internet connection.
- Restart your browser.
- Clear your browser cache.

11.3.1 Clearing Your Browser Cache

The browser cache is a temporary storage location on your computer for files downloaded by your browser to display websites. Your browser will display these 'cached' pages to make the page load faster. Sometimes the software requires a new updated page to be displayed, but the browser will continue to display the cached page. This is a common support issue, which can be very easily resolved by clearing your browser cache.

How to Clear Your Cache in Google Chrome

- In the top-right corner of Chrome, click the Chrome menu.
- Select "More tools" > "Clear browsing data".
- In the dialog that appears, select the checkbox next to ***Cached images and files***. Note that you do not have to delete Cookies or History.
- Use the menu at the top to select the amount of data that you want to delete. Select "the beginning of time" to delete everything.
- Click "Clear browsing data".
- Restart your browser and then try again.

How to Clear Your Cache in Mozilla Firefox

- Click the menu button and choose "Preferences".
- Select the "Advanced" panel.
- Click on the "Network" tab.
- In the **Cached Web Content** section, click "Clear Now".
- Close the "about:preferences" page. Any changes you've made will automatically be saved.
- Restart your browser and then try again.

How to Clear Your Cache in Microsoft Edge

- Click the three dots on the top right corner of the browser.
- Select "Settings" from the pull-down menu.
- Select "What to clear".
- Select **Cached data and files**. Note that you do not have to delete Cookies or History.
- Click "Clear".
- Restart your browser and then try again.

How to Clear Your Cache in Apple Safari

- In the Safari menu bar, click the "Safari" option.
- Select the "Preferences" link.
- In the Preferences window, click the "Advanced" tab.
- At the bottom of the window, select the "Show Develop menu in menu bar" checkbox.
- Return to the Safari menu bar and click the "Develop" option.
- Select the **Empty Caches** link.
- Restart your browser and then try again.

11.3.2 Diagnostics

If you scroll down on the Activity page, you will see the text *Click here to display diagnostics for technical support*. Clicking this link will bring you to a page with basic system performance diagnostics. This information will aid technical support in troubleshooting any problems that you may have, and you may be asked to display and communicate the contents of this page by support staff.
